FIVE MEN KNOWN TO BE DEAD. There Were One Hundred Miners at Work In the Slope When the Catastrophe Occurred.

PANIC FOLLOWS DISCOVERY OF

FIRE IN BELLE ELLEN SHAFT.

NO. 47.

Shortly after the man went to work in mine No. 2, of the Bessemer Land and Improvement company's coal mines at Belle Ellen, near Blocton, Bibb county, Ala., Monday, morning, fire was discovered far down in the main slope.

About one hundred men are em-, ployed in the mine and an alarm was at once given. A panie followed among the workers and in the little town of Belle Ellen.

Hundreds of men, women and children gathered at the main entrance of the smoking mine, while rescue parties were at once formed to relieve the miners.

More than fifty were got out from the various entrances without harm. Others were overcome by smoke and fell by the wayside. These the brave rescuers found and dragged out, while those at the entrance restored life to

A scene of wildest excitement pro

"Each officer is to wire daily, if possible, the number of cases and deaths at points in district

The advices received by Surgeon General Wyman Friday night included the following:

From Vicksburg, Miss., Dr. Hupter, president of the state board of health, reported that there had been one suspicious case at Nitta Yuma. There is no one sick now.

From Mobile, Dr. Guiteras reports: Day ending at noon, cases previous report, three; new cases, two; suspicious cases, three; deaths, two. Total under treatment five.

The fever situation in New Orleans assumed a more serious aspect Friday than at any time since Sunday, when six of the St. Claude cases were declared to be yellow fever. At 6 o'clock in the evening the board of health of the city announced the appearance of eight new cases, and of these one death. At the office of the board.of health reports were considered somewhat surprising and disappointing. Friday was one of the hottest days

of the month, and as yellow fever thrives in that character of weather, there seems to have been a rapid development of germs. The physicians still feel, however, that there is much that is satisfactory in the situation. It is true that the new cases reported represent the extreme upper, the extreme lower and the central portions of the city, but there has been no serious spread from original people are uniformly of the opinion that the foci, and the hopeful opinion is still man who appointed the postmaster at expressed that the disease may be controlled and that there is no iminent danger of an epidemic.

Secretary Patton, of the board, said Friday evening:

"The appearance of eight cases today is not necessarily alarming. I of the community, knowing at the time that said three evenings ago that the pros- the appointment would be taken as a delibpects seemed to point to the develop- erate effort on his part to degrade and ment here of at least fifty cases as a humiliate them, was himself, from a moral result of constant intercourse we have | standpoint, an accessory to this lamentable been having with the infected towns | crime. on the gulf coast and the fact that a promismous throng of some 700 or not blame the republican party for giving 800 people had hastened into the city on the Monday evening following the declaration of the Ocean Springs sickness to be yellow fever. We have had now twenty-eight cases and two deaths. The majority of the remaining cases are improving. It is still quite likely that there will appear numerous cases in New Orleans, but the situation is fect of this. I reply that the effect will be not distressing and the chances of a disastrous epidemic are remote."

INVESTIGATION ORDERED.

Mr. Carter, of Engineer Corps, Charged sequences.

With Changing Government Plans. A Washington special says: The secretary of war has appointed a board of engineer officers, comprising Colonel Gillespie and Majors Adams and Raymond to proceed at once to Savannah, Ga., to investigate certain reports that have come to the war department to the effect that the work upon the river and harbor improvements of Savannah river and Cumberland sound

under the charge of Captain Oberlin M. Carter, of the engineer corps, has not been done in accordance with the project of the department. It is expressly stated at the war department that there is no statement of irregularity in the accounts of Captain Carter, but merely a change of departure from the authorized plans of of the department.

The captain enters a most emphatic denial that he has done anything that was not in the interest of the United States government.

The board appointed to inquire into the matter is composed of the ablest men in the engineer corps. Colonel Gillespie is president of the Mississippi river commission, stationed at New York. Major Adams for years was the righthand man of the chief of engineers at Washington and is now stationed at New York, while Major Raymond has charge of important works in Pennsylvania and a Dela-

# FLANAGAN BROUGHT TO BAY.

ware section.

Great excitement prevailed in De catur and Atlanta Wednesday over the report that Edward Flanagan, twice murderer, had escaped from the Decatur jail during Tuesday night. When Sheriff Austin went up to the

cells to carry Flanagan his breakfast at 7 o'clock Wednesday morning the murderer was missing. An alarm was at once raised and a search immediately instituted. One of the searching parties found the murderer in another and unused cell of the jail into which he had mysteriously gained admittance and hid. When discovered Flanagan showed fight and attempted to brain one of the intruders.

In making the capture a desperate struggle ensued, in which Flanagan was finally brought to bay by a blow on the head from a scantling in the | presidents: hands of the village blacksmith.

Orleans-Plague In Cairo, Ill.

The announcement of eleven new

There is one courageous band, of which Judge Price Williams is the ited. leader, which remains with the stricken city in her hour of trial. They have fought epidemics before.

Some of them went into the front ranks against the southern scourge in 1853 and are gray headed men now, and the constancy and heroism which they have formerly exhibited is still to be witnessed. These spartans are encouraging, by all means in their power, those who consider themselves unfortunate in not having the means to desert their homes.

There were two deaths from yellow fever at Edwards, Miss., Saturday morning, one of them being just outside of town.

A total of thirty-nine cases are pronounced yellow fever by the doctors. The rapid spread of the disease is remarkable, and it is now well distributed through the town. Four new cases were reported Sunday.

The fever situation at New Orleans underwent little change Sunday. The record book in the board of health office showed a total of six new cases and one death.

A special from Cairo, Ill., states that Dr. Guiteras, the yellow fever expert, arrived there from Mobile at noon Sunday, and announced two suspicious cases at the marine hospi-

Women and children were screaming and sugar, syrup, molasses and fruits, which would have gone into the state shouting for help, and a fire brigade was at work endeavoring to overcome of Alabama by the Southern railway, the flames. and the whole traff c on all roads into

Five men who were working about the slope where the fire originated, could not be reached, and it is regarded as certain that they are dead. The missing were:

Herman Framer, white; Hubbard Foley, white; Henry Reeves, colored; Frank James, colored; William Fairfax, colored. It is possible that two or three others also may be in the mines.

The fire brigade battled with the flames all day in a vain attempt to reach the entombed men, but at nightfall the fire was still burning fiercely and efforts were abandoned. A later telegram from Belle Ellen says the fire is thought to have originated from an ville building, on the centennial overheated steam pipe, which ignited grounds, and were called to order by gas in the mine. A careful check is President J. B. Hunnicutt, of Athens, being made of the list of miners in the Ga. He spoke a few words on the mine where the fire broke out to ascerpurpose of the meeting to enlighten tain if possible if the death list will the public on the question of irrigation, exceed five.
