### The New Election Law.

We congratulate ourselves on being able today to give that part of the election law that will be of most interest to our people.

The provisions of the law are as follows:

1.—That the election for State and county officers shall be held on the first Thursday in August and every two years thereafter.

2.—That there shall be a State board of elections consisting of five persons elected by the legislature for a term of two years.

3.—That there shall be a county board of elections consisting of three persons, appointed by the State Board for a term of two years.

4.—That the State board of elections shall meet in Raleigh the first Monday in May, 1899, and organize by electing one of their number chairman and another secretary. Another meeting shall be held on the first Monday in April in each election year. Special meetings may be called when necessary. For their services the board shall receive four dollars a day and traveling expenses.

5.—That the county boards shall appoint all registrars and judges of election. Members of the county boards may be removed by the State board; and the county board in turn may remove any registrar or judge of election.

6.—That county boards must meet not later than the first Monday in May for organization, and for dividing the counties into precincts and fixing polling places.

7.—That before the next general election there shall be an entirely new registration. Among questions to be asked applicant is "whether he has listed his poll for taxation for the current year in which he applies for registration, and for the year next preceding. And if any applicant shall falsely swear he has listed his poll for taxation, he shall be guilty of perjury and punished as prescribed by law.

8.—That the registration books shall be kept open for twenty days and closed on the second Saturday before the election. On each Saturday during this period the registrar shall go to the polling place to register voters. On such days the books shall be open for inspection by voters of the precinct. There shall be no registering on election day, but voters may be challenged.

9.—That on or before the first

Monday in July the county board shall appoint two judges of election for each precinct.

10.—That to prevent disorder as many as three special officers may be appointed by the registrars and judges of election.

11.—That there shall be one ballot for all State officers, one for judges of the different courts, one for members of the the General Assembly, one for county officers and one for township officers. That all ballots for each of these classes of officers shall be the same size, on white paper and without device. The size of the ballots must be prescribed by the State board of elections. Tickets in the wrong box shall not be counted.

12.—That members of the several boards of election shall constitute the board of county canvassers, which shall meet at the court house the second day after the election, canvass the returns and declare the result at the court house door.

The remainder of the act provides for canvassing the returns for State officers, Congressmen and electors, prescribes penalty for performance of the duties set out for officers of the election, and makes other general regulations.

### All Records Broken.

The Raleigh Correspondent of March 9th says:

The legislature broke all records as to volume of business. The Democratic members say: "We had to undo the legislation of the fusionists since 1893 and then to do new work besides." But the great volume of work contains much which need never have come before the legislature. There are perhaps 500 charters and private acts. Thursday an effort to have these left out of the printed volumes signally failed. It was learned at the office of the secretary of state today that the total number of acts ratified approximates 1,300.
