CITY ITEMS.

Our cops look a la mode in their new uniforms.

Mutton row has set a good example to her neighbors in the way of paint and awnings.

Attention is called to the advertisement of house and land by Miss Alice Pearson administratrix.

A. H. Boyden was confirmed by the Senate postmaster at Salisbury, N. C., last Tuesday, April 20th.

J. A. Clodfelter has just received the handsomest set of walnut furniture ever seen on this market.

Our thanks are returned to the generous Mr. Wright for a fine bunch of extra strong onions. We enjoyed them.

This week we report sales of lots in Brooklyn as follows: Miss Melissa Hanna one lot, Rev. F. J. Murdoch six lots.

W. B. Council, Esq., the well known attorney of Boone, Watauga county, is in the city after an extended business trip to Washington, Philadelphia, etc.

It is our pleasant duty to cheerfully recommend Nat. W. Taylor, the photographer, to the citizens of Concord, in which place he will open a gallery this week.

Prominent tobacco growers from the eastern part of the State have pronounced the lands about Third Creek equal to any in the State for the cultivation of fine grades.

African colored black, with bag on back, comes to town at daylight. Something in bag moves. Merchant purchases chickens. One of our officers sees it. Who lost chickens?

Mr. Frank Breathed, of whom we made mention some weeks ago as having purchased part of Mr. S. Spain's farm, has let a contract to Mr. S. A. Shuman for the building of a dwelling house on his place.

A few of our appreciative citizens presented our efficient policemen with a purse in consequence of valuable services rendered in saving half of the town from being consumed by fire at the hands of a so called crazy negro.

Passion Week services at the Lutheran church of this city, Wednesday, Thursday and Friday evenings at 8 o'clock. Good Friday, 11 a. m. Confirmation and communion on Easter Sunday morning, by the pastor, Rev. Wm. Stoudenmire.

An enterprising young gentleman in town is disgusted from the fact of having sent 25 cents in answer to an advertisement that read "How to raise chickens." The answer received read, "Sit 21 days on as many eggs as it possible to cover."

F. Davidson & Co. have an improved process for the manufacture of baking powder, which they will put into operation soon. They are valuable men as citizens, and we hope every one will try their powder and encourage home manufacture.

John T. Hatchings, of Winston, N. C., raised last year 1,456 pounds of tobacco on one acre, which brought him \$139.13. A. J. Hooper, of Happy Home, Burke county, N. C., raised on a little over two acres 3,779 pounds and sold it at his barn door for \$755.80.

"Rough on Dogs" is the name of a gun loaded with buckshot, and used by Mr. Miller, at his residence on the other side of Shaver's bridge. Dogs have been in the habit of visiting his setting hens, and having a feast on what would have been little chickens. The last five visitors "bit the dust." If there is any heaven for suck-egg dogs they are there.

Since our last issue seventeen more shares have been taken in the Building and Loan Association. The time when the books of the Corporation are to be closed is advancing near. After this no one can obtain stock in this series, except by purchasing from those already stockholders—perhaps at a good premium. Those who want stock had better take it while they can get it at reasonable figures.

We are glad to know that several persons who have recently removed to town and others who are contemplating coming to us, say that one strong inducement to come is our excellent Graded School, at which children are educated without charge. If our people would talk of this school as it deserves, it would induce many more to come. We hope every encouragement will be given to our committee in their efforts to improve the school.

"Rock," the Bloodhound.

Twice of late we have had occasion to send for bloodhounds. First in the case of arson, which happened a few miles from town, in the burning of Mr. Tobias Lyster's barn and house, and second, in the burglary committed at Peeler's store in this city. Both times this dog Rock, the property of Mr. G. M. Murr, of Concord, has been called upon. In the first case it is believed he did his work well. In the case of Peeler's store it was impossible, from the fact of so many persons having walked over the ground. The owner says the dog has been in over one hundred cases and never missed his man in any case where the track can be found fresh. When given the scent the animal bays and off he goes, sometimes following it whole days. When he comes up with his game he takes hold and hangs on. At one time, some years ago, Rock belonged to J. Y. McAden, and was used on his farm below Charlotte to chase escaped convicts. He was sold to his present owner for \$100. The dog is a good-natured animal and seemed pleased at the carresses of the crowd that gathered around to see him. Some experimental trials just out of town proved that he could track through a great crowd and get his man every time. He certainly is an intelligent animal.

