

THE GRAPE CURE
SAL-MUSCATELLE
IN AMERICA
WITHOUT THE EXPENSE OF AN
EUROPEAN JOURNEY!

The crystallized salts, as obtained in a pure state from grapes and choice fruit, in a palatable, pleasant, simple form, are now presented to the public of America as the grandest remedy of impure blood, corrector of the liver and regulator of the bowels—the natural promoter of health and longevity.

Sal-Muscatele is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit; it is the simplest and best preventive and cure for all functional derangements of the liver and its kindred ailments; prevents the absorption of malarial diseases—favors of all kinds; counteracts the effect of bad air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions; rick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indulgence from excessive eating and drinking. It is a specific for the fagged, weary or worn-out.

Sal-Muscatele
A POSITIVE, NATURAL

Bick Headache and Dypepsia Cure
Sal-Muscatele is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit; it is the simplest and best preventive and cure for all functional derangements of the liver and its kindred ailments; prevents the absorption of malarial diseases—favors of all kinds; counteracts the effect of bad air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions; rick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indulgence from excessive eating and drinking. It is a specific for the fagged, weary or worn-out.

SINGER SEWING MACHINE

It sings in every language, its cheering and thrifty tones are heard in the modest cottages of every land and clime, no less than in the abodes where luxury and wealth abound.

MACHINES ARE SOLD

on the most favorable installment terms, and liberal discount for cash.

Three-quarters of all the Sewing Machines sold throughout the world last year were SINGERS.

For light running, ease of operation, perfection of stitch, speed and durability none compare to our New Machines. Remember our prices have recently been greatly reduced.

Don't fail to call on our Agent in Salisbury before you purchase. Energetic reliable men can secure profitable employment with us.

For particulars address: THE SINGER MAN'F'G. CO., 23-24 RICHMOND, VA., or CHARLOTTE, N. C.

Look at This!

We keep on site the celebrated

PIEDMONT WAGONS,

Made at Hickory, N. C.

THESE WAGONS ARE NOW AT THE FRONT.

They were awarded FIRST PREMIUMS by the North Carolina State Exposition, at Raleigh, N. C., October 1884; by the Carolina Fair Association at Charlotte, October 28th, 29th, 30th and 31st, and by the Chester county, (S. C.) Fair in October 1884—over all other wagons.

These wagons are sold for cash or on time. We also sell the COLUMBUS WAGON CO'S.

Unrivalled Vehicles.

They have no equal, when price, quality and style are considered.

REMEMBER

They took six Gold Medals at the World's Exposition, at New Orleans in 1884 and 1885, over all competitors.

ALSO

Standard Buggies, Carriages, and Spring Wagons,

That are fully warranted, together with the Newark Machine Company's popular Grain-Drills, Wheat Grading, Fan Mills Straw Cutters, &c., &c.

Also Double and Single Harness.

64,897 RAKES

We will sell our Steel Tooth Hay Rake as cheap as any other make, and will make circulars and price list mailed free.

\$10.00 will buy the DAISY New Style CORN SHELLER.

The Fan cleans the Corn as it comes out. The QUESTION IS ASKED why we sell our Shellers so cheap. Answer: We build them in winter after our CLOVER HULLERS trade is over. All are warranted to do good work or no sale. NEWARK MACHINE CO., Columbus, Ohio.

JOHN A. BOYDEN, J. O. WHITE.

Carpenter, Contractor AND BUILDER.

Having been engaged in the above line, I am prepared to do all kinds of work.

J. H. MICHAEL, 45-50a Verbe P. O., Rowan Co., N. C.

Buy your sewing machines from Meroney & Bro. They keep them in order 5 years free of charge, saving expenses of sending them to the factories.

They sell attachments and needles for all kinds of machines at wholesale and retail; will sell needles to the trade at factory prices.

MERONEY & BRO. make and sell the best Sewing Machine in the State. You can always get the Points and parts without paying express freight from a great distance, as you will have to do if bought of foreign manufacturers. 75 cts will make an old slow now. Is this not economy?

