A Lady's Perfect Companion.
Our new book by Dr. John H. Dye, one of New York's most skillful physicians, shows that pain is not necessary in childbirth but results from causes easily understood and overcome. It clearly proves that any woman may become a mother without suffering any pain whatever. It also tells how to overcome and prevent morning sickness and the many other evils attending pregnancy. It is highly endorsed by physicians everywhere as the wife's true private companion. Cut this out: it will save you great pain, and possibly your life. Send two-cent stamp for descriptive circulars, testimonials, and confidential letter sent in sealed envelope. Address Frank Thomas & Co., Publishers, Baltimore, Md.

Maryland has passed redistricting bill. If Ohio passes hers and she ought to hurry up—before Congress passes its ukase to the contrary—what are they going to do about it?

The Hazzard Circular.

This circular was first published and distributed among Northern Republicans in 1863, and we clip it, as good reading for Democrats, from a letter by Mr. W. J. Peele to the State Chronicle:
"Slavery is likely to be abolished by the war power and chattel slavery destroyed. This I and my European friends are in favor of, for slavery is but the owning of labor, and carries with it the care for the laborer; while the European play, led on by England, is capital control of labor by control of wages. This can be done by controlling the money.
The great debt that capitalists will see to it is made out of the war, must be used as a measure to control the volume of money. To accomplish this the bonds must be used as a banking basis.
We are now waiting to get the secretary of the treasury to make this recommendation to Congress. It will not do to allow the greenback, as it is called, to circulate as money any length of time for we cannot control that.
This infamous document explains the Yankee's pecuniary patriotism and his mercenary love for the negro, and tells the story of our financial disasters in language too plain to be mistaken.
If the newspapers of the State will carefully circulate it, they will not have to waste much editorial space to explain to their intelligent readers the cause of hard times.
P. S. Golden Text: The Yankee so loved the negro during the late war that he gave the Irishman and the Dutchman to be sacrificed for him.

Murder in Chester.
From the Monroe Enquirer.
Mr. John Hood, the father of the sheriff of Chester county, S. C., was shot and killed in Chester Saturday night, by a negro named Green Brown. It seems that Brown suspected another negro of being too intimate with his wife, and with a double barreled shot gun, awaited in ambush the object of his jealousy. Mr. Hood happened to pass by on his way home from visiting some relatives and Brown mistook him for the man he was looking for and fired. The shooting took place on a street without any lights, and the body was not discovered until 7 o'clock Sunday morning. Mr. Hood was seventy-nine years old. The negro was arrested and carried to Columbia to prevent his being lynched.

Money Making.
If you are not fully and profitably employed you will find it greatly to your interest to at once write to B. F. Johnson & Co., Richmond, Va., and make arrangements with them to sell their great new book the "Memorial Volume of Jefferson Davis; or, The World's Tribute to His Memory." They will give you liberal terms.

The quality of the blood depends upon good or bad digestion and assimilation. To make the blood rich in life and strength giving constituents use Dr. J. H. McLean's Sarsaparilla. It will nourish the properties of the blood from which the elements of vitality are drawn.

Merit Wins.
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never had a single complaint that we do not guarantee to cure every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. For sale by Dr. R. B. Killian, druggist.

How Are the Folks?
"Oh they're all well except mother, she's about the same." Poor mother, worn out by household cares, exposure and over work. No wonder she gives up at last and takes to her bed. But oh! how much brighter the family fireside would be if mother's chair was not vacant. The doctors don't seem to be doing her any good. She says their medicines don't seem to go to the spot. She feels so weak and longs for strength. "Oh! give me strength," she murmurs. Why not give her the remedy her system craves? Her impoverished blood and shattered nerves are starving for just such ingredients as are contained in B. B. B. (Botanic Blood Balm). Then try a bottle of this excellent remedy. It is truly woman's best friend. It quickly relieves pain and restores health, strength and functional regularity.

James W. Lancaster, Hawkinsville, Ga., writes: "My wife was in bad health for eight years. Five doctors and as many more more different patent medicines had done her no good. Six bottles of B. B. B. has cured her."

To Aid The Farmer.
By request Senator Vance has introduced a bill providing for the issue of treasury notes in exchange for farm products. The bill provides for the establishment in each county of every State in the Union a National agricultural depository or warehouse, under control of the secretary; first, when it shall be shown by oath of the sheriff and clerk of the county that the gross amount per annum of cotton, wheat, corn, oats and tobacco produced in the two years preceding was \$500,000; or, secondly, when one hundred or more citizens of the county shall petition for its establishment, accompanying the petition with the title deed to a sufficient quantity of land donated as a site for the warehouse.

The secretary of the treasury is to appoint, at salaries ranging from \$1,000 to \$2,500 a year, managers for these warehouses, who are to give such bond as he may require. Any owner of any of the products mentioned may deposit them in any quantity in the warehouse, receiving for them 80 per cent of the market value in treasury notes bearing 1 per cent interest; the value of the product to be determined by the manager under regulations prescribed by the treasury department.

1890. 1890.
Our record for 1889 is made, and we refer with pride to the fact that our transactions the past year were far beyond all expectations. We take this method of returning thanks to our friends and customers, with whose aid we have been enabled to place our business on a par with Jobbers of the first rank in the country. The spirit to aid in the up-building of deserving home enterprises seems more than ever abroad among our business men. It is not only a patriotic purpose, but for our mutual benefit and best interest.

Reciprocating this sentiment, and feeling a deep appreciation of the confidence and liberal patronage extended us, we are prepared and determined not only to meet any and all legitimate competition, but in many instances to offer better trades than can be had outside of our house. In justice to himself no merchant can afford to place his orders until he has inspected our offerings.