Tomatoes 10 cents a 3 lb can at BUEBAUM'S.

Look Out for Him.

Last week a young man called in the HERALD office and gave his name as W. S. Baldwin; said he was representing an improved Plaiter, and stopping at Mrs. McNeely's. We made mention of the above in last week's issue. Since then, he, with a friend, left town without paying his board bill. They hired a team and driver of John Heilig, and drove towards Wilkesboro. When within 10 miles of this place they dismissed the driver, giving him \$2.00 with which to pay his expenses home. The driver reports that one night they lodged with a widow woman and in the morning, under the plea of not having change and promising to leave the money at the next house, they left, passing the next house without an effort to obtain change. They have also neglected to compensate Mr. Heilig to the tune of team hire for three days. We are informed that Mr. Baldwin has wealthy parents near Jefferson, in Ashe county, and that he will surely return the amounts due. That he may, but it does not cover up his mean acts. He gave us his address as Marion, Va.

Go to Klutz & Rendleman's and get Light Brown Sugar at 6 cts. 4 1/2 Brown and Bleached Domestic at 7 cts, and fancy Glass and Table wares.

Collected Twice.

Mister John Smith (colored), of Sugar Springs, came to town last week with the determination of having his eyes open to business. His first job was to run an errand for Mr. H. C. Williams, who paid him for said errand. His eyes being open to business, he collected another fare at the other end of the line. Mr. Williams met the other party a few minutes later, when, by comparing notes, they tumbled to "John's racket." Whereupon he was invited into a cellar, and the question as to whether he would go to penitentiary or listen to the patter of a barrel stave applied vigorously to his person. He chose the stave, and after the application assured the gentlemen it had done him good. One application of Klutz's Tobacco Liniment rendered him ready to resume business.

Real Estate.

A. T. Stewart, the late millionaire, once said that a real estate agent could do more to build up a city, than all the capitalist's therein. He was a clear headed man, and always put his property in the hands of real estate dealers for sale. So it is the world over. Let your town real estate man have your property, for sale, and he goes to work at the same time and advertises your city. He it is who distributes thousands of circulars throughout the United States, attracting capital and manufactures, thus enhancing the value of property and building up your interests.

Great bargains at Klutz & Rendleman's in Dry Goods, Shoes, Hats, Clothing and Shirts. Come and see.

Concord Presbytery.

This godly organization met at Third Creek on Thursday last, and was in session until Monday. Some thirty five ministers and elders were present, including Rev Dr. Ruple and Mr J. D. McNeely, who represented the Salisbury congregation. A great deal of church business was satisfactorily expedited. Some new rules governing the church and recommended by the general assembly were adopted. Mr Chas M Tidball was licensed as a minister to fill the charges of Concord, Ohio and Shilo churches. Arrangements were made to have the pulpit of the new chapel at Blowing Rock supplied by some one of the clergy through the months of July and August, each minister remaining for two Sundays. Arrangements were made for the opening of a chapel at Elmwood. On Sunday twelve congregations were represented outside of the regular members of the organization. Had we more space, we should have been pleased to give more particulars regarding the proceedings of a body in which every good citizen should be interested.

Charlotte's Mutual Building and Loan Association.

The following is from the Evening Chronicle, and at this time is interesting to our citizens: "From the Secretary's report we learn that the Association has a net capital stock of \$120,171.53, and is in a healthy condition. Profits on first-class share for five years, \$16,90; second-class for two years, \$2,60; third-class for one year, 66 cents, which is equivalent to over ten per cent. per annum for average time. The Association has loaned, since its organization five years ago, \$169,100. Fully 160 people have been benefitted by the workings of the Association, and have been enabled to purchase and build homes which they otherwise would not have been able to acquire."