FARM NOTES.

Do not fail to plant pumpkins for the hogs next fall. They are good feed and good medicine.

Manure is the sheet-anchor of high farming and big profits; and the liquid is one half the capital.

The best time for ploughing under green crops is when they are flowerin'g, as they then decay very rapidly.

Don't expect to get the greatest amount of labor out of your horses without they are in the best possible condition.

Every farmer's wife should have a flower garden of some sort, be it small or large. It will be a source of recreation, restful employment and pleasure to her, as well as a delight to others.

An ordinary hen's egg weighs from one and a half to two ounces, a turkey's three to four ounces, while that of a goose weighs from four to six ounces.

Grow a garden, a small fruit orchard, keep a good flock of poultry, a few head of swine, some good milk cows, a small flock of sheep, and be economical, and you will steadily become better off.

The potato loves moisture where the water is never stagnant. Its feeding roots go deeper than those of corn, and, therefore, land for this crop requires deeper ploughing.

Some interesting experiments have been made in France on the advantage of giving water to milk cows warmed, instead of in its natural cold state. At the agricultural school of St. Remy two cows were fed on the same food, but one was supplied with cold water and the other water 113° Fahrenheit. The latter yields a third more milk.

While not much believing in dosing farm animals or even human beings, there can be no doubt that occasional doses of turpentine, sulphur and charcoal, mixed with their feed, help to keep pigs in good condition. If these are given once a week, the hog cholera will not appear.

A mess of food given to a cow while she is being milked draws her attention, and she will not hold up the milk as cows are apt to do when the calf is taken from them. The milking can be done more thoroughly, as well as quicker, when the cow is quietly eating. And if fed turnips or cabbage at this time the odor will not affect the milk.

Stockmen know that at no time will cattle gain flesh and fat faster than on good pasture in June. The grass is not so nutritious as many other kinds of food, but its easy digestibility makes all its nutrition available. To make the most of this period, however, it is false economy to rely on grass alone.

A few hundred pounds of corn meal fed judiciously at this time will make more gain than the same quantity at any other season.

Careful experiment and close observation everywhere show that liberal top-dressing, surface manuring on most crops—winter grains, meadows and some spring crops—is the best mode of applying manure.

A much heavier seed and larger growth of either pasture or hay is obtained by sowing different kinds of grass seed on the same field. Each will find the kind of soil and plant food best adapted to its vigorous growth, and thus prevent vacant spaces which are only filled as nature occupies them with noxious weeds.

Very many of the spring chickens sold in New York are raised on sunflower seed. At many points in New Jersey there are chicken farms where chickens are raised by the thousand. Many receive their first start in life from the incubator, and when large enough are put on a diet of sunflower seeds. The chickens are very fond of the seeds, which are full of oil and are very fattening. The sunflower gives little trouble to the farmer, as it is a hardy plant and grows without cultivation. Some farmers plant three and four acres of sunflowers, and such fields have a surprisingly gaudy appearance. The perfume is sickening, but when turned into spring chicken the sunflower becomes a pleasing table ornament.

The Athens Banner declares that the average Georgia farmer will buy anything at any price if he can only get it on time. It is not a question with him as to whether he can afford it or not, but "it's only a question of time. The result of this vicious habit is a conviction on the part of the planter that "farming don't pay."

FACETIAE.

Better to have loved a short girl than never to have loved a tall.—[Chicago Telegram.

When popping the question very few men calculate how much it will cost to secure a divorce.—[Philadelphia News.

Innocent mother—"Who is this Mrs. Up I overheard the boys speaking of in their room last night?" Indifferent father—"Never heard of her." Innocent mother—"I think she must be an old colored woman who does their washing; they always speak of her as Auntie Up."

Ponsonby—"I saw you playing billiards last night with Litewait. How did you come out?" DeGuy—"Lost \$1,200 on eight games."

"Merciful smoke, what a loss!" "I should say so; and the worst of it was that two dollars of it was cash."—[Philadelphia Call.

