

BRIEFS.

The anarchist hanging in Chicago passed off without any disturbance.

The Democrats of Virginia will have a majority of 15 in the Senate and some 25 in the House.

We fail to find the crowing rooster in our Republican New York State exchanges. Do you feel bad, friends?

Dr. McCosh has resigned the presidency of Princeton College. The resignation is to take effect at the end of the present term.

In 1850 \$13,000,000 worth of tobacco was manufactured in the United States—in 1880 the figures had gone up to \$117,000,000.

The New Jersey Legislature, elected last week, will stand—Senate, Republicans 12, Democrats 9; House—Republicans 37, Democrats 23.

A sensible way to do things: NEW YORK, Nov. 9, 1887.

The Hon. Frederick Cook: Accept my congratulations upon your election. F. D. GRANT.

"If the people of the South should kill Jeff Davis, that might show their loyalty to the Union, but they might expect no forgiveness or favor from the Republican party until they consent to vote the Republican ticket."—N. Y. Graphic, Nov. 10th.

During the voyage to Europe, Jay Gould took up a collection for one of the poor steerage passengers, who had his leg accidentally broken. "While the lamp holds out to burn, the vilest sinner may return."

The Sioux City (Ia.) Journal calls Mr. Sparks, the Land Commissioner, a crank and a man who had worked mischief to the settlers, etc. We wonder how much the mortgage amounts to that the land-grabbers hold on the Journal office, or how much these grabbers pay the Journal to tell such lies.

"The South may divide its homage between Grover Cleveland and Jeff Davis and shout itself hoarse for both, but it amounts to nothing. The South can be made no more solidly Democratic than it has been."—Detroit Tribune.

No, the South cannot be made more solid. Misfortunes make strong ties, and when linked with prosecution these ties become insoluble and stronger than the ties that are formed by a hatred.

The Crown Prince of Germany is a doomed man. While his condition is at present a little better, his days are numbered. What the result will be in the affairs of Germany no one can foresee. The old Kaiser is nearly 91; the son of the crown prince is only 25. Bismarck is over 70. The Crown Prince is the favorite son of the Germans; all love him; he is liberal and humane, while it is said of his oldest son that he develops illiberality and a tyrannical spirit.

We hope we have heard the last of the Chicago Anarchists. The Governor commuted the sentences of Schwab and Fielden to imprisonment for life; on Thursday last Lingg took his own life by a bomb of some sort, and on Friday the four others were hanged as other murderers are hanged. There was no disorder and no attempt to rescue them. We are not in favor of Lynch law but we think that in case of such crimes as these men committed there should be speedy trial and swift execution. There has been an interval of 17 months between the crimes and the punishment; 17 days would have been too long. Surely some law could be devised by which substantial justice could be quickly meted out.

Anarchism is the design of men to demolish all government. As long as their rants and doings are only words and opinions, they are allowed to exist just like the spiritualist. As soon as he commits any act contrary to the laws of this country, he will be made to pay for it. August Spies, Adolph Fischer, George Engel and Albert R. Parsons were not hung as anarchists, but as murderers. While we may wish that all sympathizers of the cause of anarchism, with John Most at the head, should be hung, the law only punishes them when they come in conflict with laws.

POINTERS OF THE CAMPAIGN.

Carl Schurz, for four years an apology for the greatest political fraud of America, was again left in the lurch. For four years he served for dollars, in the last campaign he served Nicoll and lost.

Abraham S. Hewitt feels good; his side won.

President Cleveland will be nominated beyond a doubt; New York's last election settled it.

Jay Gould is in Ireland, and the ticket of honesty and integrity won a bigger victory than ever.

The New York World, which worked so hard for Republican success, is downed; its influence is today at a great discount.

CHICAGO ANARCHISTS.

FOUR HUNG, ONE COMMITS SUICIDE, TWO IMPRISONMENT.

