Grand Banquet.

Atlanta's Peace Jubilee celebration began Wednesday morning with the arrival of President McKinley and party at 8 o'clock.

The trip of the presidential special from Washington to Atlanta was without incident and but few stops were made. At every station after leaving Washington the train was met by tremendous crowds, but with few exceptions the sightseers, only had an opportunity to catch a glimpse of the fying cars.

When the chief executive stepped from the train at Atlanta he was accorded an ovation by a big crowd President McKinley and General which had gathered at the station. Suggestion In His Remarks as to Care of

Confederate Graves Was a Gracious Act.

A Washington special says: Southern congressmen, with one accord, commend in the most friendly terms the suggestion made by the president at Atlanta Wednesday relative to national aid in caring for the graves of the southern heroes who gave up their lives in the war between the states. It is probable that a bill to carry out the president's suggestion will be inmade by the large crowds in honor of troduced in the house at an early day. It is generally conceded that such a measure should emanate from the republican side of the house. It is also proposed to amend the act which designates the 30th of May as the National Decoration Day, so that union and confederate graves may be strewn priate ceremonies, on the same day. Georgia and South Carolina congressmen were especially friendly in alluding to what they termed a magnanimater on the part of the president. The President's Address.

President McKinley spoke as fo lows:

"Sectional lines no longer mar the map of the United States. Sectional feeling no longer holds back the love we bear each other. Fraternity is the national anthem, sung by a chorus of forty five states and territories at home and beyond the seas. The Union is once more the common altar of our love and loyalty, our devotion and sacrifice. The old flag again waves over us in peace with new glories year added to its sacred folds. What cause we have for rejoicing, saddened only by the fact that so many of our brave men fell on field or sickened and died from hardship and exposure and others returning bring wounds and diserse from which they will long suffer The memory of the dead will be precious legacy, and the disabled will be the nation's care.

"A nation which cares for its disabled soldiers, as we have always done, will never lack defenders. The national cemeteries for those who fell in battle are proof that the dead as well as the living have our love. What an army of silent sentinels we have, and with what loving care their graves are kept! Every soldier's grave made during our unfortunate civil war is a tribute to American valor. And while when those graves were made we differed widely about the future of this government, these differences were long ago settled by the arbitrament of arms-and the time has now come in the evolution of sentiment and feeling under the providence of God, when in the spirit of policy of the government with referfraternity we should share with you in | ence to the newly acquired territory, the care of the graves of the Confederate soldiers.

"The cordial feeling now happily existing between the north and south prompts this gracious act, and if it needed further justification it is found in the gallant loyalty to the Union and the flag so conspicuously shown in the peace and progress. Who will withyear just passed by the sons and grand- draw from the people over whom it sons of these heroic dead.

A Gorgeous Pageant.

The Jubilee pageant which took place Thursday was a magnificient success in every detail. The pent-up enthusiasm of the citizenry of Atlanta, Georgia and of the south, which has been smoldering in the breasts of thousands since the first shot was fired in the Spanish-American war, broke out in cheer after oheer when the a nation s "uerode adu through the streets an hour after noon. Throughout the entire line of march a mass of people thronged the streets and as the divisions passed in review

a cheer was given-one that was loud and long. The crowd was a demonstrative one and showed its appreciation of the

presence of the visitors who took part in the procession. The parade itself required an hour to pass a given point and the gait which the Pennsylvania and New Jersey soldiers kept up was a rapid military stride, space was covered at almost a trot.

The success of the parade from the point of size, magnificence and interest was beyond doubt the greatest buy the American stocks and bonds that Atlanta has ever had.

President McKinley and his part arrived at Savannah, Ga., at 11 o'clock Saturday morning. They were met at the depot by a tremendous crowd. The Georgia Hussars acted as an escort to the party to the parade grounds, where a review of some fourteen thousand troops encamped about Savannah, under command of Major General Warren Keifer, was held.

The streets from the depot to the parade grounds were one mass of peo-

The principal feature of the passage through the streets was the great reception tendered General Joe Wheeler. The doughty little general was kept standing in his carriage almost the entire length of the drive bowing his acknowledgments to the plaudits of the crowd.

