WHAT WOMEN NOW NEED.

More Red Corpuscles in Their Blood—
Paine's Celery Compound.

Mrs. Francis E. Willard, who has been attending the world's convention of the W. C. T. U., says that better health for women is today a far more urgent matter than when woman's suffrage was first granted.

She says: "What woman at present most needs is a better supply of red corpuscles."

From every section of the country, from Maine to California, come well-attested reports of women, bloodless, dyspeptic, nervous, seriously run down, and in many cases so weak as to be bed-ridden, who have been enabled to resume their places in the family circle and social life, healthy, robust, well-to-do women, by the aid of that great blood-maker and health-maker, Paine's Celery Compound.

Mrs. E. A. Ward is one of these fortunate women whom Paine's Celery Compound has saved from an ailing, unhappy, invalid condition, as her letter shows.

I recommend Paine's Celery Compound as beyond all question the only remedy that can be depended on to renew the vitality of feeble persons.

This settled confidence in Paine's Celery Compound is not a hasty belief, but rests in nearly every case on personal use or acquaintance with men or women who have been restored to useful health by no other means. The rapid change for the better in color, flesh and expression of the face is so unmistakable that repair of the wasted tissues might well be called a renewal of life.

The process by which Paine's Celery Compound is able to build up health in the run-down body is not hard to understand when one observes how rarely it disposes the bowels to act regularly, how it increases the capacity to take and assimilate food, and regulates the nerves all over the body.

The heavy, alarming pain in the back and joints disappears; the growing paleness and loss of flesh is stopped; and a bright buoyant feeling gradually takes the place of that unending sense of tired and depression.

Paine's Celery Compound is the exact remedy for that large class of feeble, thin-blooded, nervous, hysterical persons whose greatest need is a thorough refreshing of their blood with the red corpuscles which health and happiness in such large measure depend on.

The extraordinary virtue of Paine's Celery Compound to increase the proportion of red corpuscles in the blood is the cause of its great power over all blood diseases, rheumatism, neuralgia, kidney diseases, headache, loss of flesh and general run-down condition.

Wells & Richardson Co.,

Gentlemen—My greatest trouble seemed to be general weakness and all-over tired feeling. I am 66 years of age and I did not expect to be any stronger again, but I used four bottles of Paine's Celery Compound and was greatly surprised to find in a few days a better feeling than I have ever known before, and have not since felt the need of any further help whatever.

Very respectfully yours,
MRS. E. A. WARD.
