| THE CANNING FACTORY AND OUR FARM. | the canning factory and our farm.

ers.
The re-opening of the Canning factory is now an assured fact and on the 20th of this month, (January), that part of our eity where the plant is situated wil be all bustle and a scene of ac-
tivity. For the past several years this factory has been idle due to the repealing of the oyster law then in vogue by the General Assembly.
To say the repealing of this law allowing dredging was grave mistakeneeds no comment -time has proven the error. Its an old adage and a true one, "Time at last sets all things even." The Legislature of two years ago modified the bill, so as
to allow dredging upon a limited scale:to this modification is due the determination on the part of the proprietors of theoyster fac-
tory to start up again. The benifits of this factory to our town and this eastern section is far reaching. We speak from no jmaginary basis, but from ob factery Wus in operation several years ago. More money was paid out for labor while the plant operated, than by any two Every kind of business was more or less benifited. Homes, where desolation and want had
been dominant, at last had the clouds brushed aside and the smile of happiness rapidly took a firmgrip.
"If the oyster factory would only open." Could that Screech these quiet mornings at the canning factory, we would have better times," has often been said in our hearing, by some
laborer who is dependent upon the sweat of his brow and the exercise of his muscle, not only those in the lowly strata, but heard to come from others sta tioned a little higher in the walks of life as well. Our peo-
ple should rally as a unit and see to it that this prodigious enterprise continue to operate.
Our farmers and truckers can play a conspicuous part in this
drama if they frill. The canning factory can operate at least mine
months in the year if our farm months in the year if our farm
ers will bogin at once to ratise tomatoes peas, limr beans, sting beans etc. This scheme
will aot onls be a greas benitit tuour farmers, bat it will place
mones in their hands hittle the f.ctory will be placed on paying basis, and not depen
upon oysters alone to run. Our reporter interviewed M Ford in charge of the factory and he tells us, if you people will oniy raise regetables, your
tillers of the soil will find therr incomes will far surpass their sideration of course, the small amount of 1 ibor require 1 . Will our farmers and truckers heed what we say, will they aid. in eeping this factcry in opera. tion? We believe they will. We appeal to the good sen and judgmint of our people to s rike while the iron is Lot, and not procrastinate. Lets begin we will b: better paid for the
investment All will be benifited
and our towa boomed as it ought
to have been years and years ago.
The Laurinburg Exchange tells of an Eeatern Carolina planter who had been in the tobacoo business several years and had averaged $\$ 100$ per acre dur ng the whole time and of anoth er gentleman from the same sec-
tion, who rented his tobacco to a tenant and realized $\$ 56$ per acre for his portion. At that profitable business is the mos gage. This is very attractive to farmer wno raises cotton for cents and sells it for five

## THE PUBLIC SCHOOL FUND.

The Public School Fund of the county apportioned at the January session of the County Board f Education \$9,266,31.
This amount was divided as ollcws.
Richland Township, District $1, \$ 1,837,91$. Chocowinity Town ship, District 2, $\$ 1,171,10$. Wash-
ington Township, District 3, 8189,84,. Long Acre, Town ship, District 4, \$973,92. Bath Townohip 5, 81,438,78. Partego Town of Washington, $\$ 1,768,60$. It will be noticed that the apportionment for 1899 is much less than in 1898-the county difference being $\$ 1,213,81$. This s caused by a decreaser in the an list of property and polls sas such as railroads etc. The State in ' 98 gave us $\$ 7,05,78$. Nothing his year.

Burton Stilley, Sec. to Co. B'd of Ed.

## La Grippe Successfally Treated.

"I have just recovered from the second attack of la grippe this year," says Mr. Jas. A Jones, publisher of the Leade Mexia, Texas. 'In the latter Cough Remedy, and I think with considerable success, only being in bed a little over tw days against ten days for the
former attack. The second atformer attack. The second atbeen equally as bad as the firs but for the use of this remedy
as I had to go to bed in about with it, while in the first case I was able to at end to business down.'" For Eale at Tayloe' dharmacy.
