## THE ARIZONA KICKER.

The Western Editor Also has  
His Troubles.

We extract the following from the last issue of the Arizona Kicker:

They got left—Feeling the need of a few days rest from brain work we hid our selves for Jim Peak last week, to remain about ten days. Soon after supper a stranger approached us and gave us a hint that the boys were planning a serenade, and that we had better have a speech ready.

In this Western country some words have a double meaning. A serenade may mean sweet, soft music by the band with a call from a lot of jolly good fellows, or it may mean avist from the gang who are provided with a rope but no music.

In order to be on the safe side we took up a temporary home in a thicket and from thence discovered that this was to be a rope serenade. Some of the boys from Johnson's ranch had determined to lynch us as a great moral warning, but while they were hunting for us around the hotel we were meandering through the jack-pines and midnight darkness to save quarters.

In one sense, we don't blame the boys so much. An occasional banging adios zest and gusto to this Western life, and it is very rare that the victim's friends can claim that any mistake was made. In another sense, the boys are to be blamed for their lack of taste in we have it good authority that they meant to hang us with an old unchained. There were 30 of them in the crowd. We make no boasts, but let our readers watch for developments. We'll have sheriffs and detectives here after at least thirty one of them, before the week is out, and then we shall borrow a shot-gun and go on a hunt after the odd one.

Probably the most remarkable family in the United States in one living near Hendersonville, N. C. The oldest member was a soldier in the war of 1812. At an early day he came to North Carolina, where he raised a family of 22 children, equally divided between the sexes. The eleven boys ranged in height from six feet four inches to seven feet, and all of them are still living. Seven of these men have sons, and there is not one of these sons who is less than six feet in height. There are twenty five grown grand sons and five grown great grand sons, and every one of them is full six feet and over in height.

## SMOKING MOUNTAIN PEAK.

### A Blue Ridge Phenomenon That Has Aroused Grave Fears

ASHEVILLE, N. C., Sept. 15.—Reports received here from a number of leading citizens in the neighborhood of Bee Tree Creek, a tributary to the Swannee River twelve miles east of this city, state for the third time since the Charleston earthquake smoke has for some days been regularly emitted in considerable volume from seven peaks of the Blue Ridge chain. The peaks have come to be designated "The seven smoking mountains." The occurrence has excited the entire region in which the smoke is visible, and many of the people are alarmed. J. W. Boone, a highly respectable citizen of Bee Tree Creek neighborhood, has given an account of his observation of the phenomena. He says that for the past two weeks each morning about 9 o'clock vast volumes of black smoke, rising to a height of about three hundred feet, have issued from Watch Knob, Rocky Knob and five other Blue Ridge Mountain peaks, which are visible from Bee Tree Creek.

Some of the neighborhood visited the mountains and found that the smoke, as it issued from the peaks, had a strong sulphuric odor. Mr. Boone says that these peaks were first observed to be smoking on October of the year of the Charleston earthquake. That year the smoking lasted two weeks. It then ceased until last year, when for three weeks, beginning in September, the peaks were again in a state of activity. This year the phenomena have lasted two weeks and have been witnessed by more than two hundred people, many of whose names Mr. Boone gives. An effort is making to have Prof. C. D. Smith, the geologist of Macon county, and Gen. T. L. Clingan to investigate the matter, so many of the people have become so alarmed that they say they will leave the neighborhood.

### Some Interesting Facts.

This country began the present century with 5,308,483 people. In the year 1810 the population was 7,239,881, an increase of 36.28 per cent; in 1820 it was 9,638,822, an increase of 33.66 per cent; in 1830 it was 12,866,020, an increase of 32.51 per cent; in 1840 it was 17,069,453, and increase 33.58 per cent; in 1850 it was 23,191,876, an increase of 35.83 per cent; in 1860 it was 31,443,521, an increase of 35.11 per cent; in 1870 in 38,558,371 an increase of 22.65 per cent; in 1880 it was 50,155,783 an increase of 30.08 per cent; in 1890 it was about 64,000,000 an increase of 28 per cent.

