CITY ITEMS.

Reunion of all ex-Confederate soldiers at Winston on the 10th.

Johnson & Ramsay's Tobacco factory opened with eighty hands on Tuesday.

Little boys should not be allowed in the court room during these criminal trials.

The register at the Mount Vernon Hotel shows 935 arrivals for the month of April.

After being six years in the liquor business, Mr. C. E. Mills has closed up his saloon.

Twenty loads of that good Davie county tobacco arrived in town on Tuesday.

Thomasville is to have a tobacco factory; Staples and Shiplet are to be the proprietors.

The county poor house presents a clean, tidy and neat appearance, much to the credit of the keeper, Mr. Brown.

It is a pleasure to note the fact that Mrs. L. H. Clement is convalescent after an illness of some weeks.

We see by the Charlotte Chronicle that Prof. James Wren is having good success with his dancing classes in that city.

Under the auspices of the W. C. T. U., Mrs. Mary T. Lathrop will lecture on Temperance, Wednesday night, at McNeely's Hall.

The Boston Star Concert Co. will give an entertainment at Meroney's Hall on the 11th, next Tuesday night.

We had in our office the other day a chicken just hatched that had 4 legs, three wings and one head. It lived for three days.

When Policeman Barringer gets his blood hounds chickens can roost in the trees—that is, those residing in the vicinity of Barringer's beat.

Bishop Lyman has been appointed Presiding Bishop of the Episcopal Churches in Paris, Geneva, Rome and other foreign cities.

Twelve wagon loads of tobacco for the tobacco manufacturer, Mr. Kelly, pulled out for Mocksville from the Farmers brick warehouse.

Three new cotton factories are being put up in Alamance county. We long for the day when we can record that one is being erected in Rowan.

Rev. J. F. Tuttle has been invited to deliver an address at the closing exercises of the Yadkin Valley School, May 19th.

All the tobacco factories are in full blast. J. D. Gaskill opens with 150 hands, Johnson & Ramsay with 75, and Robinson & Miller 60. Other factories will open soon.

Don't forget the Boston Star Concert Company on the night of the 11th, next Tuesday. A large portion of the reserved seats have already been sold.

The Stanley Observer of last week states that a grave near Bilsville was robbed one night by some unknown party. It has been said there was money in it.

The Progressive Euchre party given at the residence of Capt. Chas. Price, last week, has been spoken of by all participants as a very enjoyable and recherche affair.

Many of the friends of J. E. Horrah, Esq., will be glad to learn that he is well and still in the U. S. service as Pension examiner, stationed at Nashville, Tenn.

The new factory to be operated by Ford & Rice will open about the 15th. They have just purchased about 40,000 pounds of tobacco ready for manufacture.

That live paper, the Winston Sentinel, often devotes its columns to Salisbury news. Our citizens should appreciate it, and if they require a paper from up that way remember the Sentinel.

Our friend Charles Crawford has sold out his interest in the grocery business, and is reading law. All his friends predict success. His bright intellect and pleasing manner bespeak it for him.

The Easter ball given on Wednesday night of last week was, as usual, a success in every sense of the word. Several strangers were present, and remarked on the attention shown them by "our boys."

Last week the lightning struck a frame dwelling on Shaver street, the property of Mr. Wright, and entirely shattered the end besides making a wreck of the chimney, causing about \$100 damages.

The Classes of the German Reformed church of North Carolina, meet Wednesday at St. Luke's church. The meeting will continue over Sunday next. The Reformed church is very strong in this section of North Carolina, but does not extend beyond Alamance, East, and Hickory, West.

Messrs. Green & Dale, tobacco manufacturers of Davidson College, have just purchased between 8,000 to 10,000 pounds of tobacco on our market, most of which was bought at the Iron Clad warehouse.

The Wadesboro Intelligencer says ex-Sheriff Cagle, of Stanly, has bought out the grog shop of Davidson Melton, and associated with him in business a negro, Mr. Cagle doubtless believes in civil rights and social equality. Can this be so?

J. H. Peebles, whose tobacco factory is near Fulton, in Davie county, has purchased on our market about 10,000 pounds, which they are engaged in hauling to the factory. We are pleased to note so many buyers on the market.

