Honest. It is seldom at the present time that a failure or assignment of business is a credit to the unfortunate parties interested. However, we have one instance of it in this city. Jones, McCobbins & Co. In their case it has been an honest misfortune. After four or five years of hard work and close attention to business, they find they are in difficulty. But with good credit of which they might have taken advantage had they been so disposed. No! They are honest men, and make an assignment, and are doing all in their power to pay up dollar for dollar. Such cases as this are of rare occurrence at this date.

Mocksville Railroad. The incorporators of the Upper Division of the Yadkin Railroad Company met at South River on the 17th inst., according to adjournment, and was organized by the election of Dr J W Wiseman chairman. Railroad Notes.

Elmwood will soon boast of a telegraph office. Mr Andrew Murphy has been retained in the Western railroad offices at this place.

W D Griffin, formerly agent at Black Mountain Station, has been appointed at Marshall. Col W A Turk, on account of his much accipitudo, is called by the boys "The prince of Whales."

It has been reported that there would be a change of schedule on the railroads. As it interferes with the mail it will not be done. Some thief has stolen railroad tickets from the station at Waynesville. Conductors, look out, and ditch them if you can.

J. R. Crawford, who has been engaged at Supt. McFee's office for some time, has been appointed operator at Round Knob. Major Whiting will soon commence a survey of the new railroad from Marion, McDowell county, via Bakersville, to Johnson City, Tenn.

The Leakville narrow gauge road has been placed in hands of a receiver, Maj. Forehand being there. There will be no interruption in the running of the trains. In Statesville court, the case of H. M. Jones, Administrator for Chas. Gordon, who met his death on the Western Railroad, was continued.

Mr Warren has been made assistant to Mr Wyche, the operator at the railroad offices here. Mr Earnest Shober is engaged in Col W A Turk's office.

The Lenoir narrow-gauge railroad have but two trains daily for the winter. Going west, leave Hickory at 6.33, a. m.; east, leave at 7.13 p. m.

Capt West, the clever engineer on the Western, has almost completed his neat and homelike looking house near the carshop. He intends to move in next month.

Supt. McFee has issued an order to conductors requesting them to pass travelling post-office and mail inspectors on presentation of certificate of appointment from U. S. Government.

Mrs. J. H. Trimble, wife of Capt. J. H. Trimble, who at one time was a conductor on the Western railroad, died suddenly at Laurensburg, N. C. Mrs. Trimble is well respected here as a kind hearted and Christian lady.

E B Thomas, general manager, Payton Randolph, assistant manager, Sol Hass, general freight agent, J H Drake and other officers of the R. & D., in company with Superintendent McFee and Col W A Turk, went up to Charleston and the head of the road on Tuesday. They are en route to Knoxville, Tenn.

Do We Want Chinamen as Servants?

Some time ago we had occasion to hear three citizens express themselves as dissatisfied with our present servants. After talking with many others on the subject of Chinese servants, we wrote the letter that is printed below. Our brother of the Tidings seems to think we want a deluge of Chinamen all at once. Oh no! We want to try 25 or 30 as town servants.

Chinamen Wanted.

A GOOD COUNTRY FLOWING WITH MILK AND HONEY INVITES INVASION. We received this morning the following letter. It is from a rich mining and agricultural region. This is what the letter says:

NORTH CAROLINA HERALD, Salisbury, N. C., Oct 26, '93. EDITOR TIDINGS.—Some of our citizens have concluded they would like to try Chinese labor. Young men would do the best and could get from 75 cents to \$1. per day as laborers. If you are overrun with them advise their coming down here to a land of plenty. At first it would be hard for them to understand the ways; but I believe they would do well here. Wages are low, but living is cheap, and work plenty. Yours truly, Rich'd. EAMES, JR.

We advise the Chinamen to go. Salisbury, North Carolina, is in a beautiful country and a Chinaman can there lay up money at four bits a day. We speak knowingly for we were once in that town. Our editorial brother is off his nut when he says "at first it would be hard for them (the Chinamen) to understand the ways." No sir, the Chinaman can take the square root of the average North Carolinian in less than three seconds. The Chinaman understands a situation as soon as he sees it; never have any fears about him not knowing it all. The way to get them is to write to the "Six Companies," San Francisco, and ask for as many as may be wanted. We will do our best to help North Carolina get them, and that country will get them even as Egypt got locusts and frogs and some other left handed blessings.