During the spring of 1886 a series of strikes was arranged in Chicago by labor agitators, 30,000 men paraded the streets under the red banner of anarchism. August Spies directed the rage of his hearers against the proprietor of the reaping works, which caused an attack by the mob; a pitched battle between the mob and the police ensued in which fight a great many were seriously wounded. Next day Spies called upon the mob to revenge the attack. A grand mass-meeting at Haymarket was planned and carried out. Parsons and Spies harangued the crowd calling them to arms and inciting them to riot. At this point the police appeared to put a stop to this unlawful assembly. The policemen, when near the speaker's stand, halted, and their commander, Inspector Bonfield, called upon the crowd to disperse. As an answer, a small black object rose from behind the speaker's stand and dropped amongst the policemen. There was a terrific explosion, one policeman was killed outright, six others died within a week, eleven more were maimed for life and fifty others were seriously injured. For a moment they were appalled by the terrible massacre, but the police were well drilled and consisted of men of nerve. They closed over their dead and dying comrades and opened fire upon the mob, which instantly dispersed, leaving many dead and dying upon the street. Next night another conflict took place in which also several persons were killed and wounded. On that day the police arrested a great many persons and a search revealed the fact that a regular plot had been laid to upset the existing authority. Spies and Fielden were the first to be arrested, Lingg, Engel, Neebe, Fischer and Schwab soon after; Parsons, the only native-born American surrendered himself. He had married a rather good-looking mulatto who was even a fiercer anarchist than he was. These eight men were indicted for the murder of Policeman Degan. They were charged with aiding, abetting and assisting in the crime. The trial commenced May 21st, 1886. On July 8th the jury returned a verdict of guilty and Judge Gary sentenced Neebe to 15 years imprisonment and the rest to be hanged. Motion for a new trial was overruled in October, 1886. Subsequently in September, 1887, the State Supreme Court affirmed the decision of the lower Court. The United States Supreme Court was next appealed to, but that court unanimously refused a writ of error. On last Thursday Louis Lingg cheated the gallows by killing himself with a small dynamite bomb smuggled into the jail. Schwab's and Fielden's sentences were commuted to life imprisonment, while the four others were hung on Friday at 11:56 A. M. They died unrepenting and with words in favor of anarchism on their lips. "And may God have mercy upon their souls."

"Have the finances of the country suffered under Democratic management?" asks a Democrat. No, because the Democrats have managed them just as the Republicans did. But let them try to practice a plan of their own, and see where the country would be.—Chicago Journal.

Wrong, Mr. Journal; the Democrats have managed things according to the laws of the country as the Republicans have done; the only difference is that the management of the Republican party has been noted for its corruptness and rottenness—it catering to rich monopolies and its utter disregard of the popular will—while under a Democratic administration, land-grabbers, whiskeyrings and corrupt naval contractors have no show.

Charges Against the Rioters.

LONDON, Nov. 14.—Seventy-five charges were entered to-day at the Bow street police court against the Trafalgar Square rioters of yesterday. Most of the prisoners escaped with a fine. Some were sentenced to four and six months imprisonment at hard labor.

Ayer's Sarsaparilla acts directly and promptly, purifying and enriching the blood, improving the appetite, strengthening the nerves, and invigorating the system. It is, in the truest sense, an alterative medicine. Every invalid should give it a trial.

Commissioner Miller's Report.

The annual report of the Commissioner of Internal Revenue has been made public. The report opens with a thorough analysis of the year's collection. The Internal Revenue collections for the fiscal year 1888 are estimated at \$120,000,000 compared to \$118,000,000 for 1887, \$116,000,000 for 1886. The cost of collection last year was about 2 per cent. The Internal Revenue force now consists of 204 persons. The Commissioner renews his recommendations of last year, and also recommends that domestic spirits exported to evade internal revenue tax not be re-admitted without the payment of these taxes. The operations of the oleomargarine law are reviewed in detail, and various amendments proposed in the interest of the consumer and butter-maker. The effect of the new law has been to add about \$1,000,000 to the annual revenue, and has not interfered with the oleomargarine trade except in States where prohibitory State laws had previously been enacted, but had been inoperative until the Federal law was passed. The law had been construed as a regulatory and not as a prohibitory measure. The reports of collectors have been favorable to the healthfulness of oleomargarine.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health, but how often do the majority of people feel like giving it up, disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Constipation, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cts. Try it.

AMALGAMATOR

THAT SAVES ALL THE FREE GOLD, AT A COST OF NOT OVER 25 CTS PER TON.

This Amalgamator is an invention whereby the pulverised pulp or sand is forced to come in contact with quicksilver in motion. Long explanations are useless. For facts, prices, etc. address

R. EAMES, Jr., & Co.,
Agents for North Carolina and Georgia
SALISBURY, N. C.

DESCRIPTION.

The ore to be treated passes by means of an automatic feed through the hopper in the stationary disk, the bottom of which is covered with a series of broken riffles. Directly beneath this disk is a revolving pan containing a reservoir of quicksilver, and when the apparatus is set in motion the disk is lowered to within 1-16th of an inch of the bottom of the revolving pan, upon bottom of which the quicksilver spreads and forms a wall round the periphery. A very thin stream of water suffices to moisten the sand or ore ere it falls through the hopper into the center of the pan, where it is forced backwards and forwards between and under the riffles, by this process the gold is freed from the sand or quartz by difference in specific gravity, and so brighten it that it will immediately amalgamate in coming in contact with the mercury. If kept bright by the action of the riffles. Any particles not taken up on the surface of the pan are caught by the wall of quicksilver formed around the periphery, by centrifugal force.
