JEFFERSON DAVIS

Declines to go to Illinois—His Views on the Battle-Flag Question.
The Chicago Inter-Ocean special from Danville, Ill., says: The following letter was received to-day:
BEAUVOIR, Miss., June 20, 1887.

OUR STATE.

Winston-Salem claim 12,000 inhabitants.
Work by the surveyors on the road from Roanoke, Va., to Winston, N. C., is to begin in two weeks, it is stated.

The Cape Fear and Yadkin Valley road is now completed to a point a mile from Germantown, Stokes county, halfway between Greensboro and Mount Airy.

Considerably over half of the Raleigh and Gaston road has been ballasted with granite, and it is becoming one of the best roads in the entire South.

The North Carolina railroad has settled the claim of Jesse M. Scott, of Goldsboro, who was almost fatally injured by a railroad accident at a State encampment two years ago near Asheville.

The Concord Times has purchased a power press, and has given notice that it will be enlarged on the first of July. Now we learn through the Charlotte Chronicle that the owner of the Times has purchased the Register office, and the two papers will be merged into one.

It is said that the story published in some Northern papers in the shape of a telegram from Reidsville narrating the killing by a preacher (Rev. George Pittard) of a juvenile base ball player is an absolute falsehood. It caught some of the State papers.

It appears to be very difficult to apprehend the Wilson county murderer, Caesar Wooten. Over half a dozen negroes have been arrested by mistake and taken to Wileton, only to be discovered not to be the person wanted. It is now thought, however, that the right man has been arrested at Hamlet, near the South Carolina line.

Revenue officers Vanderford and Mabane, accompanied by a U. S. Marshal, captured a wagon and team loaded with crooked whiskey at the Orinoco warehouse, in Winston, last week. The driver and Mr. E. L. Vogler, of Davie county, the supposed owner of the outfit, were arrested, the whiskey being deposited in the cellar beneath the postoffice.

Lenoir Topics: "Mr. Craige will locate his office at Salisbury. So far as the new Collector is concerned a better selection could not have been made. He has the entire confidence of his people and is as conscientious as he can be. In 1884 he was nominated by the Congressional convention for Congress. He subsequently declined because he felt that his health was not strong enough for him to serve the people faithfully."

A Profitable Industry For Southern Women.

A Baltimore dispatch says: Mrs. L. F. Baldy, of California, a member of the Woman's Silk Culture Association of the United States, has secured about one hundred acres of land near Odenton, Md., which will be devoted to silk culture. The land will be divided between ten silk colonists, and each will own ten acres of land. Mrs. Baldy is to teach the colonists, as she has had considerable experience in the same line in California. Each colonist pays \$250 and is furnished with the necessary silk worm eggs, the appliances of a cocoonery and instruction in silk culture. The object of the association is to furnish the ladies and children respectable and lucrative employment. She says with proper diligence there's millions in it. Last week Mrs. Baldy and the Baltimore ladies whom she has interested in the enterprise went to Odenton, on the Baltimore and Potomac road. Mulberry trees will possibly be set out this year, in order to furnish food for the silkworms that come next spring. The silk worm's digestion is only suited to white mulberry leaves or the leaves of the osage orange bush or the japonica mulberry. In six weeks from the time the eggs are received, and they can be secured at a very small figure, the worms have spun their cocoons, which have only to be steamed before each worm has finished his complete roll of silk. The climate has nothing to do with silk culture, as it will be carried on in a cocoonery where the temperature can be kept at all times at about eighty degrees. As the mulberry leaves are only green in the spring, the silkworm has to do his spinning in the spring. Mrs. Baldy is enthusiastic in her undertaking, and sees no reason why Maryland should not be a successful silk growing State. A recent Congress appropriated \$15,000 for the purchase of silk worm eggs and for the maintenance of mulberry trees. Mrs. Baldy says the value of silk annually imported is not less than \$40,000,000, while Paterson, N. J., can turn out as good silk as is made in Lyons. Mrs. Baldy also suggests the raising of grapes along with the silk-worms, as the worms require but six weeks of care, and the colonists must not be idle.

The Experience of Mrs. Peters.
Mrs. Peters had illness. Mrs. Peters was sure she was going to die. They dozed her with pills. With powders and soups. Many medicines tried her. But none of them cured her. Their names and number nobody could tell: And she soon might have died. But some "Pelle's" were tried. That acted like magic, and she got well. The magic "Pelle's" were Dr. Pierce's Pleasant Purgative Pellets (the original Little Liver Pills). They cured Mrs. Peters, and now she wouldn't be without them.

Stolen.—A fine, open face gold watch, English make, made in Liverpool, with a second hand, key winder. The finder will be liberally rewarded by calling at the Herald office.

Rev. J. C. Price, of Salisbury, the greatest colored orator, made one of his grandest efforts at the closing of the colored Normal in that city last week. It is hard to estimate the enormous benefit this man has been and will be to his race if spared to average old age. He is yet young—in the full vigor of manhood, and is a living contradiction of the idea that there is no talent or capability of improvement in the colored race. He is large in body as well as in mind, and is said by some to be the finest orator in the State, and above all, he is a zealous prohibitionist.—Asheville Advance.

A Square Statement by a Carpenter.
"For years I have had a chest trouble amounting to nothing short of consumption. I saw how others in like condition had been cured by the use of Dr. Pierce's Golden Medical Discovery, and resolved to test its merits in my own case. The result was so plain as to hardly require a quote, or any longer ment in favor of this great remedy. It does not claim: It builds up the system, supports and strengthens, where others fail." Heads: "My recovery, which is now on a sure foundation, hinges entirely on the use of this wonderful Restorative, having tried other remedies without a bit of relief."

Democrats in Washington.
The Washington Star says that the presence of many prominent Democrats in Washington just now seems to lend color to the rumor that there is to be a conference with regard to party, policy, revenue, reduction, &c. Among the leading Democrats now here are Senators Harris, Ransom, Cockrell, Gorman, Brown, Call, Pugh and Jones, of Arkansas; Representatives McCrea, Randall, Holman, Wilson, of West Virginia; Crisp and Gov. Knott, of Kentucky. There are many others here and it is said that Speaker Carlisle will arrive soon.

The Verdict Unanimous.
W. D. Suit, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitter as the very best remedy. Every botle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 30 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half-dollar a bottle at Theo. F. The Racket Store

Has Been with You Six Months,

and in its marked success we feel encouraged to believe that the ladder which leads to the top round of a prosperous business, we are steadily ascending, and if you would like to know how we are doing it, read on: We buy a Misses Sailor Hat below the market price, and we know it will bring 40c, and sell fast to customers, but do we ask it? No. We can afford to sell it at 25c, and make a proper profit, hence we mark it down, our customers and ourselves both reaping advantages gained in New York by our shrewd cash buyers. We also got a lot of Ladies Trimmed Hats, worth at retail \$1.75; we bought them cheap and applying our unalterable rule of selling as we buy, marked them at 69c each, the whole lot was closed out in a day.

Avarice says charge 19c. for a wire bustle we had, but the iron rule of our close "quick" profit marked them at 19c., and almost in the time it takes to write this they were all like the hog. hat—gone. We will have a full stock of the foregoing goods by time this reaches you, and also a lot of Men's Pants, which we will sell at 57c, 69c, 83c, 99c, \$1.24, \$1.37, \$1.49 and up, and also mens' and boy's straw hats in abundance.
