

# Shout Your Loudest! For we Have Pushed Prices Down

another notch, hammered and slashed until cost and value are no longer thought of.

Why even our forefathers if they were here to judge by the PANIC PRICES we have made on Dress Goods, Silk, Embroideries, Shoes, Gents' Furnishings, Rugs, Carpet, Matting, etc., no doubt would come to the conclusion that our minds were unsound. But to get rid of all winter goods is the one idea and we must do it quickly. The prices of worthy merchandise have been ruthlessly and unmercifully cut. Broken lines, odd lots and short lengths will all be swept out at once. Cost and profit have not been considered at all. Now is the time to test our ability to make you comfortable, SAVE you money and satisfy you with seasonable goods at very low prices that will compel you to buy.

### Advertising Logic.

Publisher—Well, how is business?

Newdeal—Very dull to-day.

Publisher—Why don't you advertise?

Newdeal—Oh, my friends know I am here. I speak to them when they call and then I have a sign over the door. That's enough.

Publisher—How much corn do you suppose you could shell by hand in a day?

Newdeal—Couldn't say. I suppose several bushels.

Publisher—Don't you think you could do more with a corn-sheller?

Newdeal—Certainly, it would then be a matter of effort.

Publisher—Yes, and so it is in selling goods by advertising.

A deal was closed for a half column ad.

### The Tables Turned.

It is usually the custom for school teachers to whip their pupils, but the other day Waldo Ebird reversed the rule and whipped his teacher. Rev. Caldwell teaches a school in the country a short distance from Salisbury, and Ebird is one of his pupils. Mr. Caldwell undertook to whip the boy, who is rather large for his age, and the latter objected very forcibly. The two wrestled around for awhile and finally got out in the yard. The teacher is reported to have picked up an axe handle to assist in conquering his refractory pupil when the boy took it away from him and used it on the teacher. The matter was taken before Esq. D. M. Miller for investigation and settlement.

### Fire Scare at New London.

About 1:30 yesterday morning the residents of New London who live near the Culp House, were aroused by a cry of fire, and hurriedly connecting themselves with a few articles of apparel, they rushed over to the residence of Dr. J. M. Peacock where the blaze was. A couple of young men occupied an upper room in the house and during the night some coals fell over from the fire place and dropped down a convenient crack next to the mantle board. The woodwork between the floor and the ceiling was soon in flames. Dr. Peacock secured an axe and soon chopped a wide swath across the floor so that water could be thrown on the flames, and the fire was extinguished. The damage was not serious. Those who were there say it's a sight to see Dr. Peacock handle an axe, for he cut through about four plank at every stroke he made.

### The Folger Case.

The trial of W. H. Folger, for the killing of Bob Moore, at Spencer, on the night of January 27th, is not yet concluded. The evidence is all in but the attorneys had not completed their arguments to the jury at the time of going to press. The case has at-

tracted a large number of persons to the court room who were anxious to hear all the testimony. Both Folger and the man who was killed have numerous friends. It would be out of place at this time to make any comments on the evidence, but it may be stated that several witnesses testified that Folger did the shooting while Moore was walking toward, or by him, on the way to the door of the restaurant. The defense endeavored to show by other witnesses that when Moore was shot he was making demonstrations which led Folger to believe he was in danger of losing his own life. The verdict will be awaited with interest.

Lawson Ludwick of the firm of Ludwick & Gant, has sold his interest to Dolph Gant.