Rev. Wm. R. Atkinson writes an open letter to the W. C. T. U., in which he defines his standpoint on the prohibition question, that he is in favor of prohibition, that he will preach temperance, but that he will not appear in public to make political prohibition speeches.

Sunday morning services in the Methodist church will be hereafter, until further notice, at half past ten o'clock in the morning and at 8 o'clock in the evening; Sunday school at 4 o'clock instead of at 3 o'clock in the afternoon. The weekly prayer meeting will be Wednesday evening at 8 o'clock.

Mr. Wilson Lingle, a respected and honored citizen of the Thyrira neighborhood, died last Friday. He was recovering from serious illness, when he experienced a relapse which carried him off to the mysterious region beyond. A kind father, a good husband and a successful, hard-working farmer.

Court is in session. Judge McRay presides with dignity and patience, more of the former than the latter. Minor cases disposed of with rapidity. Shad Hayes, col., found guilty of embezzlement; Franklin Gaston, col., of rape. We shall have more to report in a day or so.

A worthy African of Salisbury, lately informed some enquiring friends of ours, who visited the building near the Zion College, that it was to be named "Dodge Hall," in memory of a "relative" of his, William E. Dodge, who died some time since at the North.

Miss Linda Rumpel, at her home on Innis street, entertained a number of friends at tea, on Thursday night. The occasion was in honor of Miss Kinloch, of South Carolina, and Miss Schenk, of Greensboro, who were visiting friends in the city. Miss Rumpel's music perfected a delightful evening long to be remembered.

When our present postmaster took charge of the postoffice the amount paid by newspapers to the office was \$2.30 per quarter. The HERALD was started since then, and our postmaster informs us that the amount of postage paid by newspapers to-day is \$19.50 per quarter. Just think of it, \$2.30 then, and \$19.50 now.

Cheap horse for sale. Apply at this office.

A Big Business. The Singer sewing machine is being well represented in twenty-three adjoining counties. Mr. S. A. Scott is in charge of the central office at Charlotte. Mr. W. W. Foster is doing Rowan county. He has an office at the Boyden House, the walls of which are covered with embroidery, the work of this machine. The Singer Company have 40 travelling agents in the adjoining 23 counties and sell one hundred machines per month. Mr. Scott is a man of great energy and pushes his business.

Go to Klutz & Rendleman's for the largest stock of Lawns, Domestic, Calicoes and Pants Goods in town. Come and see.

Fresh lot of Magnolia Hams at 12 1/2 cts. at Klutz & Rendleman's; also fresh lot of Fancy Flour, New Orleans Molasses, Sugar, Coffee, and many other good things to eat.

Personal.

Miss Alice Alexander, of Charlotte, is the guest of Mrs. I. H. Foust.

Miss Janet Whitehead is visiting her aunt, Mrs. Whitehead, on Fulton street.

Mrs. Sam'l Taylor, who has been paying a visit to the family of A. J. Mock, has gone to Concord.

J. C. S. Timberlake, proprietor of the White Sulphur Springs at Waynesville, was in the city Tuesday.

Miss Minnie Hargrave, of Lexington, is spending a few days in town, the guest of Mrs. J. Allen Brown.

Mrs. Noble, with her son and daughter, who have been the guests of Mr. Andrew Murphy for some time past, returned to their home in Philadelphia this week.

Col. L. L. Polk, of the Progressive Farmer, published at Winston, has been canvassing here this week. The Farmer is a paper every one interested in agriculture should have.

Mr. Robt. Murphy, Jr., who for some time has been doing business at Walnut Cove, Stokes county, has lately accepted a position with the C. F. & V. R. R. at Fayetteville, where he is now located.

Hinton A. Helper, Esq., North Carolina editor of The N. Y. South, and author of "Western North Carolina—Nature's Paradise—Bed of Rejuvenation," was in the city on Monday. He left for Asheville on the morning train.

Two Months Under the Ocean.

