Oraoke Primary.

Promptly at half past three o'clock p.m. September 30, Mr. M. L. P. in a few impressive and pointed remarks, called a large crowd of enthusiastic Democrats to order and briefly stated the purpose of the meeting.

On motion of Mr. Joseph O'Neal, Capt. S. D. Bragg was made permanent chairman who took the chair by making a few appropriate remarks, which caused great enthusiasm.

Mr. John W. McWilliams was made secretary. He is a young man of much influence and intellectual ability, who has recently led the sinking ship, and is destined to become a leader among the good Democrats of this section.

The chair pronounced the convention in order to proceed to ballot for delegates.

Messrs. W. S. Bragg, Joseph O'Neal, Thomas D. Howard and Isaac O'Neal were placed before the convention.

Messrs. W. S. Bragg and Joseph O'Neal were duly elected and authorized to cast the entire strength of Oraoke at the county convention at Swan Quarter on September 30th.

The following resolutions were offered by Mr. M. L. P. and were unanimously endorsed.

1st Resolved, That the Democratic citizens of Oraoke do heartily endorse the nomination of Judge Geo. H. Blount, Jr., for Judge and John H. Blount for solicitor, and promise to use all means to procure their election.

2nd Resolved, That we endorse the nomination of W. A. B. Branch for our standard bearer through this Congressional contest.

3rd Resolved, That we heartily endorse the nomination of Hon. W. H. Lucas, and pledge ourselves to support him through this political campaign.

The convention then adjourned, and all went home more determined to support the Democratic ticket than ever before.

At the Moore county convention.

Mr. E. J. Harrington's name was mentioned for the House of Representatives. He, living in Pocket township, arose and said: "Mr. Chairman, I would ask my friends to please withdraw my name. It would never do to take two men out of a little pocket. You have just nominated Capt. Wilcox, of my township, for Senator. Just let me stay at home and gather my big crop of corn, play with Katie and the children, and vote the Democratic ticket this fall, and I'll be happy." This speech was greeted with rounds of applause.—Jonesboro Leader.

NEW YORK FASHIONS.

Winter Millinery—Colors—Dress Materials—Ways of Making—Gloves and Shoes.

Young ladies will have choices in felt among English walking hats, turbans, toques or round hats in such fancy shapes that special description is impossible. In the latter crowns are invariably low and the brims extend to a greater or less extent in front while narrow at the back. Many are so small as to seem a species of cap, but again there are repetitions of summer varieties which are comparatively large with far projecting front brims. Capes run from extremely small ones to others quite large, the most noticeable changes in shape, being a sharp point above the forehead and a record that shows a front brim commencing like a coronet but curving again outwards with pronounced contour. An unusual feature in felt moreover, to that of color, some being brought out in shades of heliotrope or Nile green, both of which will be very fashionable. Other shades are dark green, dark blue, that is also to be in much favor, russet, brown and a large complement of black.

DRESS BONNETS.

The same hues will be repeated in velvet with the addition in trimmings of turquoise blue which is to be prominent. Narrow velvet ribbon is still very popular, but there are handsome double faced satin ribbons of greater width, and heavy gros grain or broad ribbons from narrow to very wide, some being experiments of artistic combinations in color while others are self colored or again show rich gift of silver weavings, the latter especially being noteworthy. Eye bands and ornaments are to be worn by those who can afford them and other especially will be in favor, the little animal's head placed in front with a pair of three Prince of Wales tips above.

STYLES IN DRESS GOODS.

Have never been so extravagant as to size of patterns and weavings where all that can be done by very large bowties, fleecings, astrakans, curls, patches of imitation fur or long camel's hair lying thick over the material is accomplished. Designs in which these features appear are extremely large plaids or oblong or round figures where outlines are sometimes rendered indistinct as for example where long hair is loosely or where bowtie or astrakan weavings seem thrown in position with shadowy outline. In consequence of such pronounced effects, plain material for combination becomes a necessity and it is unusual to see dresses where some touches only of mammoth patterns appear, chiefly as skirt panels or forming two rows down the front with corresponding touches on the corsage.

