POISONS IN COSMETICS.

It seems to be the fashion for
young ladies with pimples and
blotches on their faces to make
experiments with various cosme-
tics. Madame Piffpaffy adverti-
ses her foreign named compound,
composed of a combination of
poisonous mineral substances that
deadens and burdens the delicate
substance of the skin. There are no
complexions like those that Nature
gives. The tonic, strengthening
and health giving effects of
Swift's Specific (S. S. S.) permit
Nature to work her will in this re-
spect, as thousands of ladies, both
young and old, have discovered.
The cheapest and most beautiful
complexions depend on health and
vigor. It is the office of Swift's
Specific, to give vigor and tone
and health to the system, and in
this way to give lustre to the eye
and roses to the cheeks.

here can be no real fear or re-
verence or seriousness of heart, un-
til a man has come to understand
at least in some measure, what he
is, to realize his own awful struct-
ure and destiny.

I have been a great sufferer from
dry catarrh for many years, and I
tried many remedies, but none did me
so much benefit as Ely's Cream Balm.
It completely cured me. M. J. Lally,
20 Woodward Avenue, Boston High-
lands, Mass.

AFTER using Ely's Cream Balm two
months I was surprised to find the
right nostril, which was closed
over twenty years. I feel very
thankful.—R. H. Cressingham, 278
18th St., Brooklyn.