This great growth is shown by a few comparisons. The British Islands began the present century with three times as many people as the United States, and yet its population is only three-fifths of our own. Of all the civilized countries, Russia has the most people, 113,354,649; but at our rate of increase it will not be many years before this country passes Russia. Another interesting fact is, remarks The Baltimore American, that the English language is spreading twice as rapidly as any other tongue, so that the future promises to the United States not only leadership in population, but in the language of the world.

### Acesville Items.

An irresponsible and unlettered youngster has conceived the idea that he is to be the leader of something or somebody, and, without being advised except by a few neighbors more ignorant than himself, boldly announces himself for Probate Judge. He has nothing in the world to recommend him but inordinate self conceit and the fact that he is absolutely unknown through the county. It is adventure, pure and simple—he has nothing to lose and may through the instrumentality of dissonant, prejudice and ignorance gain something. If nothing else is gained he will at least obtain a little cheap notoriety and set people to inquiring: "Who is J. Z. B. yea?"

When a grassy upstart expects sensible men to about themselves hoarse in his interest it is high time for the intelligence and conservatism of the county to sit down squarely with all its weight on such disgusting presumption.

### A PERMANENT CURE.

For years I was troubled with the most malignant type of Chronic Blood Trouble. After trying various remedies, without getting any benefit, I was induced by Jos. Shell a barber, who has since moved to St. Louis, and who was cured by Swift's Specific of a Constitutional Blood Trouble, to take S. S. S. A few bottles cured me permanently, also consider S. S. S. the best tonic I ever saw. While taking it my weight increased and my health improved in every way. I have recommended S. S. S. to several friends, and in every case they were satisfied with the results.

### A MASS OF SORES.

I am so grateful for the beneficial results obtained from using S. S. S. that I want to add my testimony to that already published for the public good. I was a mass of sores before using, but am now entirely well.

## WE WILL DO IT.

It is now thought that Hon. W. A. B. Branch will poll the largest vote polled since the war. The first district will beat his record by giving not only Mr. Branch, but all the nominees the largest majority ever known in the district. To this the Democrats must work, get more to register and vote. Already several Republicans have said they are going to vote for Branch, and some have even quit the Republican party.

The day is coming when Democracy will rule, not only North Carolina, but the Union. When such men as Branch are brought out as the standard bearers, the colors fly too high for Republicanism, and it is either to fall in ranks with the honest Democrats or to go down with the Republicans.—Ravanne Beacon.

### PLATFORM AND RESOLUTIONS.

Resolved, That the Democracy of North Carolina reaffirm the platform and principles of the Democratic party both State and national, and particularly favor the free coinage of silver, and an increase of the currency, and the repeal of the Internal Revenue system. And we denounce the McKinley Tariff Bill as unjust to consumers of the country, and promotive of the trusts, combines and monopolies which have oppressed the people; and especially do we denounce the unnecessary and burdensome increase in the tax on cotton ties, on tin so largely used by the poorer portion of the people. We likewise denounce the iniquitous Lodge Force Bill whose purpose is to establish a second period of reconstruction in the Southern States, to subvert the liberties of our people and inflame anew race antagonism and sectional animosities. And we denounce the tyrannical action of Speaker Reed and his abettors who have changed the Federal House of Representatives from a deliberative body into a machine to register the will of a few partizan leaders.

Resolved, That we demand financial reform, and the enactment of laws that will remove the burdens of the people, relieve the agricultural depression and do full and ample justice to the farmers and laborers of our country.

Resolved, That the Democracy of North Carolina take a just pride in the able and patriotic course of their Senators and Representatives in Congress touching the great public questions that have before them for action, and especially do we appreciate the great ability and zeal of Senator Vance in the protracted contest on the tariff question, which reflect honor and credit alike on him and on the State of North Carolina; and we cordially recommend his reelection to the United States Senate by the next general assembly of North Carolina; and we commend the wise and satisfactory administration of our State affairs.

Whereas, The education of the people is essential not only to individual happiness and prosperity but also to the maintenance of civil and religious liberty.

Resolved, That the next general assembly of North Carolina be requested to increase the fund for the maintenance of public schools.

