ETHNOLOGY BUILDING, PAN-AMERICAN EXPOSITION.

Copyright, 1900, by the Pan-American Exposition Co.
One of the handsome structures at the great Pan-American Exposition, which is to be held in Buffalo from May 1 to Nov. 1, 1901, will be the Ethnology building. It will contain an exhibit of unusual interest to all Americans. Ethnology is the science which treats of the division of mankind into races, their origin, distribution and relations and the peculiarities which characterize them. At Buffalo the Ethnology building will be a veritable mine of information concerning the countries of North and South America. This will be particularly appropriate for the reason that the Exposition is a Pan-American, or All-American, event, and everything of interest concerning the various nations inhabiting the new world discovered by Columbus will be represented by an interesting exhibit in Buffalo when the Exposition's gates open on May 1, 1901. Strange to relate, the most interesting exhibits concerning several countries in South America are already in this country. Peru, for example, will send many interesting exhibits to the Pan-American Exposition and will use her influence to have exhibited in her section the remarkable collection of Peruvian antiquities now owned by various American museums.

DR. SENNE ROBBED.

The Negro boy in his Shop Robs him of cash and Umbrella

Dr. Ernest Senne and his former employe, Charles Smith, the negro boy who has been working around his parlor, figured in a case in the mayor's court Monday morning.

Smith went to the shop Sunday morning to clean up and finding Dr. Senne asleep in his room proceeded to touch the filler and secrete a very fine umbrella, the property of Dr. Senne.

Monday morning he was arrested and looked up.

On trial he admitted that he had taken the money but denied that he had any connection with the disappearance of the umbrella. He was bound over under a \$25 bond.

MRS. BAYS STRUCK BY LIGHTNING.

Her injuries, however, were not serious. An Electrical Storm.

Mrs. W. W. Bays, we regret very much to learn, was struck by lightning during the electrical storm Sunday afternoon.

Mrs. Bays was in the yard when the storm came up and was felled to the ground by the stroke. For some time she was unconscious but, the many friends of herself and the family will be pleased to learn, she is very much improved today.

The injuries sustained were marks on the head and arm. With the exception a swollen hand she has entirely recovered from the shock.

The electrical storm here Sunday was unaccompanied by rain but was very violent while it lasted.

No serious damage, however, to property or person, was done.

HOSPITAL CLOSURES FOR SUMMER.

The Newman Hospital closes until middle of September.

The W. G. Newman, Jr., hospital closed today until the middle of September, the two nurses Misses White and Jones, left Monday morning for Richmond to spend their holiday.

Miss Jones has been tendered a position in the Johns Hopkins hospital but will return to Salisbury when the Newman hospital re-opens.

This hospital has been a great factor for good in Salisbury since its doors first opened. Many persons have gone to this institution bereft of health or critically injured and have been sent forth from its walls cured. It will be agreeable news to the Salisbury public that it will be re-opened in September.

Mrs. N. M. Griffin will remain as housekeeper and Dr. and Mrs. W. A. Newman will spend the remainder of the summer there.

A Big School.

Prof. P. E. Wright, principal of the China Grove High School, was in the city Mon. morning. Prof. Wright's school opened last week and he tells us that there is already an attendance of 180, and this number will be materially increased within the next two weeks.

Col. A. H. Boyden returned Saturday night from Lexington, where he had been to attend the canvass of the Senatorial vote. The majority for the Democratic nominees, Hon. John S. Henderson and Mr. Jno. C. Thomas, was 2380.

Some Comparisons.

NON-ADVERTISERS	CRAWLS, Barely pays expenses, Often fails, Hard times.	THE OCCASIONAL ADVERTISER	Walks, NEVER HIS WAY, Seldom Fails, Some Profits, Dissatisfied.	THE BRIGHT AND CONSTANT ADVERTISER	Wins, Never Fails, Large Profits, SUCCESS, Happiness.
-----------------	--	---------------------------	---	------------------------------------	---

To what class do you Belong?

It is all nonsense to talk about having "as good and large a stock" as some one else, "quick sales and short profits," etc., without keeping the buying public well informed of it.

Advertisers feed at the crib of Non-Advertisers.

ADVERTISING PAYS

Sometimes it pays more in proportion than others, but it is like store rent.

A Business Man Recognizes

its value, one as much as the other. If trade should be a little dull for a few days he would not close up to cut off expense, but set about to improve matters. Most of the great

SUCCESSFUL BUSINESS HOUSES

keep things humming by keeping the people well posted as to every item in stock, and DEPEND SOLELY UPON JUDICIOUS ADVERTISING FOR SUCCESS.

The old time mariner depended upon the winds and the waves for a voyage, but to-day by power, speed and brains he plays with the tempest. Setting around talking and whittling will make a successful loafer and candidate for the poor house, but a poor business man. The man who shrinks before his last is defeated at the start. The duller his trade, the more time he has to get up advertisements, such opportunities the wise man grasps and reaps his reward while others cry "hard times."