GLOVES AND SHOES.

Tan or gray continue the shades for street or morning but for evening there is also choice now among pale colors to match dress fabrics while moreover according to Harris Bros., 865 Broadway, who as is well known lead the glove trade in America, addressed his all its former prestige. Four or five buttons are the length for general wear, but the dealers just alluded to, have introduced a new fastener which is to be very popular. To fashionable shoppers their establishment is attractive as ever, but purchasers of moderate means find it an equally advantageous resort since as may be supposed, all grades of gloves are kept in a spacious building devoted to the one purpose. As they supply the trade almost everywhere, their styles can readily be obtained at home in many places but mail orders for ladies, gentlemen or children are filled with conscientious care.

Tan or gray slippers in undressed kid or calf skin are most frequently chosen by fashionable buyers, because they match any dress and the gloves as well but the fancy for colored slippers has by no means abated and produces much that is so quibblish. The Adonis slipper has a long vamp with large buckle; the sailor slipper shows a short vamp with small ribbon bow and the Opera slipper comes low on the instep without vamp and may be worn plain or with ornamentation of embroidery. PLATFORM AND RESOLUTIONS.

Resolved, That the Democracy of North Carolina reaffirm the platform and principles of the Democratic party both State and national, and particularly favor the free coinage of silver, and an increase of the currency, and the repeal of the Internal Revenue system. And we denounce the McKinley Tariff Bill as unjust to consumers of the country, and promotive of the trusts, combines and monopolies which have oppressed the people; and especially do we denounce the unnecessary and burdensome increase in the tax on cotton ties, on tin largely used by the poorer portion of the people. We likewise denounce the iniquitous Lodge Force Bill whose purpose is to establish a second period of reconstruction in the Southern States, to subvert the liberties of our people and inflame anew race antagonism and sectional animosities. And we denounce the tyrannical action of Speaker Reed and his abettors who have changed the Federal House of Representatives from a deliberative body into a machine to register the will of a few partizan leaders.

Resolved, That we demand financial reform, and the enactment of laws that will remove the burdens of the people, relieve the agricultural depression and do full and ample justice to the farmers and laborers of our country.

Resolved, That the Democracy of North Carolina take a just pride in the able and patriotic course of their Senators and Representatives in Congress touching the great public questions that have before them for action, and especially do we appreciate the great ability and zeal of Senator Vance in the protracted contest on the tariff question, which reflect honor and credit alike on him and on the State of North Carolina; and we cordially recommend his reelection to the United States Senate by the next general assembly of North Carolina; and we commend the wise and satisfactory administration of our State affairs.

Whereas, The education of the people is essential not only to individual happiness and prosperity but also to the maintenance of civil and religious liberty.

Resolved, That the next general assembly of North Carolina be requested to increase the fund for the maintenance of public schools.

Resolved, further, That we demand the abolition of National Bank, and the substitution of legal tender Treasury notes in lieu of National Bank notes, issued in sufficient volume to do the business of the country on a cash system regulating the amount needed on a per capita basis as the business interests of the county expands, and that all money issued by the government shall be legal tender in payment of all debts, both public and private.

2. That we demand that Congress shall pass such laws as shall effectually prevent the dealing in futures of all agricultural and mechanical productions; preserving a stringent system of procedure in trials as

shall secure the prompt conviction and imposing such penalties as shall secure the most perfect compliance with the law.

3. That we demand the free and unlimited coinage of silver.

4. That we demand the passage of laws prohibiting the alien ownership of land, and that Congress take early steps to devise some plan to obtain all lands now owned by aliens and foreign syndicates; and that all lands now held by railroads and other corporations, in excess of such as is actually used and needed by them, be reclaimed by the government and held for actual settlers only.

5. Believing in the doctrine of "equal rights to all and special privileges to none," we demand that taxation, national or State, shall not be used to build up one interest or class at the expense of another. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all revenue, national, State or county, shall be limited to the necessary expenses of the government economically and honestly administered.

