Flowers May.

The total number of students at Davidson College is now 119.

The usual services will be held at the Catholic church Sunday.

Communion services will be conducted at Union Sunday by the pastor, Rev. Mr. Boyd.

Messrs. Gallagher & Bros. have opened a first-class photograph gallery in the place formerly occupied by Campbell & Co.

FOUND.—A store key, closes up. Also a pair of ladies mittens found in the graveyard last week. Can be had by applying at this office.

The St. Cecilia Club will meet at the residence of Mrs. J. O. White on Thursday evening at 8:30 o'clock. A large attendance is requested.

Messrs. Klutz & Rendleman have stretched a large awning that reaches the entire length of their twin stores, which look much improved and decidedly cooler.

W. S. Reiser has opened his jewelry establishment and is ready to begin work. He comes highly recommended as a first-class workman. We wish him success.

The many friends of our townsman, Mr. M. C. Quinn, will greatly regret to learn of the death of his aged father, who died in Shelby last Sunday after a protracted illness.

Mr. Geo. F. Heller, our new cigar manufacturer, has arrived and will soon open business on an extensive scale, and will make the best grade of goods. The HERALD wishes him success.

Miss Lydia Rumble, assisted by the ladies of Salisbury and the Kim City Glee Club, will give a concert on May 13th, for the benefit of the Y. M. C. A., at their hall.

The Secretary of the Building and Loan being absent from the city this week, will not be able to notify those whose monthly payments are due next Saturday night. They must warn themselves.

The King's Daughters gave a very pleasant entertainment at the residence of Dr. Rumble, Tuesday evening; the programme was a very extensive one and the evening was highly enjoyable.

There is to be a May Party at the Pleasure Club rooms next Friday evening at 8 o'clock. Refreshments (ice cream, cake, etc.) will be served. All are invited to attend the May Dance.

Several of our citizens left on the west bound train Tuesday to witness the disinterment of what was thought to have been Marshal Ney's remains. They all seemed to have enjoyed themselves very much considering the unusually warm day.

Mr. M. S. Brown has a most inviting shade in front of his clothing and tailoring establishment, which, by the way, is rapidly making a marked reputation, and ranking among the leading clothing houses of the State.

Mr. N. H. Parks brought in an eagle Monday that measured seven feet from tip to tip. It is what some of our citizens call a black eagle, and was shot by Mr. Parks only two miles from town, with No. six shot, that only broke the wing of this "king of the air."

The king bird was exhibited to an admiring crowd that soon gathered around the bird. The eagle was bought by Mr. James Rumble, who will probably have the wing treated, as apparently that is all that is wrong with the bird.

The spacious Hall of the Y. M. C. A. has been nicely fitted up—supplied with folding seats of light and airy structure, in sets of six, and finished in natural maple, very prettily. The Hall is open all day, and supplied with quite a variety of reading matter, consisting of newspapers and periodicals, &c. The young men of the town are invited to drop in and spend a leisure hour. They will be welcome and we want them to feel at home. Business meetings as usual Thursday night. All the members are requested to attend.

On one of our street corners is a large advertisement of a patent medicine, which at the bottom bears the inscription, 50c. per bottle, in large letters. The intelligent voter was gazing at it, when one of our friends in passing by was accosted by the r. with the words: "Say, Mister, in this No. 50, Bottom street? I want to know so that I may register right." Our friend was first surprised, then, understanding the situation, he told him that it was No. 50, Bottom street, but No. X of Danville Street.

Last Thursday a whirlwind swept over the northeastern portion of our town, doing considerable damage. Being a belated March wind, it was in a big hurry to get to its resting place; it laid low Mr. Eagle's barn, turned over a chimney and some trees. Messrs. John Butler and Geo. Scott had taken refuge in the scale house at the car shops, but had just left it to go to a safer shelter, when the house was completely demolished by the capricious storm; at Mr. Lanier's distillery it demolished a barn and two outhouses. The total damage by the whirlwind was not much, but people say it scared them badly.

