Address him at  
Washington N. C.

**House Painting**  
DECORATIVE  
INTERIOR WORK,  
GRAINING,  
& MARBLING  
A specialty. Satisfaction guaranteed or no charge.  
GENERAL CONTRACTOR FOR THIS LINE OF WORK.  
See me before contracting. You will save money and get superior work.  
Respectfully,  
L. H. PADGETT,  
Washington, N. C.

**Salesmen Wanted.**  
To sell Pennsylvania grown Nursery Stock which is the BEST in the world. All new specialties as well as the standard varieties of Fruits and Ornaments. No previous experience necessary. Salary and traveling expenses paid. Write for terms, stating age.  
**HOOPES, BRO. & THOMAS,**  
Main Avenue Nurseries, West Chester, Pa.

**A New Man**  
— IN —  
**COTTON SEED!**  
I want 1000 tons of Cotton Seed and will pay the highest spot cash price for them. See me before selling.  
Respectfully,  
C. H. STERLING.

Subscription \$1 Per Year.

VOL. XVII.

**A BAD STATE OF AFFAIRS.**  
The people of the South are being deceived in the purchase of imitation medicines. It's poor consolation to a sick man to be told that the medicine offered him certainly won't do him any harm. Wrong; it will do great harm. It allows the disease to progress instead of stopping it, and this is most dangerous, because the disease will soon be beyond cure. This is the best reason why one should be sure to get the right medicine. Don't risk your health in trying any of the many Liver Medicines which sprang up in the South to be sold in place of Simmonds Liver Regulator, put up by J. H. Zellin & Co., with this as the medicine of your fathers, and they lived on. Have nothing to do with anything else, or any druggist or dealer who would persuade you that the many imitations under different names are just as good. It's not true. The people who bug them heap up their miseries. Beware!

**FINANCE AND TRADE.**

**Confidence Takes the Throne So Long Held by Distress.**  
NEW YORK, April 27.—R. G. Dun & Co.'s weekly review of trade says: Neither the rise in speculative markets nor the steady gain in industries has caused, and is wholesome that there are fewer signs of hesitation in the productive industries than in speculative prices. Wages strikes grow more numerous and cause some trouble, and retail demand lags behind wholesale sales and jobbing purchases behind production in some branches, but the lack of confidence reports the fact shines out that the industries are gaining—not with a rush and a whirl, but more safely.  
It is less clear that railroads are increasing their earnings, or that overproduction of cotton will be cured by the advance of 15c. in price, or that cornering short sell of wheat will help to market the large surplus. But revival of activity in all these directions, if possibly excessive in some, helps confidence to take the throne so long held by distress.  
The fall in cotton has been 820 in the United States, against 179 for the same week last year, and 37 in Canada, against 26 last year.  
Bradley's report says: The features of the week is the continued strength of prices of staples after the striking advance of preceding weeks. There is a firmer tone in nearly all lines of trade, but at a number of points gains in industrial lines are more marked than in commercial lines. There is moderate activity in the market for wool and cotton goods, but on the advance in cotton and higher wages paid eastern mill operatives.

**The Greater Pittsburg Bills.**  
HARRISBURG, April 27.—The greater Pittsburg bills will go to the governor next week. They passed the house in exactly the shape they left the senate, except for a few amendments that have been made. The senate will concur in these next Tuesday, when it reconvenes. The vote for or against consolidation will take place at the presidential election in 1896, and the bill will be united into the greater Pittsburg in March, 1898. The combined population of the two cities is 420,000. It is estimated that this will be increased to 600,000 before the taking of the next census. This would make the combined population of the two cities as large as New York and Brooklyn consolidated.

**The Agent Himself the Robber.**  
CHIFFLE CREEK, Colo., April 27.—The Denver express was robbed of \$41,100 at Victor early in the morning. The express agent, Carlin, says a man came into the station soon after midnight and asked for a package. The man struck him a powerful blow, which laid him prostrate on the floor, where he remained for some time insensible. When he regained consciousness, he says, the man had disappeared, the safe door was open and the money gone. Subsequently, however, Carlin confessed that he had concocted the story to cover up a misappropriation.

