Fellow-citizens, the whole theory of the United States government hinges upon the question, whether the government is a compact between the States, or a government set up over and above the States. The 7th article of the Constitution reads as follows: "The ratification of the conventions of nine States shall be sufficient for the establishmenc of this Constitution BETWEEN the train and boat. No charge for convey States so ratifying the same. The entire | ance. South believed it to be a compact be-tween the States. Washington referred to it as a compact, Madison called it a FDMUND ALEXANDER, compact, New Hampsire so declared it in her act of ratification, so did Massachusetts. Chief Justice Marshall said the union of the States was a league. Such were the opinions of Hamilton and Jefferson. The Supreme Court of the United States has often decided that it was a compact, in a word, such was the opinion of every man who assisted in framing the Constitution, and it can be truthfully said that there was not a dissenting voice: but when Mr. Lincoln and his followers wished, to use his own language, "to run the machine upon the principle that this is a government set up and above the States, and that the States derived their powers from the general government, then the true theory of the Constitution was perverted. and purposely so, to secure sectional aid to carry on a wicked war. These are plain, simple truths, and the rising generation should be taught them, and when we are passed away and the places they in their turn will commit them to others. Teach them that the cause for which the South fought was just, and that nothing was wanting to gild it in the eyes of the world as the grandest and most sacred cause for which men ever

government remains as immutable and as firm as the foundations of the earth itself. And now, ladies of the Memorial Association, a word with you: To your untiring energy and love for a sacred prin-ciple are the citizens of this beautiful town and fair county indebted for the erection of this graceful monument to the memory of our fallen heroes of Beaufort county. Would that you could gather their remains together and enshrine them beneath this sacred monument on the banks of this beautiful river, as relics of sainted patriots, while those murmuring waves, on their way to the mighty sea, are chanting their requiem. Well do I remember in those dark, dark days of the late war, the un-

How these sacred memories "come care." Southern men were noble. Southness and kindness, such truthfulness, bravery and heroic self-denial on the world sounded their praises. How often the invocation of King David came from their lips and hearts: "God is our refuge and strength, an ever present help in time of trouble, therefore we will not fear though the ear h be rewas "a covenant with the devil and a defeated, but our glorious mem ries reitable in my opinion of them, and will league with hell;" and in wrath main. The war brought to the surface grand display of the highest attributes of human nature, so long will the memory of their noble deeds live and their praises be told. God bless the women of the South.