The season is now open for Milk Shakes and sixteen other summer drinks, at A. PARKER'S.

Messrs. Ford, Rice & Co. are still receiving large orders for their delightful smoking tobacco, which bids fair to rival any in the State. Their machinery has a capacity of packing eight sacks of tobacco per minute, or 3,840 per day; yet they will have to enlarge their capacity and perhaps at an early date. This firm believes in home enterprise, and we cheer them on. They will have all the sacks made in this city and will not send out of the county or State for anything they can possibly buy or have made here. One of their best grades is the "Bartholdi." The "Tar Heel" is also a splendid make, and are sold at reasonable prices.

Two bright little children have been called away from one household by the reaper death during the past few days. Mr. and Mrs. J. D. Gaskill's little son, Moses Holmes, was the first of the two taken by the Omnipotent hand of God, to realms of eternal peace and love. This sad death occurred on Friday morning last, at 8 o'clock, and was caused by a very severe form of pneumonia. Little Moses was the brother of a twin sister, Lala Lunn, who was attacked by the same disease which was none the less fatal, for she died at 11 o'clock Monday morning. The funeral of Moses Holmes Gaskill was conducted Saturday, and that of Lala Lunn, Tuesday.

The grief-stricken parents, who have sustained so great a loss, have the sympathy of the entire community in their double affliction, but the Shepherd is good.

NEAVE ELECTED

By 46 Majority!

EVERY COMMISSIONER DEMOCRATIC!

ENDORSE OUR TOWN GOVERNMENT.

Municipal Election May 2, 1887.

Table with columns: Name, East, South, North, West, Total. Lists candidates for Mayor, Commissioners, and other positions.

The contest was a spirited one. The head of either ticket were men of undoubted honesty and business capacities. The fight was a strict party fight and the democrats won.

Mr. G. W. Gates received the highest vote on the democratic ticket, and Mr. J. H. Ramsay on the republican ticket. The average of all votes cast for commissioners was 292—a figure reached by no republican and exceeded by every democrat.

The election in other towns. CHARLOTTE elects a democratic mayor, F. Heyward McDowell, with a majority of 570 out of a total vote of 1,220 votes cast. Ten out of twelve democratic Aldermen were elected.

GREENSBORO elects the whole democratic ticket and defeats a proposition to extend the town limits.

RALEIGH—The democrats have a large majority in the board of Aldermen, just elected. The board of Aldermen chooses the mayor.

LEXINGTON—The whole Democratic ticket elected by small majorities.

CONCORD—W. G. Means, Democrat, elected by 95 majority. The town council entirely Democratic.

STATESVILLE—Great enthusiasm prevails over the election of Joseph P. Caldwell, Democrat, for mayor; 51 majority.

WADESBORO—Entire democratic ticket elected.

WINSTON—Democrats elect full ticket. Chas. Buford re-elected mayor.

SALEM—Old mayor and board re-elected.

ASHEVILLE—Harkins, republican, elected by 21 majority; the board of aldermen democratic.

MONROE—J. M. Terrell, dem., elected by 114 majority.

W. S. Reiser is ready for work. Satisfaction guaranteed. Give him a call and you will be satisfied.

Salisbury Improvement Association. This Association meets in the Mayor's office on Thursday May 5, at 8 o'clock p. m. There is nothing that has been started in Salisbury that has been so commented on by the Press in North Carolina.

My name has been printed on the Republican ticket as a candidate for Commissioner of Salisbury. This has been done without my authority and against my decidedly expressed wish. I have always been a Democrat, and wish to say in justice to myself, that I would not have served if I had had the bad luck to be elected. Very truly yours, D. M. MILLER. Salisbury, May 2nd, 1887.

EXHUMATION OF P. S. NEY.

