While the Commissioners, next June, are selecting school books for our public schools, wouldn't it be best to pay little attention to the many agents, and companies mostly northern who are striving to have their particular product chosen, just simply for the money there is in the deal for them. Wouldn't it be a good idea to select a history and all other books as far as possible, by southern authors who tell the truth about all matters, especially matters pertaining to our soldiery in the late war. Barnes' history, now in use, is considered by all who are posted to be almost worthless.

The Government Stamp. Men write to The World to say that "it is the Government stamp which gives gold coin its currency by making it legal tender for its face."

But gold coin is not in fact either current or legal tender "for its face." It is both current and legal tender for what it is worth by weight, no more, no less.

The law is explicit and the custom equally so. The law says that American gold coins shall be received in all payments, when of full weight, according to their respective values, and when of less than full weight, at less values proportioned to their respective actual weight."

That is to say, the Government stamp certifies the quality and genuineness of the gold, and the law compels you to take it, not at its face value but for what it is actually worth by weight. And, in fact, that is the only way in which the Government itself or the banks take gold or pay it out.

If your debtor offers to pay in American ten-dollar gold pieces you are required by law to accept them, not at ten dollars apiece by any means, but for exactly what they are worth by weight.

The Government stamp gives value only in so far as it pledges the Government to the direct or indirect redemption of the metal piece or the paper on which it is placed. It makes minor subsidiary coins and paper notes good within the country because it pledges the Government to take them back, and because the Government refuses to issue more of them than are needed here, or more than it can take care of. It does the same thing for silver dollars so long as their coinage is restricted to the country's own possibilities of use. It can do no more. It cannot add one cent to the actual value of a silver dollar which contains only 52 cents' worth of metal.

The original weight of gold coins is fixed according to the actual value of the gold in them. As that gold is worth the same the world over, an American ten-dollar gold will pay ten dollars' worth of debt in any country. The weight of a silver dollar is determined by fiat of the Government, and so wherever the fiat of the Government is not law the silver dollar will pay no more of debt than the silver in it is worth.

Under free coinage we shall be required to receive silver coins at \$1.29 an ounce, which we can use only at 88 cents according to the actual value of the gold in them. No stamp of the Government can make them worth more beyond its own jurisdiction.

This is why free coinage at present ratics and without international agreement is an invitation to chaos and disaster.—N. Y. World.

Sciatic Rheumatism

For real blood diseases relief can only be obtained by using a real blood remedy. So many people who are sufferers from an obstinate or deep-seated blood disease make the mistake of taking remedies which at best are only tonics and cannot possibly reach their trouble. It is in just such cases which other so-called blood remedies cannot reach that S.S.S. has made some of the most wonderful cures. Rheumatism is one of the most obstinate diseases of the blood, and there are few remedies which have any effect whatever upon it.

Mr. Asa Smith, who resides at Greencastle, Indiana, where he is well known, writes: "For many years I have suffered from that terrible disease known as Sciatic Rheumatism, which the treatment of many physicians failed to relieve. I have also used every known blood remedy, but they did me no good, as they did not seem to reach my case at all. Possibly my condition and the extent of my sufferings

can be better appreciated when I state that the disease reached a point where it was a matter of utter impossibility for me to take my food, or handle myself in any way, and for several months the nurses were compelled to turn me in bed by use of the sheets.

"This was my condition when S.S.S. was recommended to me, and I must confess that I had little hopes of any medicine benefiting me. I was soon encouraged, however, when after taking three bottles I was able to move my right arm. I continued to take the medicine and before long was able to walk across the room, and when I had finished one dozen bottles was able to get about as of old.

"I have been hale and hearty now for two years, without any sign of a return of the disease. I will never cease to praise S.S.S., which I regard as the most wonderful blood remedy on earth; it brought me out of a condition of utter helplessness to one of robust health, with a weight of 170 pounds."

S. S. S. cures Scrofula, Cancer, Eczema, and any form of blood troubles. It is guaranteed purely vegetable and forces out the poison permanently. If you have a blood disease, take a blood medicine—S. S. S. is exclusively for the blood and is recommended for nothing else. It has made some truly wonderful cures of Cancer, where death seemed the only relief, and we will take pleasure in sending to anyone full particulars of these cures, and also our valuable books. NOT LIKE OTHERS There is a difference between medicines and medicines. Those of to-day, as a rule, differ from those of the past in many respects. Fully as great is the difference between Dr. King's ROYAL GERMETUER and the ordinary medicines of to-day. It is unlike them in THESE FIVE THINGS: 1. It does not taste like a medicine. It is as pleasant to take as lemonade and makes a most refreshing drink. 2. It never nauseates the most delicate stomach. 3. It does not swap off one disease for another. It does not set up one form of disease in order to relieve another as is so often the case. 4. It contains no alcohol or opium in any form and is always harmless even when given to a babe one day old. 5. It does not patch simply, it cures. It reaches as nothing else does to the hidden sources of disease in the blood and removes the cause. It does this with an ease and power that have never been equaled. For all troubles of the Blood, Stomach, Bowels, Kidneys and Nerves, and for all forms of MALARIAL POISON it stands pre-eminent—without a rival or a peer. Sold by druggists, new package, large bottle, 100 Doses, One Dollar. Manufactured only by THE ATLANTA CHEMICAL CO., ATLANTA, GA. WRITE FOR 65-PAGE BOOK, MAILED FREE.