Resolved, further, That we demand the abolition of National bank, and the substitution of legal tender Treasury notes in lieu of National Bank notes, issued in sufficient volume to do the business of the country on a cash system regulating the amount needed on the per capita basis as the business interests of the county expands, and that all money issued by the government shall be legal tender in payment of all debts, both public and private.

Resolved, That we demand that Congress shall pass such laws as shall effectually prevent the dealing in futures of all agricultural and mechanical productions; preserving a stringent system of procedure in trials as

shall secure the prompt convictions, and imposing such penalties as shall secure the most perfect compliance with the law.

Resolved, That we demand the free and unlimited coinage of silver.

Resolved, That we demand the passage of laws prohibiting the alien ownership of land, and that Congress take early steps to devise some plan to obtain all lands now owned by aliens and foreign syndicates; and that all lands now held by railroads and other corporations, in excess of such as is actually used and needed by them, be reclaimed by the government and held for actual settlers only.

Resolved, That we believe in the doctrine of "equal rights to all and special privileges to none," we demand that taxation, national or State, shall not be used to build up one interest or class at the expense of another. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all revenue, national, State or county, shall be limited to the necessary expenses of the government economically and honestly administered.

Resolved, That Congress issue a sufficient amount of fractional paper currency to facilitate the exchange through the medium of the United States mail.

## AN APPEAL.

### To the Brethren and Friends Who Pledged so Liberally To Aid in Building a House of Worship in Washington, N. C.

Brethren, we are ready for work. Where is your material? We spent more than a month, last winter, in the thriving town of Washington, and among the churches of Old Ford, Woolards School House, Tranters Creek, Beaver Dam and Haw Branch, soliciting aid to build a house of worship for the Disciples of Christ in Washington. We raised sufficient money to purchase the lot, which was done, and the deed recorded, and besides, received in pledges enough lumber and shingles to build the house.

Our subscribers promised to have the material ready by August 1st, 1890. August has come and almost gone, and the house, which we expected to be completed by January 1st, 1891, is not begun. We hope those who subscribed will remember their promise and comply with it as soon as possible, brethren, we want to have it inclosed before the cold weather begins. Can those who agreed to donate lumber and shingles deliver the same in Washington by October 1st, 1890? If so, please inform brother J. A. Burgess, chairman of the building committee, Washington, Beaufort county, N. C. If you cannot have your part ready by October 1st, 1890, please notify us through J. A. Burgess when you can have it ready. It is not pleasant to have to hurry those who have subscribed so liberally, but we want to know when we can begin work on the new house and whether we can depend upon our subscribers for lumber and shingles now, or shall we have to wait another year. Now is the time to build in Washington, and we cannot afford to delay. There is too much at stake. The cause we love is too dear to neglect a work of so much importance.

The Lord has blessed you with good crops, and if you cannot give lumber or shingles as promised, perhaps you can the worth of your subscription in money instead of material.

We believe all who agreed to donate lumber or shingles are honest, Christian gentlemen who have the cause at Washington at heart, and we cannot doubt their sincerity. We have not written because we doubt a single subscriber, but simply to "stir up your minds in way of remembrance."

Who will be the first to deliver the lumber and shingles promised? We have not the time to visit all of our subscribers now, and we hope they will make an extra effort to have the lumber and shingles on the lot October 1st, 1890, or sooner, if possible.

Brethren, I know you are interested in the building of a house of worship in the county seat of Beaufort. "Let us strike while the iron is hot." Delays are dangerous. Let us have a united effort by all of our subscribers, and the work will soon begin, and the Washington church will be a reality before another year. Begin now and if possible get the lumber and shingles before cotton harvest. It will not do to wait another year. We know not what a year may bring forth. What we need more than anything else now is the material. Give us that and we will begin the erection of the new house at once.

Hoping that all will fulfill their promise at once we are,  
Yours in Christ,  
R. W. STANCILL.

P. S.—We will visit Washington just as soon as we can in interest of the church. Hope we may find every one at his post. R. W. S.

### The Pulpit and the Stage.

Rev F. M. Shrou, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and an amount and well, gaining 25 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence I am confident Dr. King's New Discovery for consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it. Trial bottles free at D. N. Bogart's drugstore Only 50c