After the review there was a trip down the river on the pilot boat J. H. Estell, and at night there was a grand banquet at the DeSoto hotel, at which the president and members of the cabinet made speeches.

Notwithstanding Sunday was supposed to be a day of rest with the presidential party, it was, as a matter of fact, filled with interest and activity. The feature of the day was the president's visit to the Georgia Agricultural and Mechanical college, the institution for colored persons, supported by the state of Georgia. Its president, R. R. Wright, colored, was recently appointed by President Mc-Kinley a paymaster in the volunteer army, with the rank of major, but has resigned and returned to the school. There were no elaborate exercises connected with the visit of the president to the college.

the best republican I know. It was a gracious act on his part and I am not surprised that the sentiments he expressed in Atlanta yesterday touched the hearts of the southern people. I can well understand the military patriotism which fills the president and he was exceedingly happy in selecting the right time and place to give voice to such expressions as he gave utterance to.'

Colonel Lester applauded the president's action by saying: "President McKinley has such a nice way of doing nice things that I am not surprised at the sentiments he expressed yesterday concerning the confederate dead."

Colonel Livingston, Representatives Tate, Bartlett, Griggs, Lewis, Brantley and Fleming also Senators Bacon and Clay, all Georgians, expressed their warm approval of the suggestion made by the president.

Gen. Gordon Pleased.

A dispatch from Richmond, Indiana, where Gen. Gordon lectured Wednesday night, says: General John B. Gordon, of Georgia, said in an interview concerning President McKinley's speech at Atlanta: "I have read the speech with much interest and was greatly delighted. It was probably a great surprise to some of our people, but it was not so to me. I have known President McKinley for a great many years and have had the profoundest respect for him as a man and a patriot. This Atlanta speech is in entire keeping with what I have known to be his liberal impulses toward the south for a number of years. He is a very broad man as well as a capable one."

ATLANTA PIONEER DEAD.

A semi-official note issued at Madrid Thursday says:

"As the American senate must ratify the treaty of peace before it becomes effective, our government should wait for this ratification and not hasten to cede territory which the United States may not accept.

Opposition Subsiding.

A Washington special says: It looks now as if the opposition to the ratification of the peace treaty which was expected in the senate will evaporate before the matter comes up for discussion. That it will be made the of any force will be made to defeat

the treaty. If is possible that there may be no vote against ratification, the understanding being the settlement of the question of 'expansion will not be involved in the treaty. This situation is likely to be brought about by many considerations, but chiefly by the fact that Mr. Bryan advises his friends against making a fight on the treaty.

The fact that in the south a celebration of the signing of the treaty is being held, which is being made the occasion of the loftiest patriotism; also contributes greatly to 'the stifling of the opposition to the treaty. The opposition in the senate comes chiefly purpose of memorializing the soldier from supporters of Mr. Bryan, largely southern men. A canvass of the senate discloses that up to a few two-thirds vote in favor of the ratification and that the opposition out of the republicans was confined to probably not more than three men.

The most determined opponents were men who were closest to Mr. Bryan of all in congress. It is understood that the presentation of the case in favor of ratification made by Mr. Bryan, who at the same time urges against expansion, together with the demonstration of joy in the south over the signing of the treaty, has made an impression upon this opposition. The chances now seem 'to be that the fire against expansion will be postponed until after the treaty has been ratified. It will come up when legislation for the government of the islands is proposed, and that will not be before next congress. Meanwhile the opposition is likely to be confined chiefly to debate.

Both parties are at this time to some extent divided on the question of expansion, but it is generally regarded as certain that the Republicans almost to a man will support whatever policy is finally adopted by the administration.

I was glad that the president of the United States had decided to visit our section, to meet our people and see what progress we are making in the development of our resources. "The president, as commander-in- chief of the army and navy of the United States, has alluded to the gal- lantry of the soldiers and sailors of our army and navy, but it is not known, because of the modesty of the chief executive, that every effort was exhausted to preserve peace." Gen. Wheeler said war was not de- clared until it became necessary for the preservation of the country's honor.
