

Craige Collector!

OFFICE AT SALISBURY.

On Tuesday evening the President appointed Kerr Craige Collector of the Fifth District. Senators Vance and Ransom and Hon. John S. Henderson strongly endorsed him. The President having determined in every case to adhere to the reduction of the number of Revenue Districts and to the new lines he had prescribed, it was a part of political justice that the Collector of our district should be a resident in it. For this reason Mr. Boyd should have been set aside. We suppose that whatever reason prevailed with the President in the first instance to set aside Maj. Dowd prevented his re-appointment. However that may be, there can be no question that the President could not have appointed a better man than Mr. Craige. This is a sure instance where the office seeks the man, not the man the office. The President was well advised in this case, and may count himself happy if he secures the services of so good a man. There can be only one possible objection to the appointment, and that is that Mr. Craige's popularity will make the Internal Revenue so popular in our District that no one will be willing to abolish it. We would be glad to have the office moved to Salisbury, and are confident that if it be best for the public interests it will come here.

BRIEFS.

The Sultan has ceded Cyprus to England.
A fire in Havemeyer's Green Point Sugar Refinery, Brooklyn, N. Y., caused damages to the amount of \$1,000,000.
Hannibal Hamlin, of Maine, is the only ex-Vice President of the United States living. R. B. Hayes is the only man who claims to be an ex-President.
News from Raleigh indicates that the Supreme Court takes the view that beer and wines are spirituous liquors and cannot be sold where prohibition prevails.
The Rt. Rev. Wm. B. Stevens, Bishop of the Protestant Episcopal Church for the Diocese of Pennsylvania, died at his home in Philadelphia on last Saturday.
They now import foreign liquors and sell them in unbroken packages at Augusta, Maine. Such importers are protected by the United States from the action of State prohibitory laws.
Senator Ingalls, one of the leading republicans of the northwest, says: "I have no hesitancy in declaring that in this country negro suffrage has been an absolute and unqualified failure!"
Cleo and Claudia Thorne, of Cleveland, O., were drowned in a creek near Macon, Ga., last week. They were on a frolic with four men, and the girls went off to bathe. They went in deeper water than they had expected to find and drowned before assistance could reach them.
The Synod of the reformed Presbyterian Church of America, in session at Newburgh, N. Y., adopted resolutions denouncing secret societies, and forbidding admission to the church to members of all secret orders. In the course of the debate, Free-Masonry was bitterly denounced.
Constable Pierce, of Iowa, of whom mention was made some weeks ago as having boldly defied the United States authorities in seizing property in the custody of its officials, is in trouble. In the course of the debate, Free-Masonry was bitterly denounced.
Constable Pierce, of Iowa, of whom mention was made some weeks ago as having boldly defied the United States authorities in seizing property in the custody of its officials, is in trouble. In the course of the debate, Free-Masonry was bitterly denounced.

some time was in the custody of the sheriff of the county. In some way it was found that the constable had \$1,200 in a bank and owned real estate. He is now under arrest and committed for perjury.

When enterprise breaks like a sunburst in the South, lighting the fires of new factories in every valley, every man knows it lessens Democratic chances.—Philadelphia Press.

If the Press is correct in its statement, then every democratic paper in the South is working with might and main to destroy the democratic party.

"It is over, thank God! but the courage, bravery and fortitude of both sides are now the pride and heritage of us all."—John Sherman at Nashville last March.

The appointment to the foreign service of men who participated in or sympathized with the rebellion may fairly lead the nations to conclude that it was the rebel cause that triumphed and not the Union cause. The democratic party is the left wing of the new Confederate army."—John Sherman this month at Springfield, Ills.

At one place the cooing of peace, at the other the waving of the bloody shirt!

In regard to the last sentence in Sherman's Springfield speech, we would say that while the republican leaders, Blaine and Sherman, filled their pockets with the people's money during the late war, the democrats, McClellan, Grant and Hancock were leading the Union forces against the Confederates.

"If I have correctly stated the aims and tendencies of the two parties, the Republican party is the only one fitted to carry out such a policy. Our adversaries may brood over the dead past and mourn the decay of Confederate ideas; but Republicans hail with unbounded satisfaction every advance of our country in strength and power at home and abroad."—From John Sherman's speech at Springfield, Ills.

Hark, ye Democrats, listen, ye the majority of the American people! You are brooding over the dead past, you mourn the decay of Confederate ideas, you bewail the prosperity of your country. Remember, Democrats, that you who cast five millions of white votes in the last election against Blaine who had only three and a half millions of white votes, you 10-17 of the white voting population of this country are, according to Sherman, traitors, rebels, and enemies to your own country. Remember, ye white Democratic voters of the North who number 3,194,832 (which is an absolute majority of the votes cast in the Northern States for either candidate), remember that John Sherman of Ohio says you are foes, antagonists and adversaries of this government. Are you the traitors, or the man that utters those sentiments? If every man that has different views from another is to be stigmatized as a traitor, then there is but one honest, loyal man in existence, and that man is he who has the floor at the time being.

