Growth of the Southern Cotton Mills. BALTIMORE, Sept. 6.-The Manufacturers' Record says that the announcements of new cotton mills projected in the south during the last three months exceed that of any similar period in the history of cotton mill building in this section. There were reported seventy-seven mills which will have an aggregate of over 300,000 spindles, which, added to the 500,000 spindles to be put into mills that had been reported prior to May 31, makes a total of about 800,000 spindles to be added to the number now in operation in the south. If these mills are all built as indications promise, the aggregate investment will

NEW YORK, Sept. 6 .- Atrocities by Spanlards, as revolting as those committed by the Japanese at Port Arthur, have just been reported to the Cuban revolutionary party in New Yoak. Enrique Trujilio, editor of El Porvenir, received a letter yesmander-in-chief of the insurgent army. It dated "Headquarters in the field, Aug. 3," and sends details of the capture and recapture of the city of Baire, and the massacre of thirty-seven inoffensive Cubansmostly women and children—by the Spaniards under Commander Carrido.

On Tuesday morning, according Colonel Franco's letter, a company of insurgents under Jose Rabi, surprised the Spanish garrison, in the fortress commanding the city of Baire, killed more than seventy men and took fifty-six prisoners. They captured a large quantity of arms and persuaded the prisoners to enlist in the insurgent ranks.
