News in General.

The weight of the metal contained in the \$3,000,000 sent by the United States to pay off the Cuban army is forty-eight tons.

Gen. Wheeler called on the President recently concerning his future status in the army. Subsequently he said that while the question of his remaining in the army had not been definitely decided, it was probable that he would not remain in the service. He thought the President would be unable to find a place for him, and he was not rushing the matter.

"But I would like to remain in the service," he said with animation, "and be sent to the Philippines, where there is some fighting. I would not care so much to stay in the army if I had to remain in this country."

The latest dispatches from Porto Rico, say the island is on the eve of a rebellion and Gen. Henry has asked the department to double the United States forces on the island.

Dr. R. H. Lewis Secretary of State Board of Health, says there is now small pox reported in seventeen counties of the State.

At the Meeting of the Cuban Assembly a resolution was passed by a vote of 26 to 4, deposing Gen. Gomez from the command of the Cuban army. In the debate that followed Gomez was called a traitor and some members declared he

ought to be shot. The dispatch further says, if it were not for the presence of American troops the Cubans would be fighting among themselves.

Admiral Higginson and Lieutenant Ward who were recently confirmed for promotion by the Senate, have written a letter to the Secretary of the Navy declining the honor and asking to be restored to their former position. The letter of Mr. Higginson is as follows:

"Washington D. C., March 10, 1899.

"Sir: I respectfully request to be allowed to resume my former number on the naval list after Rear Admiral Kempff. While deeply grateful to the President and yourself for my nomination for work done off Santiago, I do not regard my own services as so conspicuous as to warrant my advancement while the other commanding officers nominated at the same time as myself go unrewarded. They were a gallant band of naval officers and certainly deserved well of their country, and if their services are to go unrecognized, I desire to share the same fate.

"Very respectfully,
 (Signed) FRANCIS J. HIGGINSON
 "Rear Admiral U. S. N."

The Latest From Manila.

Manila, March 11.—Extensive preparations are being made for a general advance of the American forces. The movement will probably take place soon. All is quiet, however, along the line.

At daylight the rebels were caught working enfilading a trench at Calocan and were shelled by a battery.

Desultory firing also took place at San Pedro Macati.

The United States cruiser Charleston has relieved the armed transport Buffalo, off Paranaque.

The last batch of Spanish soldiers, numbering 885 men, excepting a few who are in the hospitals, were embarked on board the transport Buenos Ayres today.

George W. I have used one 50-cent bottle and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale at Taylor's Pharmacy.

Spring = Neckwear.

IMPERIAL SCARFS.

They are well named. In size they are great, and they will tie once, twice or thrice over, and produce a new effect every time you tie it, vary the formation by a kink here, a wrinkle there to every whim of your taste. The silks just to hand are the richest in material and pattern that we have yet secured. The designs are striking and exclusive and include some very bold and striking figures.

KNOTTED SCARFS.

Don't hesitate to wear a scarf ready-tied if you do not want to bother with tying one yourself. Art often excels in this respect. The highest skill in Neckwear business is exercised in making up scarfs in natural or graceful knots. Nothing handsomer can be imagined than the new Sailor Knots and Spring Puffs just to hand. They combine the dainty and the opulent in form and the richest lot of silks we have ever shown.
