

The Herald has the largest circulation of any paper published in Rowan County.

CITY ITEMS.

The Presbyterian Sunday-school picnic will take place next Friday. Weather permitting. Elliott & Elliott have been awarded the contract to build the new colored graded school-house.

W. Smith has sold hundreds of buggies and now he has bought a fine spirited \$300 horse.

Rev. W. Stouffer preached last Sunday, at Concordia church, to a very large congregation.

Last Saturday, J. F. Corriher, of Corriher springs, brought us a cotton stalk that measured eight-teen inches.

Mr. D. H. Julian is listing town and county taxes, and can be seen at McCubbins' store. Delay is dangerous.

Mr. Silliman is building opposite Mr. J. M. Horah, two new residences, one for Mr. W. A. Falconer, and one for Mr. F. Davidson.

Mr. P. A. Frercks, always doing something nice for the comfort of his guests, has built a large platform in front of the Mt. Vernon Hotel.

The cotton mill project is taking definite shape and the day is not very far distant when we will have a mill here that will employ at least two hundred hands.

Quite a pleasant little party gathered at Mrs. R. F. Rouché's residence Tuesday evening, complimentary to her visitors, Mrs. Fannie Maynard and Miss Nannie Bradley.

Mr. Davidson is getting up his baking powder in neat style, neat tin boxes with ornamental labels, and the best of it, he puts good baking powder into these boxes.

After the twentieth inst., we will have double daily trains to the mountains, one to connect with the midnight train from the North, and other to leave here at 11:30 a. m.

The Dixonville Baptist church, Rev. J. O. Crosby, Pastor, held a collection last Sunday for the purpose of repairing their church. \$81.35 was the flattering result.

Mr. Ahi Robbins died at his home in Randolph county last week, at good old age of 67 years. Deceased was the father of W. M. Robbins, now of Statesville, and of F. C. Robbins, of Lexington.

William Cain Henderson, infant son of Hon. J. S. Henderson, died at Washington D. C., and was buried here Friday morning at half past eleven o'clock. The bereaved family have our heartfelt sympathy.

Mr. Thomas W. Smith, of Frederick, Md., will be here on Thursday to consult with our citizens, in regard to a fruit canning factory to be established here. Mr. J. D. McNeely is the prime mover in this matter.

Mr. J. D. McNeely is working hard to reorganize the Salisbury Woolen Mills. He has very flattering prospects and we have no doubt that through his energy and perseverance we will soon have a large factory here.

Rumors are afloat about the removal of the car shops from this place to Manchester, Va. At present they are here and no official steps have so far been taken to make the transfer. It would be a very serious loss to Salisbury.

Jack Parker, colored, of Morgan township, had a hearing before Squire J. J. Newman. The evidence brought out, indicated very strongly that by abusing, mistreating and poisoning he had killed his wife. He was committed to jail.

Cruelty to animals is not often punished, but we think it deserves severe punishment when a drunken man, in order to make his jaded horse go faster, stabs it with a knife, as occurred in the lower part of our county last week.

Next Tuesday the firemen will hold their first annual picnic. They are very earnestly at work to make it a pleasant and successful affair, and wish especially to invite all the ladies, well knowing that without them the banquet would be stripped of its choice flowers.

Florida on Gulf of Mexico. What a Salisbury young man says of the NORTH CAROLINA HERALD: "I enjoy reading the home paper very much. It is a bright, instructing, interesting paper, and wish it a world of success, for the pleasant moments it has afforded me."

Meroney Bros. have just completed about twenty bedroom sets of furniture, of black walnut finish for their hotel at Icard. They now have in their machine shops, a master mechanic that can make anything from a needle to an anchor. He has just completed a set of stocks, dies and taps, all made by hand; also, a very ingenious tool called a hollow chisel. He can take the buckle out of large or small circular saws.

Personal.

Miss Ross McCorkle is back from Concord.

Miss Haden, of Davidson county, is visiting Mrs. Chas. Holmes.

Miss S. Sherill, of Newton, is visiting Mrs. Robt. Knox.

Miss Lilla Abbott has gone to Boston to spend the summer.

Miss Fanny Miller, of Columbia, S. C., is visiting Mrs. O. D. Davis.

Miss Lizzie Kerr, of Raleigh, is the guest of Miss Linda Rimple.

Miss Worth, of Fayetteville, is visiting her sister, Mrs. Tom Murphy.

Wood Krider is home, and intends to go to Davidson College next term.

Mrs. J. M. Brown and child are visiting Miss Lotta Coleman, near Gold Hill.

Miss Jennie Bingham and Miss Annie Blackmer have returned from St. Mary's, Raleigh.

Miss Annie Smith, who has been in Virginia for some weeks, arrived home last Monday.