Moses L. Holmes, Esq., and our junior editor, were the recipients yesterday of letters that formed part of the mail that went down in the steamship Oregon, on March 14th last. Out of nearly 600 bags of mail on board about 298 have been recovered. These bags have mostly been picked up by coasters, some few having been washed ashore. Liberated from the sunken vessel by the action of the water or her gradual breaking up they have risen to the surface, and in some cases have been recovered at a distance of over 300 miles from the scene of the disaster. We saw one of the letters referred to; it was dated London, March 6th, and has sustained but little damage during its long sojourn under the sea. The envelope had come to pieces and the stamps were washed off, but the writing was perfectly legible. It was forwarded from New York in an official envelope with a printed slip enclosed as follows: "P. O. New York, April 29th, 1886." This piece is a portion of the mail forwarded from Queenstown, Ireland, per steamer Oregon, on March 7th, and damaged by the sinking of that vessel off Fire Island on March 14th. N. Y. P. O. print, Henry J. Pearson, postmaster. It is not often that father Ocean voluntarily relinquishes his prey, after being so long in possession of it, and this instance is quite a curiosity.

Have you forgotten that E. C. Miller keeps on hand that fine Syrup? Limesade and every other new drink at Klutz's Drug Store.

Buerbaum & Eames have one of those new improved Singer Sewing Machines for sale.

Beggars.

A blind man led by a seeing one solicited alms on our streets last week. Is it charity to give them? We think not; we think with the late D. A. Davis, that every county in the Union has a poor house for every inhabitant unable to support him or herself. Supposing this blind man to be really blind, which we do not believe, the other man, a strapping, stout, healthy, able bodied man could certainly earn enough by work to support himself and the supposed blind. People that do not want to work, resort to all kind of means to swindle others inclined to be charitable. Let everybody work according to his ability.

Ten pounds of meat for 50c., at M. A. Smith's.

Fish Wednesday, Friday and Saturday, at M. A. Smith's.

Sugar Cured Bacon and Breakfast Strip at M. A. Smith's.

Supposed Infanticide.

Lucy Morgan, colored, gave birth to a child a day or so ago, and is supposed to have made away with it by drowning, as she was seen coming from the direction of the creek when arrested. Many think her crazy as she refuses to give any information as to the whereabouts of the infant.

Go to Klutz & Rendleman's for good Shoes from 50 cts. to \$7.00; also a large stock of Straw Hats from 10 cts up, and many other nice things.

Railroad Notes.

300 cars with the gauge already changed are in readiness at Company Shops.

Gowan Dusenberry, who spent several years with us studying under Rev. Mr. Murdoch, called on us last Monday. He is now in the employ of the R. and D. R. R. at Concord.

The R. and D. R. R. Co. have appointed Dr. Rose, of Richmond, Va., as chief surgeon of the System with office at Richmond, and power to appoint his subs at different points on their lines. Systematic company, systematic management, is the systematic motto of this systematic organization. The next new station should be named Systematicville.

The President has appointed Col. A. B. Andrews as one of the commissioners to report on a division of the Northern Pacific Railroad in Oregon. This appointment is not a political but a very appropriate one. There are few men in this country that have the same practical experience and knowledge combined with business tact, as Col. Andrews has. He will be absent about twenty days.

Conductor Nicholas and Engineer Will Kerr have been suspended for 30 days. It seems that they happened to be the last ones on the Asheville side track where some freight cars had been left standing. By some accident the brakes did not hold the cars in position where they were left, in consequence of which, during the night, the cars slid down grade so close to the main line that when the morning train came along it made a \$500 wreck. Time hangs heavy on Capt. Nicholas, who says he has never gone without work for thirty days at any one time during his life.

Mr. Westberry, of South Carolina, a worthy young man who for some time had been baggage master on the R. & D. passenger train, met with a sad accident while in discharge of his duty in coupling cars on Monday. His left hand being caught between the bumpers in such a manner as to mash part of it to a jelly. Doctors Whitehead and Trantham were called in and dressed the wound. Amputation may be necessary. Mr. Westberry was serving as a train hand on a freight at the time of the accident, hoping soon to be appointed conductor. It is said that the mishap was such a sickly sight as to cause several strong men to quail.

MINING NOTES.

Russell gold mine shares are selling in London at 90 cts. Hoover Hill, at \$1.25 to \$1.30.

Mr. L. H. Shirley, of Buckingham, Province of Quebec, made us a call on Wednesday. He has been in the western part of the State looking at the mica mines. He hopes to return some time this fall.