"Yes," she said, "pa will never give his consent, and George wants me to elope."

"Well, why don't you?" "Because, to elope, I will have to climb down a ladder."

"Well, there's nothing difficult about that."

"Yes, there is. You know I'm pigeon-toed, and I'd die before I'd let George know it, or at least until after we are married.—[Philadelphia Herald.

INTERESTING NOTES.

At a drum tap nine million soldiers could take arms in Europe.

Ex-President Arthur's weight has decreased from 250 pounds to 130.

Four thousand four hundred and thirty-two emigrants arrived at Castle Garden on June 1st.

No fewer than 100,000 shade trees now make Washington glorious in fresh green and fragrant blossoms.

Samuel J. Tilden's yacht, the Viking, has been fitted up for a cruise which her owner is going to undertake in her this summer.

The title of Miss Rose Cleveland's new book, which a Washington paper says she is writing for a Detroit publishing house, is "You and I; or, Moral, Intellectual and Social Culture."

Prince Jerome Napoleon is coming to America for a visit. If he wants to find a place without royalist failings, where a man can settle down and grow up with the country, this is the country for him.—[Philadelphia Press.

The Atlanta Constitution says: "The most expensive young ladies in Atlanta spend about \$800 a year each for dresses, and when one of these lovely creatures has a wedding they say her father is lucky if he comes out of it for less than \$1,500.

A Gold Hill merchant had a singular experience the other day. He had purchased a jug of cider, put it in his wagon and started for his place of business. On the way, at a lonely spot, he heard the report of what he took to be a pistol and also heard something whizzing past his head. He thought he was shot at, whipped up his horse, and, on reaching home, found his jug nearly empty and the cork gone.

It costs a little more than twenty cents a mile to run a locomotive, on an average. Nearly eight cents of this is for fuel, seven and a quarter cents for pay of engineer and fireman, a half cent for oil and waste, and more than four and one-half cents for repairs. A ton of coal will run a locomotive twenty four miles, a pint of oil will run it eleven miles, and a pound of waste one hundred and twenty three.

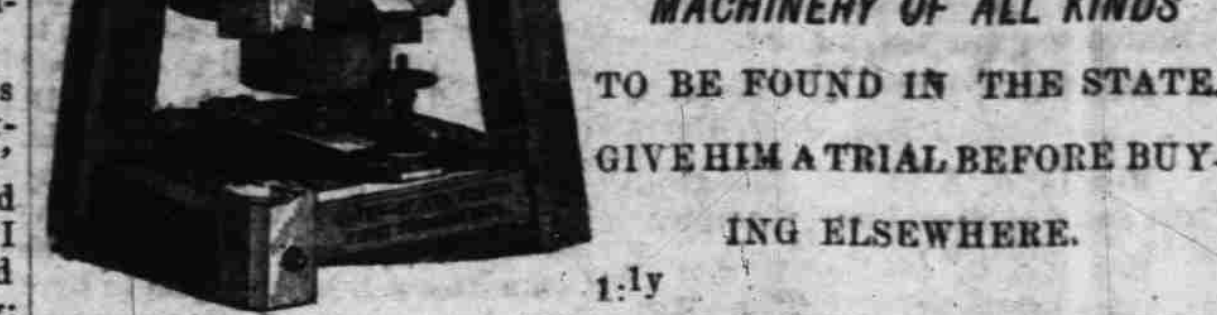

The locomotives of a railway like the Northwestern run five hundred thousand miles a month.—[Chicago Herald.

Judge Martin rendered a decision this morning which is of unusual importance. Every person who patronizes the Western Union company writes his message on a blank which states at the top that the company will not be responsible for mistakes unless the message is repeated at extra expense. Judge Martin decided this morning that this condition was against public policy, and that the company is responsible for mistakes made in un-repeated messages. The case under discussion was that of J. C. Crall vs. the Western Union telegraph company. Last summer Crall sent a message ordering one of his race horses, brought to Valley Falls, but the operator made the message read Neosho Falls, and to-day he received a judgment for \$136 damages against the company.—[Globe.

