MAY 22, 1908.

The carnival, Salisbury's week of debauchery, is nearing an end. This, like other debauches, was conceived and arranged for during hours of perfect sobriety with the most careful deliberation and with full knowledge of the evils and consequences connected thereto. Men, women and children of all shades of society, have mingled freely, paid tribute to King Fake and some, perhaps many, will soon feel like kicking themselves for the part they so cheerfully played so long as the intoxicants were at hand. While some of the exhibitions are free from immorality, some are not. The high dive and the balloon ascensions are good, but the biggest show is the frolicing crowd. Old fools, young fools and most every other kind of fools, all seem to have struck town at about the same time, at any rate Mr. Carlyle's remark that "the United States is composed of about 60,000,000 people, mostly fools," is at this time, more than suggestive. "On with the dance, let joy be unconfined" is the spirit, and corrupted morals the price.

Ridge Road.

Well, here comes Polly. Mr. Editor will you please allow her space for her say.

The ground is getting dry and hard, but the farmers are going ahead working their crops.

Farmers of this section are being bothered greatly by agents and gnats. We hope there will not be any more around this season.

One of the leading farmers of this section has come to the conclusion that there is more pay in staying at home, plowing his corn and hoeing his cotton, than there is in peddling and hauling still slop. May the time soon come when all who are in this business will come to the same conclusion.

I have been informed there is an old maid in this community who wears a bouquet every day in the week, and on Sunday too, I reckon. Now bachelors, look out. This means she is beginning to look around. Stand straight girls, or she is going to get ahead of us.

Miss Lela Kluttz says she enjoyed the foot washing last Sunday. We don't doubt that at all.

Come again Sam Sniggleton, you are about right on the whiskey question.

Rev. J. E. Hutson makes the most effective temperance speech to which we have listened. Most temperance speakers offset the good they might do by falling into the very thing they are fighting. Some of the bitterest and extremest statements we have ever heard have come from men pleading for temperance, and intemperate temperance has done as much harm to the cause as any other form of intemperance. Mr. Hutson is most reasonable in his discussion of this much abused subject, but his logic leads you away from a bar room every time. —Charity & Children.

Among our Correspondents.

In introducing several new correspondents just at this time a few suggestions as to their duties are in order, some by the way that may be of profit to old members of the Pencil Pushers' Club. While some pleasantries may be indulged in among the writers too much of it becomes tiresome to the average reader. Be awake, catch the news items, give them preference over other matter and always strive to be accurate. Let's strive for the best possible, make every letter as neat, correct and interesting as possible. The training in penmanship, composition, etc., thus secured will be of permanent value to any one.

We take pleasure in adding Pat, of Woodleaf, to our list of pencil pushers. All his items are of interest and we hope he will become a permanent contributor.

Victory, of Craven, we regret, has asked to be relieved and suggests Custer as a suitable successor. As we can have only one in a neighborhood we take pleasure in placing Custer in the ranks. Hustler, of Stanly, has a very good batch of news in this issue. It is of general interest.

Somebody's Honey, of Tiger Creek, has a good lot of items this time, but his name is a little sentimental.

Venus, of Faith, is on hand. No foolishness about Venus.

Polly, of Ridge Road, is with us for this time. She writes well. Tom Dodger, of Reader Branch, was in town yesterday when he left some items.

X, of Chestnut Hill, is standing at our elbow asking if his items will get in this paper. As we put this in cold type, we answered, "yes."

Stanly County News.

Farmers are about through planting, but few have worked over any and there is no stand of cotton or corn, and cannot be.

L. L. Sheets, one of Palmerville's most highly respected citizens, has been very sick, but is some better at this writing.

Julius A. Coggin, who has been living near Palmerville, has moved into his new residence on the place which he recently purchased near New London. The residence has just been completed and is one of the finest in Northern Stanly.

The annual picnic at the Falls, which was rained out on Easter Monday was held yesterday, May 21st. Quite a large crowd was present and of course as usual a jolly time was the result.

The wheat crop is looking some better within the last few days, the indications now are that our farmers may yet be happily disappointed about harvest.

Prof. A. L. Wilhelm, of Richfield, was visiting last Sunday night at Palmerville. It looks a little suspicious to see him back when he has only been away two weeks.

Some of our people will attend the sale of V. Mauney, at Yadkin Falls, Thursday and Friday of this week. Mr. Mauney is going to live with his son at New London.

Culp & Co., of New London, have the contract to get out the timbers for erecting the large hoister and machinery of the Whitney Reduction Co., on the river near Pennington. This machinery is being erected for the purpose of unloading the rock which will be shipped there from the quarry near Salisbury, to be used in building the large dam across the river.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also

convincing proof that the kidneys and bladder are out of order.

What to Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

If you want to buy or sell a farm or town lot, write to us first. No charge for advertising unless a sale is made. TRUTH-INDEX.