MINING.

Every miner and mining man should have the Herald, as it will give you the information whereby you can find employment and know what mines are in operation. Every week some of the Superintendents are in this city making inquiry for good men.

Cyrus J. Knight has sold his gold mine near Troy, N. C., for \$12,000. Rudial Mine. They have put in a fine concentrator at the Rudial mine.

Long Creek Mine. J. M. Williams, of Boston, Mass. was in Salisbury last week. He is operating a ten stamp mill at the Long Creek mine.

Vein Mountain Mine. This mine has a large plant of machinery in operation. The best results obtained lately was from ten days work, which produced \$10,000. One nugget weighing two and three quarters pounds. We do not look for such great results every ten days. Much credit is due to Mr. Gaden, the efficient Superintendent.

Silver Valley. This mine at present is idle, on account of the refractory nature of the ore, Argenticiferous Galena with zinc blend. Capt. R. G. Chaney the Superintendent in charge, has just received a sixty horse-power boiler, which he proposes to put in place, and begin operations as soon possible.

New Enterprise. Aldrich, Haaska & Co., write to our enterprising postmaster to get the feasibility of starting a shoe factory here. Our wide awake friend, J. D. McNulty has taken the matter in hand and will do what he can to have them settle here. They are from Massachusetts and understand their business.

Battle-Wilson. Miss Alice Wilson, the accomplished daughter of Maj. J. W. Wilson of Morganton, will be married to that prince of good fellows, Herbert B. Battle of Raleigh on November 29th 1893.

Mr. Parker, of the Mystic Rubber Co. of Boston, Mass., died on the sleeper between this place and Thomasville last Friday night. He, with his wife and two children were en route for Asheville, where he expected to spend the winter. He was suffering with consumption. The unhappy family returned on Saturday with the body to Boston.

One More, and a Good One.

JAMESTOWN, N. C. Nov 9, '93. EDITORS HERALD:—Your very new and interesting paper has been received. Long live the NORTH CAROLINA HERALD. Success and triumph in all that is just and right, to its editors. Put me down on your list of subscribers. I will be up some time soon, and will call and hand you the money. I am getting on nicely—my school is very good. J. M. WEATHERLY.

SOMETHING FOR THE FARMERS.

We congratulate you upon your success in the tobacco crop this year. More tobacco has been raised in Rowan, Davie, Davidson, Randolph and other counties adjacent than ever before. Everything points to a better year in business than for several years past. Salisbury has already become recognized as destined to become a large tobacco market. The public spirited citizens have by their vim and enterprise induced several manufacturers and lead dealers to locate here; these will need a large amount of tobacco during the coming year. To meet the demands of this growth in the tobacco business, and to accommodate our farmer friends is a place to sell their tobacco, we have erected the "Iron Clad Warehouse," utility and novelty, we claim is not surpassed by any in this country. The senior member of our firm has an experience of over 30 years in the tobacco business, and will give his personal attention to the handling and selling of all tobacco brought to our house. We will have an opening sale on the 25th of this month, at which time we hope and expect to serve many of our friends, and the public generally. It being our aim to always serve the best interest of the farmers, we respectfully submit the following:

A mistake that is made by many of our friends is in not taking care of their tobacco after it is made. Tobacco raised and cured fine is often greatly hurt by allowing it to get too high in order, and thereby to turn red. Frequently tobacco is damaged in value by carelessly assorting and handling; we therefore advise our friends to carefully assort their tobacco, both as to color and size—to tie it in small bundles, as smoothly as possible—not to allow it at any time to get in very high order—and especially to market it in as large parcels as practicable, as very small parcels are frequently overlooked by buyers. More money is saved by properly handling and caring for tobacco than is made by raising it. We shall keep ourselves posted as to the general condition of the markets and will take pleasure in giving what information we have to our patrons at any time. HAYNES BROS. & Co., No. 11, 1893. Salisbury, N. C.
