CITY ITEMS.

ROBERT L. RAMSAY, Local Editor.

Head the Salisbury Racket Store's new ad.

110 arrivals at the Mt. Vernon hotel last week.

Board & Rice have made large shipments of tobacco this week.

The Signal Service flags may now be seen floating from the HERALD office.

Misses Minnie Halyburton and Ida Meyerson left for Icard on Sunday last.

We call the attention of the public to the great bargains offered by M. S. Brown in other columns.

Miss Mamie White returned to St. Mary's this week, after spending the Christmas holidays at home.

Several of our young people enjoyed a very pleasant evening Saturday, the 5th inst., at Mrs. R. H. Yonard's.

The Yadkin river has been frozen over during the recent cold weather, but not at the ferry-ferrying is still possible.

Mr. E. C. Miller returned, after a short visit to Albemarle, last week. He tells us that the railroad is the hobby of the day in Stanley.

The Rev. Mr. Rainford, rector of St. George's Church, New York, is expected to preach at St. Luke's church at both services next Sunday.

Head Meyerson's advertisement. They are offering big bargains in their stock. Mr. Meyerson has always kept good goods, and they propose now to sell some of them at and below cost.

Mrs. W. R. Barker and Miss Faneck, of Baltimore, will, in a few days, open a first-class dress-making establishment. Miss Faneck comes highly recommended as a cutter, fitter and draper.

Howard's Show played here Monday night to a very large audience. It was very good indeed of the kind. The programs and dog dancing were the most striking features of the performance.

The proprietors of the Farmer's Warehouse have requested us to mention in our columns that they have on hand a fine lot of tobacco seed, which will be given to those willing to raise tobacco plants for the coming season.

Prof. J. M. Hill will open a private school in this city Monday, the 17th inst. He was engaged at South River during the past session, and would have continued his labors in that field, had our city not offered greater inducements.

Col. F. K. Heilig received a very severe fall on Monday last. Just as he was descending a long flight of steps in the rear of his residence, which were coated with a thin sheet of ice. We are glad to learn he sustained no serious injuries.

Several tableaux were rendered in a very artistic manner at Mrs. McCully's last Saturday evening. They were arranged by Miss Mamie, aided by her interesting little school, and highly enjoyed by all present. The entire entertainment was a perfect success.

The stockholders of the First National Bank held their annual meeting this week. The same officers were elected with the exception of Mr. Luke Blackmer, who resigned his directorship. Mr. W. C. Blackmer was elected to the vacancy. The reports show a general increase of business.

The State Board of Agriculture will hold a meeting at Raleigh on the night of January 18th, for the purpose of discussing subjects of interest to the farmer and those interested in the State. Tickets will be on sale for days before the 15th, and will be good to return until the 30th of January. The rates are: China Grove and return, \$1.15; Salisbury, \$1.00; Third Creek, \$0.75; Linwood, \$0.70.

The Old Hickory Club held their annual elections Jan. 8th and the following officers were elected: Theo. P. Kluttz, President; Wm. McMillan, First Vice-President; M. H. Brown, Second Vice-President; and J. H. Ramsay, Secretary. Jas. D. Hoffig, Treasurer. Messrs. John Jacobs and W. C. Lindsay were also elected members of the Executive Committee. The Club is in a flourishing condition. Several new members have been added lately.

Mr. A. Parker had a strange vision at his store during the holidays. This vision was a white rabbit, which ran in the store during the cold and snowy weather. He is becoming quite familiar with Mr. Parker's cat, and they bid fair to be fast friends.

Mr. Theo. Buehmann has at his store two genuine oil paintings, which were hand-painted by Mrs. Mary J. Reall, of Lenoir. These pictures were painted from nature, and so effectual in the work of the artist, that life seems to have been transferred to the canvas by some magical power.

Building and Loan Again.

The books will be open for subscription to the Third Series of stock in the Building and Loan on February 1st. The first installment will be due on that Series on the 1st of March.

The individual prices on January 10th amounted to \$197.75, or a little more than 9 cents on every share in the 2nd series and 27 cents on every share in the First Series. So that the profits on the first series to date are 45 cents a share.

No one has ever withdrawn a share of which an installment was paid. Stock sells readily at what it cost, and sometimes at something more.

Brooklyn.

Eleven lots changed hands last Monday. This is the biggest transaction in Brooklyn lots we have on record. Cheap lots will sell, cheap lots will be built upon. We have no doubt that Brooklyn will be, in the near future, the most pleasant part of our town. The locality is most admirably adapted for building purposes. They are all level and the drainage is perfect. We hear of about a dozen houses to be built there as soon as the weather permits. About 50 lots are for sale yet, and he who buys first will have the choice. We have a personal interest in the growth of Brooklyn; we live there ourselves. Buy now, and then you won't have to say afterwards that you wish you had bought in time.