**No Silver Convention for West Virginia.**  
WHEELING, W. Va., April 27.—The proposed Democratic state committee to commit the party in West Virginia on the silver question will not be held owing to the opposition of the party leaders in the state to the proposition. The opponents of the plan do not base their opposition so much on an anxiety to free silver as they do on the fact that they regard the idea of a declaration on the question either one way or another, in advance of the national convention, as a year as unwise from a party standpoint.

**The Striking Providence Mill Workers.**  
PROVIDENCE, April 27.—The attempt of the management of the Providence and National Worsted Manufacturing company to operate its factories, after having been compelled to shut down on account of a strike of the weavers employed by them, failed shortly after noon, when nearly all the other departments joined the weavers, and work was suspended. The strikers' number numbered 1,500, and 1,000 more are idle on account of the shut down.  
**Man-slaughter in the Second Degree.**  
NEW YORK, April 27.—Caroline Kraft, a middle-aged woman, has been on trial before Recorder Coffey on a charge of performing a criminal operation on Bertha Karns, on Jan. 30 last, was yesterday afternoon found guilty of manslaughter in the second degree. After the verdict was rendered a report got around the court room that four of the jurors had been approached. Recorder Coffey ordered an immediate investigation.  
**Put Her Infant in the Stars.**  
YONKERS, N. Y., April 27.—A German servant girl in the employ of William Hamill of Dobbs' Ferry, gave birth to a child some time during the night, and tried to dispose of the body by burning it in the kitchen stove. The act was discovered when the body was nearly consumed. Dr. Hasbrouck was called in, and the notified coroner, Miles, who ordered the girl placed under arrest.

**ONLY A MILD PROTEST.**

**Japan Was Not Threatened by the European Powers.**  
**THE JAPANESE WILL NOT RECODE.**  
She Will Insist Upon All the Terms of the Peace Treaty as Rightfully Her Due. Critical State of Affairs Existing in Peking and Yokohama.  
LONDON, April 27.—Direct and positive information from official sources is at hand concerning the exact negotiations between Russia, France and Germany on one hand and Japan on the other.  
The Russian, French and German ministers separately interviewed the Japanese vice minister for foreign affairs, under instructions from their respective governments, and presented memorandums, in which it was stated that the governments of Russia, France and Germany, upon explanation of the peace imposed by Japan upon China, have found that the possession of the peninsula of Liao Tung, claimed by Japan, would be a constant menace to the stability of China, and at the same time would threaten the independence of Korea and render it non-effective in fact.  
In this sense and for other reasons it would be, it was stated, a constant menace to the permanent peace of the far east. Consequently the governments of France, Russia and Germany, desiring to show their sincere friendship for the government of Japan, advise it to renounce the absolute and final possession of the peninsula of Liao Tung.  
The memorandums of the three governments make it plain that they are presented in the way of friendly advice to the Japanese government, and are not intended in any way to convey any open or covert menace.  
The impression is gaining ground that Japan can rely upon the friendly counsel of the United States at the present moment. The governments of Great Britain and Italy have made it plain that they do not intend to follow the example of Russia, France and Germany, and the great commercial interests of the United States in the far east, which the Japanese-Chinese treaty would largely benefit, no less than the constant attitude of the United States toward Japan, lead diplomats to believe that the United States at this juncture will not fail to make such a use of its good offices as to prevent Japan from being deprived of the fruits of her victory.  
The treaty of peace has already been ratified by the emperor of Japan, and it would be extremely difficult to make any change in the treaty. The only effect of Russia's, France's and Germany's attitude must be to encourage the party in China, which is opposed to any moderate and reasonable settlement, and thus to prolong the war indefinitely.  
It may be stated in the most positive terms that the reports thus far circulated regarding Japan's reply to the powers are not correct. The reply had not been sent as late as the evening of the 26th, and the only news received from the highest and most reliable sources here it may be stated that the reply, while moderate and conciliatory in tone, will not contain any concession from what Japan regards as rightfully her due.  
It is believed that Japan was surprised by the protests made by Russia, France and Germany, and that the latter Japanese expedition to Port Arthur was ordered for the purpose of allaying the discontent that exists in that portion of the army which is not shared in the success of the campaign, and also to force the Peking government to ratify the peace treaty.  
A Peking dispatch to The Times says it is the opinion of southern Manchuria that the present situation is viewed with chief opposition in the Chinese capital. The agreement to this end made by Li Hung Chang specially grieves the province, and because the province of Manchuria is the ancestral province of the emperor. There is less opposition regarding the cession of Formosa, which is a new province. The other articles of the treaty are regarded as bearable. Several governors and some of the generals oppose submission to the public proclamations that have been made.