Another Census.

Before the school committee makes arrangements to take the census of the school children this year we hope that the Town Council will consider the propriety of having the census of the town taken again this year. We understand that the census last year cost the town but thirty dollars. The Council has not made an investment for many years better than that. Since the town has improved so much during a year, another census would pay better than the last one.

Go to Klutz & Rendleman's for fancy flour, magnolia hams, pure Lard, fine coffees, teas, sugars, canned goods and all things good to eat.

Burglary.

One evening last week while Mr. Peeler, who keeps a small grocery store, was gone to supper, some calculating thief broke through the back window of the store and succeeded in making off with \$27.00. Immediately upon his return, Mr. Peeler discovered that he had been robbed, and at once telegraphed for blood hounds, which proved of no service, as many people had been allowed to trample about the broken window. However, it is thought the thief is right here in town. The officers have an eye on him.

Married.

At bride's residence, near Asheville, N. C., April 7th, 1886, Mr. John Y. Barber to Miss L. C. Cauble. Mr. Barber is well known in this place, where his many friends will be pleased to learn that he has taken unto himself a bride whose praises are sounded by all that know her. Mr. B. is at present auctioneer and book-keeper at the Buncombe warehouse in Asheville. May the union prove a mutual blessing is the wish of the HERALD.

Railroad Notes.

We regret to note that Capt. Eli Fry, while in discharge of his duty as conductor on the Murphy Division of the Western road, had his arm crushed in such a manner as to necessitate amputation.

Will young, who for some time has been express agent on the Murphy Division, has been ordered to report at Lula, in Georgia. It is thought he will be put on one of the roads running out from that place.

Swannanoa Division No. 267 of the Brotherhood of Locomotive Engineers, have moved their lodge from Old Fort to the hall over Klutz's drug store. In behalf of this excellent order we publish the following:

R. J. Warren, who for the past five months has been operator at the Western railroad offices in this place, has accepted a like position at advanced salary at New Junction, Tenn. He carries with him the best wishes of many friends. Mr. E. J. Williams fills the vacancy.

On Tuesday morning conductor Geo. Hanger had a four inch gash cut in his head while loading freight cars in the yard at this place. Dr. Trantham was called in and did some good stitching. Friend Hanger will be laid up for some time.

The railroad shops at this place continue to receive machinery for repairing all kinds of car work. A car load of fittings arrived on Tuesday. An addition 25x48 feet is being erected to the shops, which will be used for the planer, saw mill, etc. Several improvements are in course of construction.

Engineer Joe Gordon, acting upon the advice of Dr. Whitehead, has gone to Baltimore for the purpose of having his eyes treated. Of late they have given him some trouble, the result of a boiler explosion some years ago on the Western road. He is a general favorite on the road and in this town, where his many friends hope to see him return in good repair.

Last Friday the Richmond and Danville System leased the Virginia Midland for 99 years. The bad condition of the V. M. R. R. has long been a source of annoyance to all people along that line and south of Danville. We do not hesitate to say that the R. & D. people will commence at once to improve the condition of Virginia Midland, and make it equal to the main line.

MINING NOTES.

Beautiful white limestone is being quarried on Crane Creek in Buncombe county. When slacked it is snow white and is unequalled for white washing. The Citizen says: "A gentleman recently here from Maine pronounced the samples he saw from the same quarries equal to the famous Rockland lime which has gained repute all over the country."

Baryte Mining.

Mr. Dougherty, of New York, has purchased and is working a mine for this mineral, in Madison county, on the W. N. C. railroad. The ore is shipped to the mills at Warm Springs, where it is ground into an impalpable dust and shipped to northern markets, where it brings from \$15 to \$20 per ton, according to its quality as regards whiteness. It is used in the adulteration of soap, paint, etc.; also in chemical preparations. At present the output is about twenty tons per week.

Card of Thanks.

We herewith return our most sincere thanks to those citizens of Salisbury who made up a purse for us. We will endeavor to do in the future, what we have tried to do in the past—our duty. R. M. BARRONCK, Policeman. CLAYTON POOL.
