

WM. PITT DRAKE, - Proprietor.

STATESVILLE: Saturday, July 2, 1881.

[Entered at the Post-Office at Statesville, N. C., as second-class matter.]

We republish this week the table, (corrected) of the Anti-Prohibition township committees for Iredell, appointed at the Union Mass Meeting held in this place, recently, to superintend the polls at the August Election, and to work for the cause between now and that time. Much success will depend upon the energy and zeal of these committees.

Pollock of the revised New Testament do tolerably well in cities and large villages, but make hardly any sales in the country, where any alteration of the sacred book is generally regarded as a awful profanation.

The Winston Sentinel. Work has commenced along the line of the N. C. M. R. R. at several points. The only drawback is the scarcity of hands. After crops are laid by and the factories close laborers will be plentiful, and the work will go ahead with a whoop.

The Davie Times says—John Nall, who lived at Jerusalem, was found dead in his bed last Wednesday morning week. He ate a hearty supper on Tuesday evening and retired and not coming down next morning he was called but did not answer whereupon his room was entered when he was found cold in death.

Estes Hairston, a grown man, and a boy named named Lindsay, both negroes, have been confined in Stokes county jail for rape on two little white girls. One of their victims aged about eight, died a few days ago from the effects of her brutal assault, and thus caused the community to rise last night and take the negroes from the jail at Danbury and hang them from a tree four miles this side of the village.

A large fire occurred in Warrenton, on Monday morning last, destroying fifteen stores, a bank and a hotel, which constituted the most business portion of the town. The fire commenced in the rear of B. F. Long & Son's store, in the centre of town, and extended rapidly north and south making fifteen stores, a bank and hotel, that was rapidly swept away. The loss is estimated at \$50,000—partially insured.

The Swepson Mills, belonging to Mr. G. W. Swepson, of Swepsonville, Alamance county, were burned on Thursday last.—The loss is estimated by Mr. Swepson to be very near \$140,000, with a total insurance of \$69,600. Stops have been taken towards building a new factory, which will be of brick throughout and will be 74,550 feet in dimensions, with a height of one story. It is thought that the factory will be completed by the 1st of January next.

The village of Clear Spring, Ind., was the scene of a fearful suicide on Sunday last.—James A. Brown, aged 18, was in love with a daughter of John D. Womack, aged 15.—The youthfulness of both parties prompted Mr. Womack to object to his visits. They met on Sunday, and young girl, agreeing with her father, told him that he must come no more, whereupon he drew a pistol and killed himself by firing three shots in succession. A brother of the dead boy, in his anger at Mr. Womack, struck him, causing a fracture of his arm.

The following hints for the prevention of sunstroke are given by Dr. Ed. C. Mann, of New York, in an article upon this subject in one of the medical journals: To avoid sun stroke, exercise in excessively hot weather should be moderate; the clothing should be thin and loose, and an abundance of cold water should be drunk. Workmen and soldiers should understand that as soon as they cease to perspire, while working or marching in the hot sun, they are in danger of sunstroke, and they should immediately drink water freely and copiously to afford matter for cutaneous transpiration, and also keep the skin and clothing wet with water.

An old codger from the country, who came in to sell Dick McPherson some gin-seng, eggs, and chickens, saw Bijah Fields' new lightning rods, and asked, "what kind of foolishness is that," and when told what it was intended for, said: "It's no wonder to me that every thing is going wrong when men are trying to circumvent the Almighty, and Bijah Fields' father a Baptist preacher. Why, I heard yesterday that they were no longer satisfied with the old Bible, and had got to tinkering with it, a try'n to knock hell out of it." We assured him that the new revision was an improvement on the present one, and that the word "hell" had not been eliminated. He said: "It makes no matter; they hadn't oughter to fool with it; some men think they are smarter than the Lord, but they'll catch it in the sweet-by-and-by."—Blountville, Ala., News.

"S." writing in the Davie Times, says:—"I learn that some of the Tobacco manufacturers are advocating prohibition. If played out politicians and the preachers were to work up a craze against tobacco and the legislature were to pass a bill to do away with its evil effects by stopping the manufacturers in this State, and allowing Virginia and other manufacturers to supply the demand, don't you think a righteous howl would be raised by these gentlemen against the injustice and unfairness of such an act? An act that at one fell swoop renders worthless the property that requires years of toil to accumulate, and yet the evil effects not removed thereby. Somebody in their book says something about seeing ourselves as others see us, &c. And what assurance have these gentlemen that the next step will not be a crusade against the tobacco interest if this goes into effect? As pretended reforming it is the order of the day, will not distillers and their friends assist in the next removal? I imagine they would."

To the People of North Carolina. Legislation enacted without the consent of the governed, for the purpose of making our State government and the municipal government thereunder, absolutely un-democratic, by taking power from the people and bestowing it upon a limited number of citizens who are not responsible to the voting masses for their positions of honor, trust, and profits, is in direct opposition to American ideas of Representative government. Republicans have bitterly opposed the engrafting of these principles on our system of government as contrary to the genius and spirit of a free people. This opposition will not cease until this fungus growth on our Constitution and in our laws has been torn up by the roots.