**Apprehension in Yokohama.**  
YOKOHAMA, April 27.—The demand made by Russia, France and Germany that Japan refrain from annexing the Liao Tung peninsula, is expected to try the self-restraint of the Japanese government severely. The government will find it difficult, if not impossible, to comply without great risk of internal trouble. The present situation is viewed with much apprehension. At the same time, it is believed that the government will be compelled to do its utmost to meet the European views.  
**Affairs in Peking Critical.**  
SHANGHAI, April 27.—A dispatch received here from Peking says that affairs there are in a critical state. Some of the generals are in favor of continuing the war. The censor's object to Viceroy Li Hung Chang and the terms of the treaty of peace between China and Japan, and the officials are claiming that the emperor alone should decide upon the terms. The ratification of the treaty consequently is uncertain, and it is ratified fear that there will be trouble with the army.  
**A Mother's Charge Against a Clergyman.**  
OLDBURY, England, April 27.—Emma Hall, the mother of the young woman, Emma Hall, whose death in a hospital at Detroit, Mich., has cast suspicion on the Rev. Jonathan Bell, declares she has sufficient evidence to convict the Rev. Jonathan Bell, whom she holds responsible for her child's death. Mrs. Hall says that the Rev. Mr. Bell sent Emma to America. Mrs. Bell well sent the missing pastor, says she does not know whether her husband is dead or alive. The members of the Rev. Mr. Bell's congregation consider his guilt to be fully established.

**Boat Captured, Two Drowned.**  
NEW YORK, April 27.—Joseph Cronin, 19 years old, and John McEvoy, 15 years old, were killed by a steamer when they were all employed on the coal dock of Edward Cunningham, went rowing on East River, and Cronin and McEvoy were drowned. The steamer was saved after the boat had capsized at the south end of Blackwell's Island.  
**Father and Two Children Perish.**  
FRANKFORT, Ky., April 27.—A block of storerooms and tenement houses, known as the Enool block, was destroyed by an incendiary fire during the night. James Ager, an old man, and his two children, aged 5 and 9 years, were burned to death, and a half dozen families barely escaped.

**When fevers and other epidemics are around, sayers lies in fortifying the system with Ayer's Sarsaparilla. A person having thin and impure blood, is in the most favorable condition to "catch" whatever disease may be floating in the air. Be wise in time.**

**THE INDIAN LAND MIDDLE.**  
A Judicial Decision That Increases the Conflict of Authority.  
LINCOLN, Neb., April 27.—Judges Dundy and Ritter refused to issue a mandatory injunction compelling the Flouring Land company and all others interested in leasing Winnebago Indian reservation lands to vacate the property. It is said that the rule of the federal court will not deter Captain Beck, the Indian agent, from proceeding with the eviction of the tenants. Beck said today that he would at once evict all settlers, and a conflict of authority is possible.  
In 1890 speculators began operating in these lands with illegal leases, and continuing to do so ever since. The Flouring Land company leases 57,000 acres of land, and sublets a large portion. It secured the land of the Indians for about twenty cents an acre, and sublets it for \$1.50 to \$2. For years Indian agents had attempted to break up the system. In the five injunction cases brought the same questions were raised.  
At this point a question of misjoinder was raised by Judge Dundy. The court inquired how 250 people sub-leased from the company could be equally interested and equally joined. The attorney for the Flouring Land company preferred to proceed by civil process instead of employing the military force as its command. All the government wanted to do was to get rid of the speculators. The Indians were to be permitted to lease the lands in accordance with the established rules of the department of the interior. The court refused to permit the government to join in the suit. As the result of this litigation the middle is deeper than ever.

