

A Man of Grief! LIKE LAZARUS! HIS RELIEF AND JOY!

The Doctor says: When Mr. James Edwards, of Senoia, Ga., began to take "Guinn's Pioneer Blood Renewer," I saw him. He was covered, body and extremities, with a characteristic syphilitic eruption that seemed to have baffled all treatment. I saw him the second time in about ten days, when he was so changed in appearance by having the scales removed and the eruptions healed, that I barely knew him, and in a remarkably short time he was relieved of all appearance of the disease.

Look at This!

We keep on sale the celebrated
PIEDMONT WAGONS,
Made at Hickory, N. C.

THESE WAGONS ARE NOW AT THE FRONT.

They were awarded FIRST PREMIUMS by the North Carolina State Exposition, at Raleigh, N. C., October 1884; by the Carolina Fair Association, at Charlotte, October 28th, 29th, 30th and 31st; and by the Chester county, (S. C.) Fair in October 1884—over all other wagons.
These wagons are sold for cash or on time. We also sell the COLUMBUS BUGGY CO'S.

Unrivalled Vehicles.
They have no equal, when price, quality and style are considered.

REMEMBER
They took six Gold Medals at the World's Exposition, at New Orleans in 1884 and 1885, over all competitors.

ALSO
Standard Buggies, Carriages, and Spring Wagons.

That are fully warranted, together with the Newark Machine Company's popular Grain Drills, Wheat Grading, Fan Mills Straw Cutters, &c., &c.

PRICES TO SUIT THE TIMES.

Also Double and Single Harness.

64,897 RAKES
IN USE.
We will sell our Steel Tooth Hay Rake as cheap as any other first-class rake in the market. All our rakes are made of good work or no sale. Our prices and price list mailed free.
NEWARK MACHINE CO., Columbus, O.

FARM NOTES.

It is a notable fact that the fruit growers who cultivate but a few acres usually reap the largest rewards as compared with the extent of their efforts.

The best authorities agree that one pound of cheese and one-half pound of bread contain as much nutriment as two pounds of beef.

There is no interest that better or more uniformly holds its own than the poultry interest, and there is commonly none on the farm more slighted. That, neglected as it is, it should still pay, is good proof that it deserves more attention.

Good tillage is the strongest weapon with which the farmer can fight hard times and gain success. Imperfect culture, on the other hand will scarcely enable him to gain a living from the richest soil, and the soil will deteriorate rapidly in quality from such treatment besides.

The slogan of the fancy stock men is "more blood," "better blood," "purer blood." This is all right and proper enough for them; but we think that among the farmers at large a more important thing is more care, better care, and more and better feed.

Americans probably invest more money in farming tools than any other people. By the census of 1880 the value of agricultural implements made the previous year was \$68,000,000. Ten years is a long life to the average farm tool and many are worthless after three or four years use or rust. It is probable that the entire amount invested in farm tools now in use is nearly or quite \$1,000,000,000.

In hiring help on the farm look to the habits. A smoker is likely to burn your buildings; a careless man will waste and destroy twice his wages; a passionate man will spoil your horses and cows and break more than he earns; an immoral man will corrupt the minds of your children; a careful, high-minded, thinking man will make your labors light, will look after your interests, and will earn his money whatever you pay him.

There is altogether too little enterprise among farmers in hunting up new ideas. Visiting a wide awake young farmer lately, we found he had been using ground rye mixed with wheat bran as food for his horses. His team was constantly at work on this feed, looked well and was kept at about two-thirds the expense of feeding oats and hay. Rye may be objectionable to breeding animals, on account of ergot, but this limitation makes it a cheaper feed than it would otherwise be, and for working teams and for growing hogs it can hardly be excelled.

Household Hints.

A hard cold is oftentimes cured by a cup of hot lemonade taken at bed time, as it will produce perspiration.
Consumptive night sweats may be arrested by sponging the patient's body at night with salt and water.
Teething children may be relieved of convulsions by being immersed in a warm bath, and cold water applied to the head.
Cold boiled rice or hominy, soaked very soft in milk and mixed with eggs and flour to a smooth batter, makes nice griddle cakes.
Tea is not fit to drink unless made with boiling water. If possible, it is ruined more thoroughly when allowed to boil after it is made. Stewed tea is "intolerable, and not to be endured."