CAPITAL D INSTEAD OF CAPITAL I.

The Charlotte Observer, after a suspension of one day, has passed out of the hands of Chas. R. Jones into those of Mr. H. A. Deal. It is announced that the paper will be Democratic and independent. This is right. The complaint against the paper is that it has been democratic and independent.

WM. E. CHANDLER NOMINATED FOR SENATOR OF NEW HAMPSHIRE.

Last Thursday, June 9th, the Republican caucus met to nominate a Senator to fill the unexpired term of Senator Austin F. Pike, deceased. Mr. Moore, of Nashua, presented the name of W. E. Chandler, and said: "Elect Mr. Chandler and you will send a man to the National Senate, who will restore our merchant marine, see that our seaports are strengthened and that the votes of all men in the South are counted as they are in the East."

Mr. Chandler had a very fine chance to do something for the navy, where he was its Secretary, backed by a Republican administration. It would be rather bad policy to elect a man Senator for the purpose of restoring that which he helped to destroy. In regard to the last sentence, we hear that if all the votes in New Hampshire were counted according to justice and right, then Mr. Chandler would never be Senator from that State, for New Hampshire would be solidly Democratic.

WHAT THEY SAY.

Hon. John Sherman, in Springfield, Ills., described the condition of the Southern negro very pathetically. He charges the Southern whites with "murder, arson, perjury and forgery," practiced upon the colored man. We clip from the Berea Watchman, a paper issued by colored men at Berea, N. C., the following, from which the people may judge whether the "Hon." John tells the truth, or just slush manufactured to deceive the Northern reader:

"We have many white friends who feel an interest in the education of the colored race, and some who are even willing to sacrifice a portion of their income for the advancement of the worthy colored man."

The same paper says, in regard to the trial of a negro at Oxford, N. C.:

"Everything was done to give the negro Tabor a fair trial. A special venire of two hundred men was summoned, from which a jury of ten negroes and two whites was chosen. The negro had able counsel in Mr. A. W. Graham."

The Tobacco Outlook Again—Based on the Short Acreage of the Present Year.

(Southern Tobacco Journal.)

By careful investigation the Journal finds that its estimate of four weeks ago in regard to the acreage for 1887 is correct, and that the highest average for this year's crop cannot reach over 60 per cent. Many parties were apprehensive that, at the last moment, the farmers would put in a full crop, but when we made our estimate we took into consideration the fact that the planters of North Carolina and Virginia were actually unable to plant but little over half a crop this year. Our surmises were correct and the point our manufacturers and speculators have to remember now is that full 40 per cent. of an average crop of the week will be wanting next fall and winter on the warehouse floors.

And how will this affect the tobacco business? It is asked on every side. It will simply have the effect of putting the trade in a perceptibly better condition and nothing more. Our tobacco men need not look for any great advances in prices, for the world already has a year and a half supply on hand. We believe the tobacco grown this year will be of a decidedly better quality and hence will sell for better prices, but as for a general rise in the market we do not look for it yet. We should be content to know that the crop, for once, is reduced and not increased, as has been the custom heretofore. It should be a satisfaction to know that the trade has, at last, a faint hope of recovery from the terrible illness that has clung to it so tenaciously during the past two years. And more than this we should be thankful that the mismanagement of the crop heretofore is giving way to more sensible methods in the culture of the weed.

We have recently interviewed all the leading manufacturers in North Carolina and a large number in Virginia and we find the great majority of them working on full time and in fair spirit. They have studied the trade closely and look for a healthy future. The outlook just now is more favorable than it has been for some time, and while we cannot reasonably expect any great jump in the tobacco business we may confidently look for better days ahead.

Coffee Market Verging on a Panic.

NEW YORK, June 13.—The coffee market opened excited this morning at 120 points below Saturday's close. The market is verging on a panic with rumors of failures which cannot yet be confirmed. At 2:40 p. m. it was announced at the coffee exchange that B. G. Arnold & Co., one of the biggest houses in the trade, have failed.

Failures in New York.

NEW YORK, June 14.—The failures of Norton, Weyl & Bevel, 101 Water street, and Small & Mackey have also been announced at the Coffee Exchange. The liabilities of B. G. Arnold & Co. are very heavy.

\$500 Reward.

If you suffer from dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery and acid, at others, thick, tenacious, mucous, purulent, bloody and putrid; if the eyes are weak, watery, undimmed; and there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath is offensive; smell and taste impaired; existence a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, distressing, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath is offensive; smell and taste impaired; existence a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, distressing, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath is offensive; smell and taste impaired; existence a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, distressing, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath is offensive; smell and taste impaired; existence a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, distressing, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath is offensive; smell and taste impaired; existence a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease.