**An Invulnerable Railroad Ride.**  
BALTIMORE, Md., April 27.—Charles W. Baley, 15 years old; Charles Lenschaw, 12, and John Morton Dillon, 9, made an enforced journey to Baltimore from Philadelphia by rail. The train was crowded with two other boys were playing "hide the hoop" about the Pennsylvania railroad station in Philadelphia. The three travelers entered a stock car to hide, when the door was closed upon them. Unable to make any person hear them, and tired out, they went to sleep. Soon after they awakened to find the train stopped. The boys were well cared for and their parents telegraphed.

**The Cases Against Eugene V. Debs.**  
WASHINGTON, April 27.—It is stated here that the continuance of the Debs case has no significance. The attorney general withdrew the district attorney at Chicago to continue the case until the July term of the court. It is expected that by that time Judge Grosscup, who is ill, will have sufficiently recovered his health to hear the case. Judge Grosscup heard the previous case, and granted the injunction against Debs. He is perfectly sane, intelligent and the questions involved, and for this reason it is preferred to continue the suits until they can be heard before him.  
**Probably Murdered by Strikers.**  
KNOXVILLE, Tenn., April 27.—A horrible murder was committed during the night of the 26th. Three men, Charles W. Coal Creek, who the mines of the Royal Coal and Coke company are located, John Craig, a miner who has been in sympathy with the strikers, and a woman, were killed. The man was shot from ambush. He died before he could give further particulars of the tragedy. The murder is a result of the strike at the mines.

**THE NICARAGUA AFFAIR.**

**No Direct News from the Scene of the Trouble.**  
**BRITISH DEMANDS NOT MODIFIED.**  
It is Believed That Great Britain's Naval Force Has Already Taken Possession of the Custom Houses, Although Nicaragua Has Not Yielded Without Protest.  
WASHINGTON, April 27.—Up to a late hour Dr. Guzman, the Nicaraguan minister, received only dispatches from his government indicating what, if anything, has transpired in connection with the British ultimatum.  
A difference of opinion exists in diplomatic circles as to the precise time at which the ultimatum expires, some persons holding the belief that it expires on Friday midnight, others on Saturday. From the cables heretofore received by Dr. Guzman he is of the opinion that the limit of time was up at midnight on Thursday, but in the absence of any later news he thinks that some additional time—probably twenty-four hours—has been granted to Nicaragua within which to make an answer. He is, however, in the dark as to what really has occurred.  
The minister seems to believe the matter will be settled, but in what manner and what terms he does not advance an opinion.  
LONDON, April 27.—In well informed English quarters here it is declared that the British ultimatum to Nicaragua has not been modified, that Admiral Stephenson has not been called to extend the time granted Nicaragua within which to pay the indemnity of \$75,000 demanded by Great Britain, and in the absence of definite news it is believed that the admiral has already occupied Corinto. The belief is that the British government will not yield to the demands of Great Britain until compelled to do so, in order to avoid being reported to resign office.

**An Alibi for Young Stevens.**  
FT. SCOTT, Kan., April 27.—At the trial of Noah Stevens, charged with murdering his father, the defense introduced testimony that the murdered man was a party to the recent burning of his stock barn, and that he collected insurance money on some blooded horses, grain and harness that were not burned, but were used by the defendant to burn the barn. The defense claims that the murder was committed by a man employed by the old man, who set fire to the barn, and that the difference between them arose over his refusal to pay for the insurance on the stock. The jury introduced who positively made an alibi for the accused young man.

**Two Men Buried Alive.**  
CINCINNATI, April 27.—At Ludlow, Ky., near the Pullman car works, five men were shot and killed by a train. The men were buried in a trench. The train was stopped and the men were buried in the sand. Two hundred operatives in the Pullman shops joined in the rescue of their bodies. George Wilber was soon taken to the hospital, and died. The other four men were taken to the hospital, but died. The train was stopped and the men were buried in the sand. Two hundred operatives in the Pullman shops joined in the rescue of their bodies. George Wilber was soon taken to the hospital, and died. The other four men were taken to the hospital, but died. The train was stopped and the men were buried in the sand. Two hundred operatives in the Pullman shops joined in the rescue of their bodies.
