THE CONTEST IS SPIRITED.

The Workers Will Win—Subscriptions it What Counts.

Interest in voting contest continues to grow as time passes and the number of caucuses that are being daily added in evidence is enough that this trip is worth working for.

This contest is adding to the popularity of the already popular paper and that the trip is well worth working for is proven by the interest that is being taken in tabulating up the number of votes.

By mutual consent Miss Ethel Ward has withdrawn from the race as Miss Bessie Welley's runner mate and Miss Alice Whitlock another popular young lady has taken her place.

Dr. A. Marks

The Well Known Optician, formerly of New Bern,

has decided to locate in SALISBURY. Having had many years experience with a large practice I am enabled to relieve those persons having any ailments of the eye, causing pain and imperfect sight. I will give a satisfactory examination and fit them with suitable glasses.

In the rapid progress of science and scientific inventions for the past ten or fifteen years much has been done to discover the real cause of the loss of visual power in both old or young, and much has been learned and means discovered to remedy the defects of the eye by use of glasses, in all cases of far perfect vision, and headaches caused thereby. A perfect spectacle will give relief to eyes tired, weak, painful dimmed, or blinded. They offer a strengthening rest,

and refreshment. It will remove the cause of the difficulty and the eye will regain its brightness, beauty and health.

It requires professional guidance even when the best article is offered as the eyes are of varying dissimilar and may require compound lenses.

Examination and consultation free at the parlors of Mrs. C. G. Taylor, 209 North Main street. PHONE 133.