May 3rd, 1887, was set by several medical and scientific gentlemen to examine the remains that have been interred in the Third Creek Graveyard since November 15th, 1849, and supposed to be Napoleon Bonaparte's General. Our reporter visited the above named graveyard to witness the exhumation and interviewed several of the old residents who had been personally acquainted with him during a period of several years, while he taught school in the vicinity. A marble headstone is thus inscribed: "In memory of Peter Stewart Ney, native of France and a soldier of the French Revolution under Napoleon Bonaparte, who departed this life November 15th, 1846, aged 77."

We conversed with Mr. John A. Lock who has the Bible and Testament formerly belonging to P. S. Ney, also with the colored man, Archie Foad, who attended him during his last illness and gained much information concerning the life of the deceased. Our space will not admit of a full account this issue. We give below the Physicians certificate, all of whom are personally known to us as high toned reliable gentlemen.

THIRD CREEK GRAVEYARD, ROWAN COUNTY, N. C., May 3rd, 1887.

The undersigned Physicians wish to state that according to previous notices we did to-day cause to be exhumed the body of P. S. Ney in the presence of a great number of witnesses, some of them from Washington, D. C., Raleigh, and other parts of the country. We found some of the bones only, and these in a state of such decay we cannot state positively whether the skull had ever been prepared or not. We made diligent search for bullets said to have been lodged in the body, but found none. We succeeded as far, however, as to ascertain that the skeleton was about 5 feet 10 inches long, and the skull around the eyes about 24 inches in circumference.

J. G. RAMSAY, D. B. WOOD, N. W. STEVENSON, JAMES MCGUIRE, C. M. POOL, M. D., W. S. EATON, T. E. ANKERSON, J. H. WALLACE, J. B. GATHIEL.

Marriage of Mr. L. C. Aldrich.

Mr. Locke Chunn Aldrich, a locomotive engineer on the Western North Carolina Railroad, and the eldest son of Mr. Lester S. Aldrich, the veteran who ran the first engine ever on this road, was married yesterday to Miss Edith Colyer, at the residence of the bride's father in this place. The ceremony was performed by Rev. S. J. Walters, of Morganton, in the presence of a company of about 40, and was followed by a handsome wedding breakfast which did great credit to Mrs. Colyer and was much enjoyed by the guests. The bride was handsomely dressed and her father and mother were at hand, and at 12:28 the bride and groom left on the western train for Black Mountain station, where a largely attended reception will be given them this evening by his parents. Mr. Aldrich is a most worthy and exemplary young man and his bride is an amiable and highly esteemed young lady who will make in all respects an excellent wife. The young couple has the Landmark's very best wishes and its congratulations upon the auspicious beginning of their married life. [Statesville Landmark, 29 inst.]

That feeling of weariness, so often experienced in the spring, results from a sluggish condition of the blood which, being impure, does not quicken with the changing seasons. Ayer's Sarsaparilla, by vitalizing and cleansing the blood, strengthens and invigorates the system.

MINING NOTES.

Mr. A. T. Nye arrived on Tuesday last, from New York and left for the mine he is working. We will prove shortly that our Granite quarries can supply paving for our sidewalks at less cost than bricks. The durability will not bear comparison—bricks a few years. Granite 3,000 years.

The Hiles mine is milling some rich ore lately opened from a shallow shaft. We regret to hear of the loss of 107 dwags taken from one of the stores of deposit by an unknown thief. A few hours run on their rich ore will make good the loss.

We note from our exchange that the State Mining Bureau of California recently received a piece of rock from the deepest point on the Comstock Ledge, 3,561 feet below the outcroppings of the Gould and Curry mines. The rock proved to be a granular diabase.

The Heathcock Mine, in Stanly county, is receiving the machinery for milling 30 tons per day from the 4 foot vein of quartz laced in a hard, blue clay slate, in contact with a dioritic rock. From sampling of several tons of ore taken out several years ago gave an average yield of 9 dwags, 13 grains of fine gold that as assayed at mine \$65 fine.

