OUR COAST DEFENSES

of Secretary Lamont.

RAPIDLY PUSHING THE WORK.

All the Troops Now Supplied with the New Magazine Arms and with Smokeless Powder-The Expenditures for River and Harbor Improvements.

WASHINGTON, Nov. 27 .- Secretary Lamont's report of the operations of the war department for the year 1896 show total expenditures aggregating \$51,803,298, of which \$13,505,068 was for pay of the army, \$7,488,286 for subsistence, \$1,858.288 for regular quartermasters' supplies, \$820,726 for barracks and quarters, \$2,321,727 for army transportation, \$1,310,204 for clothing, \$1.356,884 for ordnance, \$2,867,464 for seacoast defenses, \$17,844,660 for river and harbor improvement, \$3,133,181 for national soldiers' homes and \$1,436,795 for salaries and contingencies in the war office at Washington. This last item shows under the same head for the year 1892. The aggregate appropriations for this department and turned back into the general fund of the treasury at the end of the last fiscal year was \$1,975,033. For the year 1895 it was \$1,764,467, and for 1894 it was \$1,387,922, an aggregate for three years f more than \$5,000,000.

Much of the report is devoted to a de tailed exhibit of the work accomplished and now under way on the coast defenses as ordered in 1885.

On July 1, 1893, of our modern defense but one high power gun was mounted. By July 1 next we will have in position seventy high power breech loading guns and ninety-five breech loading mortars of modern design, and by the following July, on the completion of work already under way or provided for, 128 guns and 153 mortars. A battery of two or three of these guns takes the place of the former pretentious fort, and is vastly more effective. A 12-inch mortar requires a powder charge of 105 pounds, and throws a filled projectile weighing 800 pounds over five

The defenses now under consideration Long Island sound, eastern and southern entrance to New York, Philadelphia, Baltimore, Washington, Hampton Roads, Wilmington, Charleston, Savannah, Key West, Pensacola, Mobile, New Orleans, Galveston, San Diego, San Francisco, the mouth of the Columbia river and Puget sound.

Secretary Lamont says his predecessors in office at the head of the war department had, during many years, the difficult task of arousing the public mind to a realization of the national deficiencies in the matter of coast defense. As the grown deeper, successive congresses have made more liberal provision for the accomplishment of the accepted scheme.

The total amount appropriated for sea coast defenses, including cost of sites, fortifications and armament since the adoption of the present scheme, is \$26,457,-160.33, of which \$9,350,000, or more than one-third, was carried by the act passed at the last session of congress.

Therefore, in submitting the estimates for another year, he feels that it is no no longer necessary to repeat the arguments that have been reiterated so many times. While earnestly inviting attention to the great work that yet remains to be done, it is also his fortune to have the more grateful duty of exhibiting the important results that have been actually accomplished, as well as the splendid progress which is now being made tovard the early completion of the work.

The armament of troops with the new magazine arms was completed in May, and the armory is turning out 125 rifles or carriages per day under the appropriation made last year. All the ammunition for small arms now made is supplied with smokeless powder of American manufacture and of satisfactory quality.

The total expenditures for river and harbor improvements ordered by congress during the year ending June 30, 1896, including those of the Mississippi and Missouri river commissions, was \$17,039,731.51. Including the amounts appropriated by the act of June 3, 1896, there was available or expenditure on rivers and harbors July \$26,020,974.79. The Mississippi river commission has decided to discontinue the plan to improve the river by bank protection and to adopt the plan of dredging channels in shoal places and maintaining with state and local co-operation an efficient levee system. With this change of policy the minority believe the function of the commission is ended and the work

should be turned over to the secretary of Under the new system established by Secretary Lamont the army has for the first time been paid monthly. Over \$14. 000,000 was disbursed, and the discrepancy between the money shipped and claimed to have been received amounts to only 27. The saving to the government by the system is about \$25,000 annually, and it appears to encourage economy among the men, as soldiers' deposits this year are over \$100,000 more than last year.

NEBRASKA IN A COATING OF ICE.

The Worst Storm in Years Swept Over Several Western and Northwestern States-Snow Drifts Ten Feet High in North Dakota. OMAHA, Nov. 28.—Telegraphic advices

from many points in Nebraska and South Dakota report a heavy snow and sleet storm accompanied by a high wind. In some places the loss of live stock will be heavy. About 100,000 sheep, besides many heavily forward, dead. Apoplexy was the hogs and cattle, are being fattened in Buffalo county, Nebraska. Three inches of rain fell there Thursday night. Yesterday it turned to snow and continued to fall heavily all day. Much of the corn is not yet husked, and the farmers will have to leave it out until spring. Winter wheat is in excellent shape. The greater portion of Nebraska is covered with a coating of ice, and in most places snow has fallen on top of this. In Omaha the streets are slippery and walking is difficult. No aceldents have been reported. The temperature has fallen 40 degs. in about twentyfour hours, and it is still growing colder. Wires are down all over Nebraska, and trains are running without the telegraph. At Chamberlain, S. D., the thermometer was below zero and a blizzard was raging.

Langdon, N. D.-The worst blizzard ever known in this country raged in this city yesterday. The snow is piled in drifts as high as the houses. All trains and traffic of every description is abandoned. There are rumors of loss of life, but nothing definite is yet known. At Williston N. D., it has snowed incessantly since Tuesday evening. The wind is blowing at forty miles an hour, and the temperature is at zero and falling. All trains are

Bishop Keane Will Remain in Rome. CHICAGO, Nov. 28.—Bishop J. J. Keane, ate of Washington university, passed through this city yesterday on his way to the east. He will, within a short time sail for Rome, where he will become member of the Roman propaganda. Some time since the vatican gave to Bishop Keane the choice as to whether he would prefer to remain a member of the American heirarchy or go to Rome, it being understood that he was to be made an archbishop in either event. Bishop Keans chose to become a member of the Roman propaganda. From present indications he will not return to this country after he

A BRAVE MOTORMAN.

Gang of Desperadoes. KANSAS CITY, Mo., Nov. 28 -- At midnight four men, led by Oscar Bridges, made an unsuccessful attempt to hold up and rob an electric car filled with passengers bound for Independence. The car carried many ladies returning from the theater with their escorts, and they became paralyzed with fear. Bridges was arrested after a desperate tussle with the motorman and was brought here. The other two men escaped, but were later lodged in jail. The police give out the names as Oscar Bridges, Eugene Ridgway, Ernest Ridgway and James Repine All are under 22 years of age. Eugene is a barber and Ernest is a professional high

The coolness and courage of Motorman A. T. Rollins and Conductor Lloyd Jack son doubtless saved the passengers from being robbed. Motorman Rollins said today that he thought at first that Bridges was joking, but when he saw the polished barrel of a 45-caliber revolver pushed against his breast and heard the order to 'hold up your hands'' repeated his hands

At this moment the robber glanced back into the car, evidently to see whether cure bids to be utilized in the construchis confederates were doing their part | tion of an immense steel plant in Japan, For a second his eyes were off the motorman.