To keep insects out of bird cages, tie up a little sulphur in a bag and suspend it in the cage. Red ants will never be found in closet or drawer if a small bag of sulphur be kept constantly in those places.
Cut a fig once or twice in two, put it in a cup, pour boiling water on it, let it stand till cool, not cold; then bathe the eye with the water quite frequently. It is a sure cure for sty on the eye.
For croup or pneumonia, bruise raw onions, lay on a cloth with powdered gun camphor sprinkled over it, and apply to chest and lungs, and over with hot flannel; this is a sure cure when taken in time.

The President's bride is not a prohibitionist and believes in having wine served at the table.
The President draws his money the first of the month, and is said to save \$25,000 a year.

In a certain Austrian town thirty female printers were introduced. The typographical society, which was averse to the innovation, took a novel way of removing them. It took three years to do it, but it was accomplished at last by the girls all becoming the wives of the printers.

Invasion of Southern Ore.

[Baltimore Sun.]
Alabama pig iron is working its way into the Pittsburgh market. The Penny Press of that city, of Friday last says: "Southern furnacemen have at last scored a point in Pittsburgh. Several large iron mills are now using more or less pig iron made in Birmingham, Ala., and Tennessee. This iron is selling, delivered in this city, at from \$15 to \$15.50 per ton—fifty cents less than the price of home iron. Furnacemen here are naturally somewhat alarmed. They do not know what will be the result. They have been fighting the introduction of Southern ore here for a couple of years, and many manufacturers were led to believe that it was an inferior quality; so much so that the reduced price at which it was offered would be no inducement to use it. This has not proved strictly true. It has not been used to any great extent so far, but it has given satisfaction, and some very large sales have been made during the past month." Commenting on this the Philadelphia Record says: "To add to the misery of this Southern invasion, ore has advanced, coke has advanced and freight rates have advanced, and the price of pig iron cannot be advanced unless Alabama is entirely shut out of the Pittsburgh market."

Miss Folsom's Joke on the President.

Though possessing so much quiet dignity, Miss Folsom saw the ludicrous side to many things at the White House, and at one of the President's day receptions to the public, school-girl mischief cropped out in a little surprise put upon the President. The crowd had nearly all fled out of the East Room, where the hand-shaking on these occasions takes place. The President with a look of relief in his face was about to turn away, as he gave the last visitor's hand the parting grasp. Suddenly two young women came out from behind the columns where they had been concealed, and walking demurely forward put out two right hands at the same time, saying formally: "Good morning, Mr. President. We hope you are well to-day," following the words with low but merry laughter. They were Miss Folsom and Miss Van Vechten. The President said something about the "bad light," and confessed that he did not know them until they greeted him—[New York Tribune.]

The Feet Should Go First.

A physician, referring to the custom of traveling on sleeping cars with the berths made up with their heads toward the engine, said: "It is certainly bad for the brain of the sleeper, as it is not natural; and it is no wonder that so many travelers, especially those who have been on the road extensively, experience bad effects from it. It is true that when a man jumps into the water he goes head first, but then it is not long continued, nor unduly excites the brain. Take infants, in baby carriages, and no sane woman will think of trundling the vehicle along so the child goes head-first. They always, except the young and inexperienced mother, push them along feet-first. Physicians invariably advise such locomotion. It is the same thing on the cars, and no one should hesitate about having his berth made up so as to move along feet-first. It is much better for the brain."

The Cost of the Change of Gauge.

It has at last been figured out that the net cost of the change of gauge on the 12,618 miles of lines is \$1,350,128. While this is a large sum of money, it is small in comparison with the benefits which will result from this expenditure. This amount would build and equip fifty-four miles of new road at an average cost of \$25,000 per mile, and yet many times this sum has been squandered in building parallel roads which the country did not need, and whose construction resulted in permanent loss to existing roads. The establishment of a practically uniform gauge throughout the country will be worth many millions, particularly to the South, and will be paid for in a comparatively short time.—[Charlotte Observer.]

VALUABLE REAL ESTATE

—FOR— SALE.

Having determined to settle up and change my business, the following property is for sale, the greater part of which is in and near Salisbury, N. C., now one of the growing cities of the State.

1st—The house and lot where I now live; a good brick house with ten rooms 18 feet square and 10 feet hall-way; two other brick buildings 16x32, 2 rooms each; fine brick dairy, 3 wells of water, 2 good large stock and forage barns, and other out-buildings; a large garden, about 4 acres in choice fruit trees, just in good bearing. The whole lot contains 15 acres, beautifully situated, the ground slightly descending from the dwelling at all points.