In approval of past attacks upon the rights and privileges of the people, the Legislature at its recent session passed a Bill to prohibit the manufacture, purchase, and sale of spirituous and malt liquors in this State, and submitted the ratification or rejection of said Bill to a vote of the people. This Bill is in fatal conflict with section seven of the Bill of Rights of our State Constitution, which declares that: "No man or set of men are entitled to exclusive or separate emoluments or privileges from the community but in consideration of public services."

In the teeth of this section this Bill proposes to take the liquor traffic from the many and create a monopoly by putting it in the hands of a few persons as described in the Bill.—Without regard to the abuse proposed to be remedied, the means whereby that end is to be attained, by the approval of this Bill, is at war with Republican principles. Class legislation of this kind must be opposed and beaten down at every step.—There is no middle ground.

This Bill is also in conflict with Section one, Article 2, of our State Constitution, which declares that: "The legislative authority shall be vested in two distinct branches both dependent on the people, to wit: a Senate and House of Representatives."

This Bill is a cowardly effort on the part of the late General Assembly to remove the responsibility imposed upon them by this section of the Constitution, to the people en masse. It is a dangerous precedent. Whenever Legislatures hereafter shall be afraid to assume the responsibility of some doubtful political question, they will cite Legislative action upon this Bill as a precedent, and then shift the responsibility attaching to them as the custodians of Supreme Legislative power in the State, and submit the question to a vote of the people. This will be a growing evil, and will soon change our American system of Representative government, which has rendered possible, with universal suffrage, the protection of life, liberty and property, and the permanence of government, to such demagogues as have fallen one after another under this new system, which is the French system, and which, in that country has invariably terminated in despotism and empire.

This Bill, if approved, will confiscate every apple and peach orchard in North Carolina; and every vineyard where the wine juice is converted into brandy. It will render it impossible in parts of the State to raise cotton, for the farmers to ship their grain to market. For it is impossible for them, with our imperfect system of transportation, to compete with the cheap grain of the North and North-west. They can only market their surplus grain by converting it into spirits. It will take away this vast industry from our own people and transfer it to other States of the Union.

Wherever this system of Legislation has been tried, it has been proving a lamentable failure and an injury to the people. It is a work of fanatics and not of statesmen. This Bill, if ratified, will not diminish the consumption of spirits, but will deprive the State, Counties, Cities and Towns, of revenue derived from this source, and will therefore, increase the rate of taxation on real estate and other species of personal property.

The penal clause of the Bill will fill up our Courts with an immense number of trivial misdemeanors, and greatly add to this expense of the several counties, and aggravate the burdens of a people already taxed to their full capacity.

This question was not discussed before the people at the election of last year, and no such radical revolution, as proposed by this Bill, in our system, should have been pressed upon the people before it had been thoroughly canvassed by their candidates for the Legislature.

For these reasons this Committee cannot refrain from opposing the ratification of this Bill. These are sufficient without considering that the manufacture, purchase and sale of liquor is legalized by the United States and all the States of the Union. North Carolina people have been taught to believe that the right to manufacture, purchase, and sell liquor, is not to be infringed upon by repressive legislation. Every Congress has been impertinent to remove the tax on brandy and to lessen the tax on whiskey, because our people would be pecuniarily benefitted thereby. Sumptuary restraint by legislation is contrary to Republican principle. The abuse of liquor must be remedied and corrected by moral influence and police control—not by legislation. The general government with a large number of revenue officers and stringent laws cannot entirely suppress illicit distillation.—That which leaves a man free to exercise his judgement, and then con-

vinces his reason, will speedily and thoroughly attain the end sought.—But legislation which says—"you shall not"—and prohibits force and compulsion for reason and moral influence, is in opposition to our governmental system, and must be opposed by all legitimate means, and promptly rebuked.

The question must not be decided at the polls. Republicans in every township must organize and poll a full vote against this Bill as the only means of condemning class legislation and to prevent the creation of a powerful monopoly of druggists, apothecaries and physicians, which is always dangerous in a government like ours, and should be prevented at the outset. When this has been done, Republicans will be ready to aid in regulating the sale of liquor in such a manner as will remedy and correct as many abuses growing out of the use of liquor, as can be remedied and corrected by legislation, abuses not remedied or corrected by this means, being left to those influences of society which are more powerful and more effective of moral purposes than a thousand pages of repressive statutes, bristling all over with fines and penalties, for statutory misdemeanors which have been and always will be national and international.

By order of the Republican State Executive Committee, J. J. MOTT, CHAIRMAN.

COMMUNICATED.

Prohibition and Party.

Nothing was heard about prohibition by either party, during the last political campaign, in North Carolina. The Democratic party, in its platform, and the Republican party, in its platform, both declared that they would not touch the liquor traffic. It is a curious fact that some of its most distinguished leaders are reported to have declared that if they should see any chance to get elected as Governor, they would not touch the liquor traffic, but if they could not succeed at all, but that party did not succeed. It was entirely defeated in January, a committee, over the signature of "Gaston," appeared in the official organ of the Democratic party, the Age and Observer, headed, "The Cause of Prohibition," and in which they stated that they were surprised with a recommendation in favor of legislation to that end.

In a short time after the Legislature met, in January, a committee, over the signature of "Gaston," appeared in the official organ of the Democratic party, the Age and Observer, headed, "The Cause of Prohibition," and in which they stated that they were surprised with a recommendation in favor of legislation to that end.