Mr. Thos. J. Meroney went to Icard Springs to get his hotel ready for summer visitors.

D. R. Fraley, well-known here was married last week, in Winston, to Miss Sallie Leak.

Richard Whitehead has been at Wake Forest. He is now here and will spend the summer in the mountains.

Miss Nannie Bradley and sister, Mrs. Fannie Maynard, of Danville, Virginia, are visiting Mrs. John B. Bradley.

Mr. T. B. Eldridge, of the Lexington Dispatch paid us a pleasant visit last Wednesday. He was here as a member of the 8th district committee.

Hon. Theo. F. Davidson, Attorney General, and Hon. S. M. Finger State Superintendent of Public Instruction, were in town one day this week.

Miss Beattie Holmes returned from Peace Institute, Raleigh, Miss Carrie Holmes from Hagerstown, Md., and Miss Hope Summerell from the Miss Nash's school, Hillsboro, N. C.

Miss Carrie Cramer, of Thomasville, returned home Sunday night last, bringing with her Miss Dolly Brothers, of Youngstown, Ohio. Miss Carrie has been absent for almost seven months, visiting friends, in Youngstown and Rochester, N. Y. These young ladies were among the attractions at the Naval Academy commencement exercises, where Miss Carrie was a favorite. We hope Miss Dolly will enjoy her trip South.

Railroad Notes.

C. Y. Cheatam spent Sunday with us.

Messrs. Elliott & Elliott have taken the contract to build our new depot.

The night trains will commence running on Tuesday night, giving us two trains to Asheville and Louisville.

The large paint shops and buildings that are built in sections will be taken down, put on the cars, and taken to Asheville.

Capt. Gates left on Monday last, with his wife and daughter, for Boston, Mass., to attend the Master Mechanic's Convention. Mr. George Mebane is in charge of the shops.

Thos. C. Simonton, Esq., of Patterson, N. J., was in town last week. He is the representative of the Progressive Placer Amalgamator, and a gentleman of fine intellectual abilities and well posted on the saving of the flour gold. He will remain in the State for some time testing the machinery he is working.

The annual closing concerts of the Neave Music School will be given at Meroney's Hall on Tuesday and Wednesday nights, the 22nd and 23rd of June. Judging by the past, we anticipate a rare and artistic treat. The programme is varied and well selected. The first night the operetta, "The Secret," will be given, and on the second night "Rosithorne" (Dornochsen) or "The Sleeping Beauty." This chaste and entertaining fairy tale is well-known wherever the German tongue is spoken and we can promise everyone a pleasant evening. A new parlor grand piano will be used in both concerts. In order to secure reserved seats, 5cts extra will be charged, and can only be had at Kluttz's drug store. General admission, 25c, and children 15c.

Honor to Whom Honor is Due.

There is no more enterprising journalist west of Raleigh than Col. Chas. R. Jones, of the Charlotte Observer. In fair weather and in foul, in fog and in sunshine, often doubted and misinterpreted, his voice has always sounded in no uncertain tones for the material benefit of our State. Always in the front rank, in fact leading this front-rank of new enterprises and improvements. Often people grumble about one thing or another, that does not suit them in the Observer, but they grumble their fiercest grumble when by some accident they are momentarily deprived of the Observer.

Firemen's Picnic.

The Salisbury Hook and Ladder Company No. 1, will give a basket picnic at St. John's Mill, on the Yadkin river, on Tuesday June 22nd. The committee of arrangements hereby extend an invitation to all of our citizens to attend. There will be a string band in attendance for those who may wish to dance. Addresses will be delivered by Hon. Theo. F. Kluttz, Chas. D. Crawford and James W. Rimple. There will be games and sports by members of the Company. The ladies are especially invited. The Committee will be very glad to have the ladies assist us in this our first effort.

W. R. BAKER, Ch'm. M. L. JULIAN, Sec'y. J. M. MORSE, Sec'y. R. M. PENNINGTON, Sec'y.

Eighth Judicial District Convention.

The district committee met last Wednesday at the Mt. Vernon Hotel, this city, and called a convention to be held at Lexington on the 4th of August, 1888. This convention will select candidates for Judge and Solicitor for the eighth district, which is comprised of the following counties: Davidson, 39 votes; Randolph, 40; Stanly, 22; Montgomery, 18; Rowan 52; Iredell, 53, and Cabarrus 38, 262 votes in all and it will take 132 to elect. Iredell, Davidson and Randolph would be a majority. In 1884 the counties gave the following majorities for Cleveland: Rowan, 1,270; Iredell, 908; Cabarrus, 903; Stanly, 526; Randolph 78. In Davidson, Blaine had a majority of 197 and in Montgomery 58. The majority in this judicial district was 3,429, so that if nothing happens, the democratic nomination will be equal to an election.