2nd—20 fine building lots 50x200 or larger to suit purchasers, adjoining the residence of J. S. McCubbins and others.

3rd—45 acres of land adjoining the above, between the Charlotte and Caldwell Roads, about one-half mile from city, well suited for building, manufacturing sites or truck farming. About 6 acres of good forest timber on this tract.

4th—A house and lot just one mile from centre of city; lot contains 7 acres, house 3 rooms, well of good water; lies between the Charlotte and N. C. Railroad. This lot is well suited for manufacturing as a fair portion is on grade with R. R.

5th—80 acres of Land on East side of N. C. R. R., within 200 yards of the corporate limits of Salisbury, with 2 common houses which rent for \$6 per month; a never failing stream of water runs nearly central through this; the part near railroad well suited for building-lots or manufactories, or the whole a good stock farm.

6th—80 acres on the West side of N. C. R. R., one and one-fourth miles from the city. This tract lies near on a grade with railroad, and is well suited for truck farming, manufacturing sites, fair grounds. There is on this tract about ten acres wood land.

7th—9 building lots, 50x200 feet, on Fisher and Bank streets, in the great South Ward of Salisbury, adjoining the lots of James Lineberry, D. A. Atwell and others.

8th—26 acres of land on the Gold Hill or Stokes Ferry Road, East side, and on both sides of what is known as the Town Creek, just one mile from centre of town; about 15 acres of excellent meadow.

9th—182 acres. A very fine farm about three miles from Salisbury on the W. N. C. R. R., with 2 farm houses and other buildings; one good well of water. This tract has about 60 acres of the best of bottom land, most of which is in cultivation and meadow; the upland is fine tobacco and cotton land.

10th—100 acres on the Bringle's Ferry road, 14 miles from Salisbury, 3 from Gold Hill. All wood land.

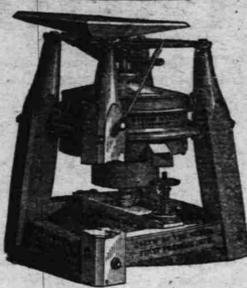

GOLD MINE
11th—50 acres Pleaser gold mine tract, about 7 miles from Salisbury. This is valuable property. There are at least 10 acres on the place that will show gold to every shovelful of surface dirt. There is also a vein of 12 or 15 inches showing gold. This property paid a Mr Goodman about ten thousand dollars some years ago by washing the surface not more than 150 feet square to a depth of 12 inches. With proper development I have no doubt but that it would be a fine paying property.

12th—1589 Acres. I have also a one-half interest in fine properties in the above number of acres in Rowan and Moore counties, having good veins of gold, silver, copper, iron, soapstone, roofing slate; also a large vein of fine Jasper stone.

All of the above named properties are positively for sale on reasonable and easy terms. All persons who desire to invest in or purchase will please give me a call before buying.

As reference in regard to the above, see Proprietors NORTH CAROLINA HERALD, J. S. McCubbins, Sr, Luke Blackmer, Esq, Davis & Wiley, Bankers, and M. L. Holmes, of Salisbury, N. C. and S. E. Linton Esq., of Charlotte.

THE GRAPE CURE

SAL-MUSCATELL
IN AMERICA
WITHOUT THE EXPENSE OF AN EUROPEAN JOURNEY!

The crystallized salts, as obtained in a pure state from grapes and chosen fruit, in a portable, palatable, simple form, are now presented to the public of America as the grandest restorative of impure blood, corrector of the liver and regulator of the bowels—the natural promoter of
HEALTH AND LONGEVITY.

Eminent physicians claim this achievement a new era in the science of medicine, that it furnishes the blood with its natural salines that are lost or eliminated every day.

Sal-Muscattelle

A POSITIVE, NATURAL

Sick Headache and
Dyspepsia Cure

Sal-Muscattelle is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit; it is the simplest and best preventive and cure for all functional derangements of the liver and its kindred ailments, nervousness, the absorption of malarial diseases—fevers of all kinds; counteracts the effect of air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions, sick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indulgence from excessive eating and drinking. It is a specific for the fagged, weary or worn-out.

Prepared by the
LONDON SAL-MUSCATELLE CO.
LONDON, ENGLAND.

Beware of imitations. The genuine in "blue wrappers only."