Russell Mine. They have erected their 10 additional stamps and have now, continuously running, 20. Milling from the 25 foot bed of talco-micaeous schist. About 10 feet of this ore bed is rich, but the whole mass is taken out from open cut forming a slope of nearly 45 feet. The ore average is from 5 to 7 dwags, and is mined and milled, including all expenses, for \$1.15 per ton. This leaves them a good margin. Since Mr. Sullivan returns to the mine, he has been pushing things lively, and in order to facilitate the speedy delivery of ore to mill, they have erected a 40 horse power hoist, supplied by Frazer & Chalmers, of Chicago. This is another English company that is making money from North Carolina mines.

Appalachian Mine. Their large mill house is nearly completed. They are now putting in the steam and water pipes, draw offs and sluice ways. The machinery is placed in position and as soon as all the connections and counter shafts, pulleys, patent clutches and automatic feeds are fixed, they are ready for milling their high grade ore. Their main shaft is down, to a depth of 100 feet, and is now being run. They will work 100 tons per day.

Centrifugal Amalgamator. [New York Investigator, April 1, 1887.] There are few mining machinery inventions that will be of more interest to mining and milling men than the CENTRIFUGAL AMALGAMATOR, a machine that is simple and substantial, and promises to secure at a very limited expense that which engineers and machinery men have been seeking for years, an amalgamator that will secure gold dust from sand and tailings. It was patented January 11, 1887, but already two machines are in practical use at a mine in Rowan county, N. C. Last Monday, in order to satisfy various enquiries and illustrate the workings of the Amalgamator, a test was made at Mr. Brewster's carriage factory, No. 145 East 25th street. Among the gentlemen present we noticed Gen. Wylie, Louis Zwickendorf, Mr. Pettit, of the Standard Gas Light Co., Judge Christy, President Holyoke Mining Co., Steven Massey, J. Maxwell, C. O. French, of Colorado, Messrs. Wyatt and Greene, of the Engineering and Mining Journal, and many other gentlemen interested in mining.

The test was made by several scientific gentlemen, under whose supervision 15 pennyweights of fine flour gold from the Holyoke mine was thoroughly scattered through a quantity of barren sand. Fifteen pounds of quicksilver was then weighed and put into the amalgamator, and the machine started. The sand was then fed into the hopper of the pan, and in twenty minutes had passed through it.

The pan was then stopped and cleaned up, and the quicksilver and amalgam taken from it. After straining out the amalgam it was retested over a fire, the quicksilver driven off by the heat and the gold left in the crucible. The gold was then weighed and found to equal the amount put in the sand. On weighing the quicksilver no appreciable loss had taken place. The practical test showed an absolute saving of all the gold and no loss of quicksilver.

Nothing more satisfactory could be desired, and all present were convinced that the machine before them, simple and unpretentious as it is, was to work a revolution in the practical saving of the precious metals.

IMPORTANT ANNOUNCEMENT —AND— SHERIFF'S SALE UNDER EXECUTION.

W. H. REISNER Fine Engraver, Watchmaker, and Jeweler.

In presenting myself before the people of Salisbury and vicinity I will say that it is my intention to locate in your midst, to engage in the jewelry business, which I hope to conduct in such a manner as to meet with the hearty approval of all.

First, you will find that what I say can be relied on, not because "I'mostly is the best policy," but from principle. Secondly, I do nothing but first-class work, consequently, at one price. Third, that I engrave as fine as any Jeweler in the State, therefore I have no competition. Lastly, if you have a fine watch, and want it repaired in a skillful manner, and put in strictly first-class order, or if you have a clock that does not give satisfaction and which it repaired in the right manner, or a piece of jewelry repaired and made like new, or a special design made in order, in sets, pins, scarf pins, Jersey pins, monogram pins, bracelets, earrings, cuff buttons, etc., bring them to me and I will do as good a piece of work as can be done in any large city.

I GUARANTEE ALL MY WORK to give entire satisfaction, or make no charge. Asking your kind indulgence and a liberal share of your patronage, I am, Yours very respectfully, W. H. REISNER (Between Smith's and DeBaum's)