Our reporter visited the Lapidary Works of Dr. R. M. Eames, where he cuts precious stones, gems and rocks of all descriptions. We saw a piece of hard granite cut taken from his quarry. The modus operandi is as follows: The rough stone is first taken to the diamond saw and cut through, the saw running at the speed of 500 revolutions per minute; the stone is then taken to the forming lap and ground into the shape required, either a setting for a ring or key stones, &c.; after forming and smoothing the stone it then goes to the polishing lap, and is there finished. Sample pieces of granite are cut into slabs and small blocks; one surface is left rough from the diamond saw, and the other surface is finished and polished with great rapidity. We believe the Dr. is the only lapidary in the State.

A fine match cow, part Jersey, for sale by A. W. Northern. 33-41

China Grove Items.

Rev. B. S. Brown has been holding a Sunday evening service at the China Grove academy. The meetings have been very interesting and will probably do much good.

Runaway teams were very common in the village last week. Mr. W. A. Peters lost a good farmhorse by his team running away.

The funeral services of Mr. John Ritchie took place at 4 o'clock last Sunday, at the Lutheran Chapel. Mr. Ritchie lived near Concordia church. He died of that fearful disease, consumption.

There will be a Sunday school picnic, at Lutheran Chapel some time in July. The committee have not decided upon a day.

The wheat will be nearly all out this week, if there is nice weather. It will be much hurt if it rains.

The N. C. University--The Vacant Professorship.

The successor of Dr. Hooper should be every way worthy of his chair. If merit be the test of fitness with the Trustees, then we can name one entitled before all others, as we might upon the fact that he is the son of North Carolina, and an alumnus of her University. We do not employ the argument, though a sound one: "Other things being equal, preference should be given to a North Carolinian." Our ground is that preference should be given to him, because he has no equal among his competitors. Let the qualifications of all be scrutinized, and this assertion will be verified. Can any one show a production equal to his Neugrichischen Lautveranderungen? Measured by the high scholarship standard of Germany he is able to teach Greek, Latin, German, French, Italian, New Greek, Sanskrit, History, Literature. A young scholar, he has attained to distinction, and conferred honor upon North Carolina. He is destined, we are persuaded, to be one of the brightest jewels in her coronet of glory and renown. Shall not North Carolina, equally with Germany and Greece, recognize the rare gifts, the high ambition, the indomitable energy, the unusual character, the marked success of her noble son? If a factious reputation, nor an ignoble favoritism, but merit only, shall determine the selection, then will the Trustees unhesitatingly place the chaplet of honor upon the brow of John Everett Bradley.

20 Per Cent Land Investment!

Twenty six and one-half acres of land just out of the corporate limits of Salisbury. Has produced \$400 worth of hay in one season. Can be made to pay 20 per cent on price asked. Well watered and good location. BUEBAUM & EAMES.

They charge 25 per cent more than we do, and get your old one for nothing. Meroney & Bro. will overhaul your machines, make it work as well as when new at small cost, or make a fair exchange with you.

MINING NOTES.

There are many mines that are now working that are worthy of mentioning. Among them are the Rudall, Hoover Hill, St. Catherine, Russell, Steele, Vein Mountain, and five or six others, all working very vigorously, developing their mining grounds, milling their ores and nearly all of them with fair success.

Gold Hill.

We are informed that Capt. Nance has engaged a larger force of miners so that the work of sinking and drifting will be accomplished by eight hour shifts. One of the gentlemen recently from London in company with Mr. W. B. Lewis, expressed himself in these words: "Should this body of ore in the lower level continue to average the same amount of gold, we will make Gold Hill hum."

Biles Mine.

Owing to the recent heavy rains this mine has been only working half its force, and last week commenced working full. The ore, a rich free milling, continues the same at bottom of shaft, and all the ore taken out for one week is milled the following week, and so far has paid all working expenses, leaving a handsome profit to the owners. There are parties now at the mine trying to negotiate for the purchase of it, so that it may be worked more extensively.

Bull Ruffin Iron Mines.

There are prospects of these mines being worked very extensively. Parties from Pennsylvania (iron men) are opening on the large beds of ore, and shipping small quantities from the several deposits to test for quality of metallic iron produced. This ore is a martitic-schist, yielding 60 per cent metallic iron.

Steele Mine.