6. That Congress issue a sufficient amount of fractional paper currency to facilitate the exchange through the medium of the United States mail.

POLITICAL POINTS.

One of the most magnanimous acts we ever knew was done by Capt. W. C. Newland, of Lenoir, Caldwell county, N. C. In the contest for Solicitor, in the 10th district he was declared the nominee, but afterwards Capt. Newland found that an error in the count had given the honor to him. He at once declared that he would not take advantage of an error to win over his competitor and offered the place to him. Another convention was held, and Capt. Newland was declared the nominee without any doubt. This was just recognition of his magnanimous act, as well as his eminent fitness for the position. Mr. Newland is a fine speaker, a shrewd lawyer, a high toned, honorable gentleman in every sense of the word. He was one of the most able members of the last Legislature. Nothing pleases us more than his nomination, and the Democracy will give him a hearty support.

The nominee for Solicitor in the ninth district is W. W. Barber, who was an active and popular member of the State Senate in '89. He is an excellent lawyer, a speaker of no mean reputation, and one of the best party workers we know. He served his district well in the Legislature, and we rejoice that this honor has been conferred upon him. The State will be safe in his hands.

An Editor's Dream.

The editor sat on a hard bottomed chair, trying to think a thought, and he plunged all his fingers through his hair, but no topic they brought.

He had written on temperance, tariff and trade, and the prospects of making a good crop, and joked about ice cream and weak lemonade, till his readers had told him to stop. And weary thinking, sleep came to his eyes, and he pillowed his head on his desk, when the thoughts which awake, had refused to arise, came in troops that were strong and grotesque. And as the ideas brightly float, he selects the bright one of the tribe; and this is the gem which, while dreaming he wrote: "Now is the time to subscribe."

THE CANDIDATE.

Father who travels the road so late, Hush my child, 'tis the candidate; Fit example of human woes— Early he comes and late he goes. He greets the woman with country grace, He kisses the baby's dirty face. He bores the merchant he bores the clerk; The blacksmith while his anvil rings, He greets this is the song he sings.

CHORUS.

Howdy, howdy, howdy do, How is your wife and how are you? Ah! it fits my list as no other can, The horny hand of working man.

Husband, who is that man at the gate? Hush my love 'tis the candidate; Husband, why can't he work like you? My dear, when ever a man is down, No cash at home no credit in town; Too stupid to preach and too proud to beg, Too timid to rot and too lazy to dig, Then over his horse his legs he flings, And to the dear people this song he sings:

CHORUS.

Howdy, howdy, howdy do you do? How is your wife and how are you? Ah! it fits my list as no other can, The busy hand of the working man.

Brother who labors early and late? Ask these things of the candidate; What's his record how does he stand? At home no matter about his hand, Be it hard or soft so it be not prone, To close over money nor his own? Has he in view no thriving plan? Is he honest and capable—he is our man, Cheer us one till the workin' rings, Join in the chorus when this he sings:

CHORUS.

Howdy, howdy, howdy do, How is your wife and how are you? Ah! it fits my list as no other can, The hardy hand of the working man.

Vegetables at N. C. Agricultural Experiment Station.

We have devoted special attention to the wants of North Carolina truckers at the Station by testing this season forty varieties of tomatoes, forty varieties of garden peas, over fifty varieties of cabbage, forty varieties of Irish potatoes and eleven varieties of sweet potatoes. The effort is to save truckers the expense of testing these new sorts for themselves and to furnish them with accurate information as to the comparative value of all new comers. This year we are growing many that are old and well known, as a means of comparison for the new ones in the same soil. Hereafter we will grow only the new ones as they appear annually. We will work also in the line of improvement ourselves, and endeavor to produce varieties specially adapted to the needs of our growers. We want to put ourselves and our work in close connection with every worker in the State, and earnestly request North Carolina farmers to correspond freely with us on every subject which affects their interests. We want our farmers, fruit growers and truckers to feel that the Station is working for them and trying to serve their interests, and that we are at all times, either by mail or in person, ready to render all the help we can.—W. F. Massey, Horticulturist.
