A PUZZLE: We publish the following by request: "From six take nine, and from nine take ten; then from forty take fifty, and six will remain." Solution next week.

Rev. R. C. Teague, of this county, but who had been engaged in teaching at Marion, died suddenly at that place last Friday. The remains were brought home for burial.

A change in the railroad schedule by which the East-bound trains pass Statesville at 5:02 a.m. and at 6:06 p.m., and the West-bound pass at 1:49 a.m. and 12:09 p.m., went into effect Sunday.

Marcus Cline, a former townsman but now of Houston, Idaho Territory, writes under date of January 25 renewing his subscription to the JOURNAL, and adds: "The snow is from four to twenty feet deep here, and still snowing; the average is about nine feet."

The Landmark of last week gave the following about the marriage of Mr. Hedrick: A large crowd gathered at the Baptist church to witness the marriage of Mr. W. P. Hedrick, of Taylorsville, and Miss Effie O., daughter of Mr. H. A. Bost, of this place. Three arches of flowers and evergreens had been arranged in front of the altar, and promptly at 7:30 o'clock the bridal party proceeded up the aisle and took position under these, while Miss Effie Kilpatrick, of Taylorsville, played the wedding march. The ushers, Messrs. J. L. Rashberry, of Taylorsville, and Allie Clayton, of Statesville, preceded the party, which followed in this order: Mr. N. A. Bost of Statesville, and Miss Florence Hedrick of Taylorsville; Mr. E. L. Hedrick of Taylorsville, and Miss Emma Ross of Statesville; Mr. A. S. Barnes and Miss Linwood Bost, both of Statesville; the bridal couple. The marriage ceremony was performed by the pastor of the church, Rev. W. A. Pool, assisted by Rev. W. J. Fulford, of Cool Spring.

FROM VASHTI.

The community that hasn't had the "grippe", either real or imaginary, would, I suppose, be considered badly behind the times and out of style generally. Ordinarily, we don't claim to be stuck up very much in matters of fashion about here. If the style of our dress is not in accordance with the most recent wrinkle, we try to adopt ourselves to the situation and be content therewith; but when it comes to a thing like the "grippe" we can't afford to be outdone in that. So you can just report to headquarters, wherever that is, that we have had the "grippe." We now have a case or two of mumps with a fair prospect of more in the near future.

Messrs. Campbell, Weisner, & Co. are now engaged in the hard wood business here. They have a nice lot now ready for shipment. The establishment of this industry in our midst has made available some of the resources of this section which were formerly considered of but little value on account of the remoteness from market. The "possum" no doubt, regards the destruction of so much

permission as an encroachment upon his rights, and from all appearances he will eventually be compelled to emigrate to other regions.

Mr. D. M. Baker, whose leg was amputated about Christmas, is doing well. He has just had an artificial leg fitted on and is beginning to be out again some.

If farmers are behind with their work, they certainly can't complain of the weather and yet some will be pretty sure to be behind as usual, and would like, no doubt, to have the weather as an excuse.

Judging from the forward appearance of wheat in places, it looks like harvest might come on about corn-planting time.

Bright's Diseases.

This insidious ailment, if too long neglected, will undermine the strongest constitution and bring the victim to a premature grave. Heed the timely warning, and regain health at once by a use of the proper restorative, that great strengthener of the urinary and digestive organs, B. B. B. (Bottic Blood Balm).

David Rankel, Cullman, Ga., writes: I used a hundred dollars worth of medicine for Bright's disease, but it did me no good. I then took B. B. B., which relieved me. My appetite is restored and I urinate without pain."

J. A. Maddox, Atlanta, Ga., writes: "I had great trouble in passing urine which was filled with sediments. My back and lions gave me much pain and I lost my appetite, strength and flesh. I became nervous and unable to sleep soundly. Two bottles of B. B. B. gave me entire relief."

Thomas Williams, Soddy, Tenn., writes: "I was troubled with severe kidney complaint and confined to my bed. Six bottles of B. B. B. made a well man of me."

The Bill Will not Pass.

From the Charlotte News.

The Republicans in the Senate do not propose to let the bill go through requiring the census takers to ascertain the number of men who own their farms in this country, the number of farmers who are mortgaged and the amount of the mortgages on them. This bill was introduced in pursuance of a resolution passed by farmer's organizations in the West who were desirous of obtaining some official information on this line. The Wilmington Star says that although it is an important matter, knowledge on this subject is vague, and the statements in reference to it contradictory. The Republicans are fighting it, not because it will entail additional expense, which it will not, but because it will show the actual condition of the farmers of this country and prick that bubble about the prosperity which protection gives, and the benefits it confers upon the men who hold the plow and pay tribute to the favored ones it has taken under its wings.

Everybody, ladies especially, are invited to inspect my stock while in town.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for consumption; am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middlewar, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for consumption I would have died of lung trouble. Was given up by doctors. Am now in best of health." Try it. Sample bottle free at Dr. R. B. Killian's drug store.

To Go to the Penitentiary.

The motion in arrest of judgment in the Cross and White case, which was made before the Supreme Court last Saturday, was denied and the certificates of opinion and judgment was ordered to be certified down to the Wake Superior Court according to law. The defendants will, therefore, have to serve out their sentences of seven and five years, respectively, as soon as the formal process of the law can be carried into execution.

Settlers are swarming to the Sioux reservation, every train going in that direction being loaded so heavily with people that many of them are compelled to ride outside. The great prairie across the river from Chamberlain, S. D., was, on the day preceding the opening, without a sign of life, and on the following morning it was completely covered with structures resembling a busy city.

1890.

Our record for 1889 is made, and we refer with pride to the fact that our transactions the past year were far beyond all expectations. We take this method of returning thanks to our friends and customers, with whose aid we have been enabled to place our business on a par with Jobbers of the first rank in the country. The spirit to aid in the up-building of deserving home enterprises seems more than ever abroad among our business men. It is not only a patriotic purpose, but for our mutual benefit and best interest.

Reciprocating this sentiment, and feeling a deep appreciation of the confidence and liberal patronage extended us, we are prepared and determined not only to meet any and all legitimate competition, but in many instances to offer better trades than can be had outside of our house. In justice to himself no merchant can afford to place his orders until he has inspected our offerings.