Quinine for Scarlet Fever.

During the late epidemic of scarlet fever in Peoria, a writer in the Medical Monthly claims to have successfully used quinine to prevent the spread of the disease in families as soon as a single member was attacked. In no instance, he says, has it attacked any other member of the family unless the attack came on in a day or two after commencing the quinine. He gave two or three grains three times a day, according to the age of the child; then, after two or three days, the dose may be lessened; but the use of the quinine must be kept up for three weeks, or until the sick members of the family are fully recovered.—[Chicago News.

ING ELSEWHERE.

Mecklenburg Iron Works,
SALE.

Having determined to settle up and change my business, the following property is for sale, the greater part of which is in and near Salisbury, N. C., now one of the growing cities of the State.

1st—The house and lot where I now live; a good brick house with ten rooms 18 feet square and 10 feet hall-way; two other brick buildings 16x32, 3 rooms each; fine brick dairy, 3 wells of water, 2 good large stock and forage barns and other out-buildings; a large garden, about 4 acres in choice fruit trees, just in good bearing. The whole lot contains 15 acres, beautifully situated, the ground slightly descending from the dwelling at all points.

2nd—20 fine building lots 50x200 or larger to suit purchasers, adjoining the residence of J. S. McCubbin and others.

3rd—45 acres of land adjoining the above, between the Charlotte and Caldwell Roads, about one-half mile from city, well suited for building, manufacturing sites or truck farming. About 8 acres of good forest timber on this tract.

4th—A house and lot just one mile from centre of city; lot contains 7 acres, house 3 rooms, well of good water; lies between the Charlotte and N. C. Railroad. This lot is well suited for manufacturing as a fair portion is on grade with R. R.

5th—80 acres of Land on East side of N. C. R. R., within 200 yards of the corporate limits of Salisbury, with 2 common houses which rent for \$8 per month; a never failing stream of water runs through the property, and is a part near railroad well suited for building-lots or manufactories, or the whole a good stock farm.

6th—80 acres on the West side of N. C. R. R., one and one-fourth miles from the city. This tract lies near on a grade with railroad, and is well suited for truck farming, manufacturing sites, fair grounds. There is on this tract about ten acres wood land.

7th—9 building lots, 50x200 feet, on Fisher and Bank streets, in the great South Ward of Salisbury, adjoining the lots of James Lineberry, D. A. Atwell and others.

8th—26 acres of land on the Gold Hill or Stokes Ferry Road, East side, and on both sides of what is known as the Town Creek, just one mile from centre of town; about 15 acres of excellent meadow.

9th—182 acres. A very fine farm about three miles from Salisbury on the W. N. C. H. R., with 2 farm houses and other buildings; one good well of water. This tract has about 60 acres of the best of bottom land, most of which is in cultivation and meadow; the upland is fine tobacco and cotton land.

10th—100 acres on the Bringle's Ferry road, 14 miles from Salisbury, 8 from Gold Hill. All wood land.

GOLD MINE

11th—50 acres Placer gold mine tract, about 7 miles from Salisbury. This is valuable property. There are at least 100 acres on the place that will show gold to every shovel of surface dirt. There is also a vein of 12 or 15 inches showing gold. This property paid a Mr Goodman about ten thousand dollars some years ago by washing the surface not more than 150 feet square to a depth of 12 inches. With proper development I have no doubt but that it would be a fine paying property.

12th—1589 Acres. I have also a one-half interest in fine properties in the above number of acres in Rowan and Moore counties, having good veins of gold, silver, copper, iron, soapstone, roofing slate; also a large vein of fine Jasper stone.

All of the above named properties are positively for sale on reasonable and easy terms. All persons who desire to invest in or purchase will please give me a call before buying.

As reference in regard to the above, see Proprietors NORTH CAROLINA HERALD, J. S. McCubbin, Sr. Luke Blackmer, Esq. Davis & Wiley, Bankers, and M. L. Holmes, of Salisbury, N. C., and S. E. Linton, Esq., of Charlotte.