This mine is now working steadily night and day, keeping their twenty stamp mill running on 50 dollar ore. They clean up twice a week, so Superintendent Cramer informs us, and have shipped 14 bars of refined gold. He reports that 85 per cent of the free gold is caught on the inside of the mortar. It is so constructed that they have large inclined plates of plated copper on the wash, and pass through 50 tons of ore per day, passing over the copper plates to the concentrators. These concentrates yield on assay 85 per cent on careful sampling. This ore deposit occurs in the form of a bed from 10 to 14 feet in width, composed of argillaceous hornblende and chloritic slates, with seams or veins of quartz passing through the auriferous slates, which contain a large percentage of free gold, associated with pyrite, zinc-blende and argenticiferous galena, and very often free gold in the slates without the association of other metals. This shows conclusively that the gold was deposited at the same time the slates were formed. This class of veins or beds wherever opened in this State have proved the most valuable. We shall watch this development at the Steele mine with interest.

Officially Recorded--The Certificate of Marriage of the President and Miss Folsom.

Health Officer Townsend yesterday received the following official certificate of the marriage of President Cleveland and Miss Folsom: CERTIFICATE OF MARRIAGE. To the Health Officer of the District of Columbia--

- 1. Date of marriage, June 2, 1888. 2. Full name of husband, Grover Cleveland. 3. Age, forty-nine years. 4. Color white. 5. Place of Residence, Executive Mansion. 6. Occupation, attorney-at-law. 7. Husband's birthplace, Caldwell, New Jersey. 8. Number of husband's marriage, first. 9. Maiden name of wife, Frances Folsom. 10. Age, 21 years. 11. Color, white. 12. Place of residence, Buffalo, New York. 13. Wife's birthplace, Buffalo, New York. 14. Number of wife's marriage, first.

We the contracting parties do certify that the foregoing information is correct. Signatures, GROVER CLEVELAND. FRANCES FOLSOM.

This certifies that on the second day of June, 1888, I joined in holy matrimony the parties above described.

B. SUNDBLAND. Pastor First Presbyterian Church. Washington, D. C.

As the sun does not wait for prayers and incantations that he may rise, but shines at once, and is greeted by all; so neither wait thou for applause and shouts and eulogies that thou mayest do well; but be a spontaneous benefactor and thou shalt be beloved like the sun.

The manufacture of alcohol from wood has increased rapidly with a few years, and it is said to be used largely for patent bitters, ginger extracts and other alcoholic compounds whose strong flavor makes it unnecessary to use a better quality of spirits. Wood alcohol is a dangerous product, and sometimes gives rise to serious disturbances of the brain and nervous system.

Don't fool away your old sewing machines to traveling salesmen. They charge 25 per cent more than we do, and get your old one for nothing. Meroney & Bro. will overhaul your machines, make it work as well as when new at small cost, or make a fair exchange with you.

DEED.

In this county, June 8, 1888. Mr. Rebecca, wife of Mr. David Brady, in the 43rd year of her age. The deceased was in regular communion with the E. Luth. Church. She was afflicted, for several years, with cancer in the breast. She bore her affliction with remarkable patience. She was never heard to murmur or complain. Death finally came and put an end to her earthly sufferings. She has left a sorrowing husband and son to mourn their sad bereavement.

Ludwick & Brown, known as the Old Farmers, will run a Washington Steam Thresher this season. Good, thorough and clean work guaranteed. Please call and see us. 36 St.

How To Save Gold.

THE TRIPLER AMALGAMATOR! PATENTED.

This machine is a combination of silver plates so as to represent a large amalgamating surface, working with rapidity and efficacy, which has not hitherto been accomplished. The drawing above represents the machine in working position. It consists of four corrugated plates fitted together, allowing a space between of 1/4 inch. Two plates are perpendicular, connecting with two horizontally inclined. The pulp passes from the battery and falls perpendicularly through the plates, which gives it a zigzag motion, causing the free gold to impinge on each side, when it passes through the horizontally inclined plates, which act as riffles, catching any escaped gold both on top and bottom. The plates discharge in a circular pan at the end which is given a rotary motion, thus concentrating the heavier portion of the tailings for subsequent treatment if necessary. At the top of the machine is a mercury cup which feeds automatically any required mercury to keep the plates in active force.

The machine is especially adapted for placer mines. It can be worked with or without water; it requires no mill for pulverization, it only being necessary to sift the sand, which can be done at a trifling cost, so that low grade ore can be worked profitably. This machine has been practically tested and is now on the Herring mine, Randolph county, where it met with such success as to warrant the belief that it will be of great value to the mining industry of this State.

This machine has an electrical attachment by which the mercury should it be sickened by the various causes to which it is liable, can be instantly restored to activity. Inspection is invited. Estimates given for the erection of this machine on placer and other mines; also for all other mining machinery by the undersigned.

A. B. TRIPLER, HARRISVILLE, RANDOLPH CO., N. C., Or to THE TRIPLER AMALGAMATOR & MANUFACTURING CO., of New York: BENJAMIN LEWIS, Sec'y and Treas., 181 Montague St., Brooklyn, N. Y. 1661.