Weather Signals.

As will be seen from the appended notes, our Mr. Heilig has been appointed Observer for the town of Salisbury. Flags are now displayed from the top of the HERALD office, indicating the weather. These flags are hoisted every morning and indicate the weather for the next twenty-four hours; that is, the flags are hoisted every morning as soon as the dispatches are received, which is about 9 o'clock, and indicate the weather until 9 o'clock next morning.

The White Flag means clear or fair weather.

The Blue Flag, rain or snow.

White Flag with black square in center, cold wave; indicates the approach of a sudden and decided fall in temperature. This signal is usually ordered twenty-four hours in advance of the cold wave. It is not displayed unless the temperature of the day is 5 degrees, or less, is expected, and is the black triangular flag displayed with it.

The black triangular flag always refers to temperature. When placed above white or blue flag it indicates warmer weather; when placed below it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary five degrees from the temperature of the preceding day.

Next week we will give our readers more about the combinations of flags and their meaning.

THOS. BERNARD, Esq., Salisbury, N. C. Dear Sir:—I have the honor to inform you that, upon the recommendation of numerous citizens of your town, you are appointed Voluntary Observer of the North Carolina Weather Service at Salisbury.

In making such appointments from this distance, of course we have to look to those who take the interest in it and get the funds for the purpose to nominate persons to us. This is the first time your name has been mentioned to us, and Mr. Bruce gives your recommendation, too, and testifies that you are such a methodical and careful person, as we want for Observers.

I am personally gratified at the interest you take in this matter and hope you will make a success of it. I have requested Mr. Barker and Mr. Maplock to turn over to you all instruments and papers. Please note the instructions in the pamphlet enclosed and write me if you need any further information.

Yours respectfully, Chas. W. Dabney, Jr., Director.

DIED.

Mrs. Mary J. Davis, one of Goldsboro's oldest citizens, died Dec. 32nd, after a prolonged illness. She was born June 2nd, 1834, making her a fraction over 54 years old at her death. She was a consistent member of the M. E. church for more than 35 years. This beloved lady leaves five daughters, one son, and six grandchildren to mourn their loss but beguam. One of her daughters, Mrs. W. G. Benn, resides in this place, and her many friends sympathize with her in this deep affliction.

MINING NOTES.

From a telegram received we learn that Mr. H. James, the English mining engineer who was here waiting examinations of our mines, has arrived in London, and will return to North Carolina in a few weeks to commence developing two of the properties he reported on in Moore and Stanley counties.

Samson Mine.

They have struck a rich body of ore in their deep shaft, and driving on the hole north-east and south-west, the gangue is made up of some of quartz in chloritic slate. Over 300 tons of ore in shaft that is now being taken out ready for the mill, which they expect to have running by the 15th of February.

The Hoover Hill, Russell, Steele, Biles, Mamford, Phoenix, Gold Hill and Concord mines resumed work the 3rd inst., after one week's holidays, to run full capacity of their several mills. We hope to publish the monthly returns from each mine so as to give the public the result of billion productions, also cost of mining and milling of the several mines now in successful operation.

Mining machinery is arriving every week at our depot and being taken out to the mines that have recently during the last four months been quietly opened and partially developed, but sufficiently to warrant the erection of machinery plants. Instead of the regular stamp mill, other classes of pulverizing machinery are being brought into use. We noticed the Frisbee-Lacey Mill, that is claimed to reduce the ore to an impalpable powder at a cost of 10 cents per ton, and accomplish the work of a 20 stamp mill. This is the first mill of the kind that has been brought to this section.

There is now under consideration a contract with the Fort Scott Machine Works, Kansas, for a full plant of their concentrating machinery. This firm is considered one of the No. 1 mining machinery manufacturers, and their mining engineer, Mr. F. De Swolinaki, is a Freiberg graduate, well posted in every branch of concentrating, stamp and hydraulic classifying.

Rev. Calvin H. Wiley, D. D.