Mr. A. B. Driver, a native of Massachusetts, but who has resided and done business for the past twenty years in the East India, visited our Rowan county mines last week. He is a very entertaining and intelligent person, whom we hope to see settle in this State. He believes there is money in the mines if intelligently worked.

Mr. W. S. Thomas, Lord High Dictator of Jarretts, was in town a few days during the past week. He reports work on the talc and marble mines as progressing rapidly and material will soon be ready for shipment. Mr. Thomas owns a half interest in these mines which are the most valuable in the State. Waynesville News.

Silver Valley Mining Co.

The annual meeting was held May 4th at the Sullivan House, Thomasville, N. C., resulting in the election of the following officers. A. B. Patterson President, Thos. C. Basher Vice President, W. Morris Owen Treasurer, E. Herxer Secretary, R. G. Chaney Superintendent. The company is involved in some litigation which it is hoped will be settled soon when they expect to resume operations.

The Appalachian Mine.

In Montgomery county, better known as the Coggins, is the property of an English company. They have erected a blacksmith shop, dwelling house, hoister, etc., and are sinking on a 10 to 15 foot vein at the 80 foot level. They have about 1,000 tons of ore on the dump estimated at \$15 per ton. They employ about 50 men. Col. Harry McCoy, the promoter of this company is in London, when he returns it is reported they will erect a 20 stamp mill for the treatment of the ore.

Hoover Hill.

This mine was purchased by an English company in 1883; after two years development and exploration, they have been able to keep a 20 stamp mill in successful operation on ore that is free milling averaging from \$6 to \$10 per ton in gold. 7,635 tons of ore were milled during 1885 resulting \$68,400, at an expense not to exceed \$20,000. The deepest shaft is about 240 feet showing ore of the same value as that already worked. Wm. Frecheville, M. E., has been in charge of the enterprise and it is mostly due to his skillful and honest management that the mine is such a credit to the State.

Harrison Gold Mine.

At this prospect everything is developing very satisfactory, and much good ore is being raised. Some of a decomposed free milling character and some good sulphureted ore. It is thought the ore will average at least \$40 per ton. Arrangements have been made with Mr. John Jacobs, superintendent of the Chlorination Works near this place, for the treatment of some of the average ore. We hope next issue to be able to publish the result. It is thought these veins will develop into a good and legitimate gold mine, thus adding to our county's mineral wealth.

Successful Manganese Mine.

We are pleased to note the following from the Charlotte Evening Chronicle, regarding our friend Col. Stith: "The Manganese Mines, in which Mr. Stith is interested, is located in Shenandoah county, Va., midway between Woodstock and Riverton. The survey for a railroad has been made from Riverton to the mines. The mines are manganese—genuine pyrolusite—the highest grade of ore found in the United States, and it is said by experts to be the only vein in the world. The development and success of the mine and the enterprise are due to Col. Fred H. Stith, of Thomasville, N. C., and the Chronicle takes pleasure in noting the fact."

Marion Bullion Co.

Mine situated in McDowell county, consists of several hundred acres owned and operated by a Harrisburg, Penn. company. At present they are hydraulic their gravel beds with very satisfactory results. Aside from the gold interests, they have found ruby, sapphire beryl and other gems, including one small diamond. This diamond was found last week while Col. Deming, the secretary of the company, was down on a visit. They have also opened a vein of what Col. Deming reports emery. They employ about forty hands and are doing things up in business shape, paying cash for everything. Col. Deming, who called on us enroute for his home, exhibited some beautiful gems and gold found on the property. The past record of the mine is one that leads us to believe that under the present energetic management, it will prove a good producer of the precious metal. The company propose to erect a stamp mill for the reduction of the auriferous quartz, of which there are thousands of tons.

How to Save.

A simple and effective way of getting rid of the annoying pest of rats was given us to-day by a friend from Unity Township. Take a barrel or half a barrel, fill it with water to within eight inches of the top, throw into this water four or five handfuls of cotton seed, and sprinkle on top of the cotton seed a little meal. The rat is attracted by the meal and jumps on the cotton seed, which, of course, cannot bear the weight of a rat, and the latter is swallowed up by the water and drowned. This is a very simple method, inexpensive and easily done. We are assured that it is a perfect success—that one man in Unity has caught that way over 100 rats and cleaned his premises entirely.

