AMALGAMATOR

THAT SAVES ALL THE FREE GOLD, AT A COST OF NOT OVER 25 CTS PER TON.

This Amalgamator is an invention whereby the pulverised pulp or sand is forced to come in contact with quicksilver in motion. Long explanations are useless. For facts, prices, etc. address

R. HAMES, Jr., & Co., Agents for North Carolina and Georgia

DESCRIPTION

The cre to be treated passes by means of an automatic feed through the hopper the stationary disk, the bottom of which is covered with a series of brokes rifles. The stationary disk, the bottom of which is covered with a series of brokes riffles of iterita beneath this disk is a revolving pan constaining a reservoir of costektion and whom the apparatus is series mations the disk is lowered to within 1986; are inch of the bottom of the revolving pan, upon bottom of which the quicksfit at tents and the series of water can remodule the send of one set the falls through the hopper into the center of parts where it is forced back wards and forwards between and ander the rifflest by the tweet and ander the rifflest by the species of the pair is will immediately minulestante in incoming in a contact with an except, itself kept bright by the metions of the rifflest materials. Any particles more taken the copy, itself kept bright by the metions of the rifflest of quicks liver formed around periphery, by centrifugal torce.

COLORED PHILOSOPHY.

You may notch it on de palin's. You may mark it on de wall, Dat de higher up a toad frog jumps De harder he will fall,

An' de crow dat fly de swiftes' Am de soones' in de corn, An' de fly dat am de meanes' Gits up earliest in de morn.

De brook dat am de shallo'es' Chatters most upon de way, An' de folks am de sillies' Are de ones hab mos' ter say.

An' de rooster dat am younges Am de one dat crow de mos'; An' de man who am de coward Allus makes de bigges' boas'.

An' he am not de greates' man Who totes de bigges' muscle; Nor am she de fines' gal Who war de bigges' bustle.

You kin not jedge de kin' ob man By de manner ob his walkin'; An' dey are not de smartes' folks Who do de loudes' talkin'.

Fewer than 4.000 stars are visible to the naked eye, but when the heavens are viewed through a telescope the number seen becomes countless. Herschel estimated, when he surveyed the Milky Way, that fully 258,000 stars appeared before him in less than one year.

FARMING.

Never smoke in barnyard or barn, nor allow others to do so.

After securing your crops see to marketing them profitably.

Do not leave farming tools and implements exposed to the weather.

Joseph Harris regards clover as the great renovating crop of American agriculture.

W. D. Philbrick says that potatoes and roots of all kinds keep best in pits out of doors.

Cut down all worthless fruit trees. They furnish harboring places for numerous insects.

"To dispute the excellence of milk made from good ensilage is to fly in the face of facts," so says John Gould.

For potato culture the Rural New Yorker advises to manure the land in the fall and plow it under in the spring.

Kerosene is excellent for cleaning off old hardened gummy oil that has accumulated on mowers, scrapers and other farm machines.

Onions that freeze and thaw out often will rot. Keep them from freezing, or freeze them and keep them in that condition till spring.

Select seed corn carefully from the best stalks, choosing the choicest ears, and then hang them in a perfeetly dry place where they cannot

To guard against poultry lice keep the nests clean, oil the roosts, and sprinkle insect powder on the bodies of the fowls and dust it in their nests.

gives off fertilizing matter. Some you do that?" asked a friend. "I people like to bury old boots and shoes near grape vines and trees where their valuable qualities are

During the summer a great deal of rubbish collects in the garden, and perhaps in the erchard. All this ought to be raked up and burned and otherwise disposed of. If left on the ground it furnishes feeding for insects.

As a rule, all summer pruning Dealer-"Oh, yes, I noticed that checks growth, and by producing but bless your soul it makes no difmaturity of wood and fruit buds, ference to me. Both boxes are just induces fruitfulness. All winter bbx. Per sale by Theo. F. Kluttz & Co. and early spring pruning favors growth, i. e., causes a more exuberant growth in the parts remain-

A lady who claims to have had twenty years' success offers this receipt in the Ohio Farmer for keeping eggs. Take good fresh eggs and rub them over with melted lard, RIVER LAND FOR SALE thus closing the pores of the shell. I offer my tract of land for sale, lying Then put a layer of oats or bran in on the Yadkin River. 11 miles East of Mocksville and 3 miles Southeast of Fork Church, Davie county. N. C. containing them on the small end and not altouch each other, in this way fill the box or bran. eggs will keep fresh.

A poultry raiser tells the Maine Farmer that when he cuts a chicken's wings he gets some one to hold the bird; then takes the wing and stretches it out, and with a sharp knife commences near the body. leaving three or four of the quill feathers next the body without cutting, and cuts all the rest except three or four at the tip end. That will take the wind out of their salls and prevent flying. The feathers. left at the tip of the wing enables. the hen to keep her eggs in place if covers Goldon Redical Disyou let her sit, and when the wing Apply to Buerbaum & Eames, Real is shut up it does not disfigure her. from

Europe's annual expenditure for armies and flags is, 83,867,500,000. The national debts incurred by war and Loan. The purchasees will have the light to pay any sum over and above the rapidly merging into a financial one. the regular lustalment, or to pay in full it is not there already. Only it any time. Inquire at the Henrier three or four nations are left who can afford even a short war.