Dr. Wiley, in Winston, and the sad intelligence will excite a profound interest throughout the State. Dr. Wiley has been among the leading men of the State. After graduating at Chapel Hill in 1840, he became a lawyer. Then he became the first Superintendent of Public Instruction in North Carolina, and shaped all the action concerning common schools. The State is indebted to him for the early success of the system. For the past twelve or fifteen years he has been Superintendent of the Bible Society's work in North and South Carolina, as he had been before for Tennessee. Dr. Wiley was an active thinker and an active worker. In early life he wrote several stories, as "Athenian," "Rosalie," etc. Afterwards he wrote a history of North Carolina, for the use of schools, with selections from N. C. authors. During the war he wrote and published a treatise on the events of the time. All his work was well done. He was well-known and highly esteemed in Salisbury, where he visited once or twice a year. He leaves a wife and several children to mourn their great loss.

What We Need Most.

To the Editors of the HERALD:

I see in your article of last week about the progress of Salisbury, the following: "We would not advise anybody to enter the retail trade (in Salisbury), but in the wholesale business there are very good openings in our town. . . . We advise any small capitalists to invest their money here (in manufacturing)."

You never said a truer thing than that. We need no more small retail dealers here. Any mercantile, no matter how honorable and progressive, is nothing more than a barnacle. He buys his goods North, sending money out of the country. If he succeeds in business, he accumulates money at the expense of the people he lives with. A manufacturer, on the other hand, buys the raw product of our people; he employs labor, paying them wages; the manufactured goods are sold abroad, money therefore coming home. The merchant sends the money away; the manufacturer brings it here.

Manufacturing here is over-done, manufacturing is an open field.

Merchants we do not need—manufacturers we do need.

I am with you in your advocacy of discouraging retail merchants and encouraging manufacturers. Wishing you all the success you so well deserve, I am, Truly yours, P. W. WOODS.

No suffer from any venereal disease, who will fairly try Ayer's Sarsaparilla, need doubt of a cure. This remedy purges the blood of all impurities, destroys the germ of scrofula, and infuses new life and vigor throughout the physical organization.

Miranda Items.

Some of the Miranda boys speak of emigrating to Texas.

Mr. John Sloop is clerking for J. Roman Davis, Esq., at Mill Bridge.

Crazy patch quilts seems to be the new enterprise in this vicinity at present.

Mr. D. C. Bradshaw of Russell P. O., has moved into his new residence.

The postmistress at Miranda has just knit a counterpane that contains 571,520 stitches.

We are informed that Dr. E. M. Summerell will locate at Mrs. J. L. Coleman's. We wish the young Dr. success in his new field.

One of the Miranda boys seems to have fallen in love with the school marm in China Grove township, district No. 2.

W. D. Graham, of Miranda, was appointed constable of Mt. Ulla township one day last week. Mr. G. is a very intelligent young man, and we wish him success in his new office.

TRAVELER.

Bishop Potter's Funeral.

The funeral of Bishop Potter took place Friday last. The Episcopal service for the dead was chanted in Trinity church at 10 a. m. Bishop Deane, of Albany, Bishop Cox, of Buffalo, Rev. Dr. Morgan Dix, rector of Trinity church, and Rev. Dr. C. E. Swope, rector of Trinity chapel, officiated. At the conclusion of the church service a special train conveyed the funeral cortege to Poughkeepsie, where the interment took place in the old cemetery.

TABLE BOARD.

MERONEY & BRO.

JANUARY 14, 1887—132m

THE SUCCESS OF THE

Salisbury Racket C. O. D. Store,

Has far surpassed our most sanguine expectation in the few short weeks of its existence.

Opening its doors on the 18th day of November, with the avowed purpose of doing a cash business, the RACKET has strictly adhered to that rule. And in selling for the CASH at home, it has been enabled to deal at the other end of the line with CASH—the natural outcome of which is, we have placed before our customers such bargains as they will never find in the hands of buyers who sell on credit—so buy on time. Another feature of our business is (and we suggest that you make a note of it), that with the POTENT CASH in hand we can in many instances buy our values at half the cost of manufacture, and in cases of this kind we do not hold them for their market value, but realizing a small, quick margin, let them go as a victory gained by the

GIANT KING CASH

AND A BARGAIN TO OUR CUSTOMERS.

When we advertise a thing you want, call at once, for our values are changing hands every day and to-morrow they may be gone. But in all cases we have other bargains to take their place.

And as we have oft stated before, our motto is still a DOLLAR'S WORTH OF GOODS FOR A DOLLAR IN CASH.

JOHN BROOKFIELD, Ag't.

N. B.—A general array of Bargains will be advertised in our space next week. 151y J. B.

COME AND SEE!

Oct. 12th, 1886—3-2m

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn over in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills, by the time he had taken two boxes of Pills and two bottles of the New Discovery, he was well and had gained in flesh thirty six pounds. Trial Bottles of this Great Discovery for Consumption free at Kluttz's Drug Store.