Savings Bank.

Some talk has been going on in regard to organizing a Savings Bank in Salisbury. We should like to see our historical old town the first to establish a bank of this kind in the State, and shall do all in our power to promote it. But is it not a recognized fact, that in order to support such branches of business as this, that we must have manufacturing. The question with us, which will benefit our town the most, a savings bank or a cotton mill. Both are necessities to a prosperous community in this section of the country. We already have in our Building and Loan Association something that will take the place for a time of a savings bank. We do not wish to be understood as opposed to the scheme, but we believe if encouragement is given from every man in the community we can have a cotton mill first and a savings bank afterwards. A cotton mill for the manufacture of yarns will pay annually 20 per cent. on an investment of \$50,000, and give steady employment to many hands that would consume much produce and general merchandise. Every farmer in the county would be benefitted, every merchant would feel his good, and in general it would be a blessing.

Dr. R. P. Bessent, Dentist, is now stopping at the Boyden House, and will be pleased to see all who wish his services to call on him.

A MUSICAL TREAT FOR THE PEOPLE.

THE BOSTON STRY \* CONCERT \* CO. After a tour through the South will remain. - ONE NIGHT ONLY - TUESDAY MAY 11, IN SALISBURY. A CONCERT WILL BE GIVEN AT MERONEY'S HALL. The Company is composed of the leading talent of Boston. The Press throughout the Country are loud in praise of this Company. The eminent artists: MEDITA HENSON EMERSON, "The Coming American & ma Donna." WALTER EMERSON, "The Greatest Cornet Player Living." CHARLES F. DENNIE, "The Brilliant Pianist and Composer." NELLA F. BROWN, "The most Gifted and Popular American Reader." COMPOSE THE LIST OF STARS. Every one that knows how to appreciate good music should be out. DON'T FORGET THE DATE. Reserved seats, \$1.00. General admission, 75 cts. 29-11 On sale at Klutz's Drug Store.

TOBACCO MARKET.

REPORTED BY JOHN SHEPPARD. Breaks for the week have been large and all stock has been taken freely. There has been no decided change in prices. WHAT TO WEAR AND HOW TO WEAR IT.

M. S. BROWN'S Clothing Emporium

In These Hard Times Save Every Dollar and Every Penny.

Read These Unanswerable lines and Save Your Money.

Here are some stern and stubborn facts that will level your heads on the subject of real, genuine bargains. Every passing day adds to our long list of customers, as every hour adds to the bargains which we are constantly passing out to the crowds which gather about us. Do not fail to see the attractions we are now offering you. The story is but half told. Paper cannot reflect the golden words that hold entranced with wonder and astonishment, a multitude of people trying to solve this great problem of low prices; but right here over our counters is the indisputable evidence that by some great but secret power we can sell goods less than manufacturers charge to make them.

How To Save Gold.

THE TRIPLER AMALGAMATOR! PATENTED.

This machine is a combination of silver plates so as to represent a large amalgamating surface, working with rapidity and efficacy, which has not hitherto been accomplished. The drawing above represents the machine in working position. It consists of four corrugated plates fitted together, allowing a space between of 1/4 inch. Two plates are perpendicular, connecting with two horizontally inclined. The pulp passes from the battery and falls perpendicularly through the plates, which gives it a zigzag motion, causing the free gold to impinge on each side, when it passes through the horizontally inclined plates, which act as riffles, catching any escaped gold both on top and bottom. The plates discharge in a circular pan at the end which is given a rotary motion, thus concentrating the heavier portion of the tailings for subsequent treatment if necessary. At the top of the machine is a mercury cup which feeds automatically any required mercury to keep the plates in active force. The machine is especially adapted for placer mines. It can be worked with or without water; it requires no mill for pulverization, it only being necessary to sift the sand, which can be done at a trifling cost, so that low grade ore can be worked profitably. This machine has been practically tested and is now on the Herring mine, Randolph county, where it met with such success as to warrant the belief that it will be of great value to the mining interest of this State. This machine has an electrical attachment by which the mercury should be sickened by the various causes to which it is liable, can be instantly restored to activity. Inspection is invited. Estimates given for the erection of this machine on placer and other mines; also for all other mining machinery by the undersigned.
