TO INTRODUCE NEW MEN

A Plan Among Coke Operators to Escape the Existing Difficulty.

A dispatch from Pittsburg, Pa., says: A plan is being considered by the members of the coke syndicate to introduce new men in the coke region. Several meetings of the syndicate operators have been held in Pittsburg and the matter is being thoroughly canvassed. They claim that they are daily receiving applications from scores of first class men who are willing and ready to go

VISITED BY ANOTHER EARTH-QUAKE.

A Subterranean Roar and a Shock-People thrown from Their Beds.

A heavy earthquake shock was felt in the City of Mexico, and throughout the valley at 2:50 o'clock Sunday morning. Saturday afternoon had been extremely warm-infact, the weather for the last four days had been extraordinarily warm for that region, which generally enjoys a very mild degree of temperature even in summer. NASHVILE won twelve straight ere New Last Saturday afternoon there were several whirlwinds in the valley and in the city, carrying clouds of dust and fine gravel high in the air. Old citizens, with the memory of previous earthquakes in mind, predicted a

shock, and they are now regarded as prophets. Atexactly 2.50 o'clock there was felt, not only in the city, but in the suburban towns, a violent shaking of the earth, or sort of lift-Professor Swing, of Chicago, says that | ing motion, which lasted five seconds. did not go to bed again. Reports received by Governor Ceballos, of the Federal District, do not show any fatilities as the result of the earthquake, and the denizens of suburban towns report about the same sensations as were felt by the inhabitants of the metropolis. At the School of Mines Secretary Ugalde reports that the seismic instruments showed that a heavy shock had taken place. These instruments are selfregistering and prove that the shock of Saturday morning was a severe one. Doors were opened all through the School of Mines and the night watchnan reported the sway-

ing of that enormous building. The shock is the topic of conversation everywhere, and the people all have peculiar experiences to report. In the School glass, said: of Mines the water in the swimming tank used by the students flowed out over the courtyard. Clocks everywhere were stopped and there was general consternation. At the office of Governor Cebailos it is reported that the shock was much more

severe than that of 1882. The heaviest shock of earthquake of this century occurred in the city of Mexico in 1858, when many persons were killed. The has signed a colored twirler named Robert shock, which happened in the night, was fol-Higgins, of Memphis, Tenn. Earthquakes in Arizona and Texas, Another earthquake shock occured at El Paso, Texas, on Sunday, at 12:30 o'clock. The United States signal officer, T. W. Twaddell

says the shock lasted about ten seconds, and that its intensity was about equal to that of the second shock of May 3. A second shock was distinctly felt by everybody and people rushed into the streets. There was quite a severe shock of earthquake at Nogales, Arizona, at about 1 o'clock

Monday afternoon which created much excitement, although no damage was done. Ten minutes afterwards there was another shock, but it was a very light one. Sunday evening a terrific dry cyclone

visited Nogales. It came from the mountains great many Mexican buts and unroofed several other more substantial buildings. No one was injured.

MURDERED IN COLD BLOOD.

William Showers Buries the Bodies of His Grandchildren in the Back-Yard.

A dispatch from Reading, Pa., says: William Showers, a cigarmaker aged 59 years, was arrested at Annville, Lebanon county, Tuesday, charged with murdering his two grandchildren, William and Samuel, aged respectively three and five years. The childred were the illegitimate offspring of Showers's deceased daughter. Two weeks ago he drove into the mountains with the children in his wagon and returned without

Their bodies have been found buried in Showers's yard with ropes around their necks. It is said that he was engaged to be married to Elizabeth Sarge, but she insisted that the children should be gotten rid of by placing them in charge of some person. Failing in this it is believed that Showers re-

sorted to murder. The coroner has investigated the case, and this evening the coroner's jury rendered a verdict that Showers had murdered the boys. Showers has since confessed the crime. There is great excitement in the vicinity of Showers' home, and threats of lynching are freely made. When found the bodies of the boys were nude except their night shirts, showing that they had been taken from bed and inurdered in cold blood. A dispatch from Brownsville, Texas, says: At dawn Monday morning, in the midst of a driving rain, the Balsa Cut Off, above Santa Maria, on Mexican territory on this side of the river, and the refuge of about thirty despe ate bandits, thieves and smugglers, was raided by forces from both sides of the stream. Sheriff Breto, of this county, and Depu y Clansner, of Hidalgo, with about tifty ranchers and deputies, entered and drove out the bandits, who met with a warm reception on the other side from a detachment of the Third Calvary under command

of Col Nieves Hernandez. A sharp fight ensued, in which Col. Hernanon the east side of the town and demolished a | dez was wounded in the hand, one of his men killed and another wounded. The blow is, however, a severe one to the disorderly and criminal element which had gathered in these cut offs, as they believed, safe from pursuit, ripe for any revolutionary plot, and maintaining themselves by robbery and

plunder. M'GLYNN ON SHAM RELIGION.

A dispatch from New York, says: The Academy of Music was crowded to the doors Sunday night, the occasion being the regular weekly meeting of the Anti-Poverty Society. The chief speakers were Dr. McGlynn and Henry George. "We want the earth," said Dr. McGlynn. "We want the land because we want the Kingdom of heaven, because He has given it to us. We want it, not so much as a right, but as a duty, because He has laid it before us, as a duty never to surender it." Speaking of labor and its blessedness, he spoke of Christ as an humble laborer, and His birthplace was not a marble palace. The object of the new crusade was to really preserve the sacred rights of property, to enforce the commandment, Thou shalt not steal." Death of a Negress Twice Found

Guilty of Murder. A dispatch from Little Rock, Ark., says: The death is announced at Monticello of a colored woman named Matilda Williams, who has had a remarkable career. In 1883 her husband, Calvin Williams, was murdered, and she, together with Cæsar Pitts and William Johnson was arrested for the crime. The trio were found guilty and sentenced to be hanged. Johnson was duly executed. He confessed on the scaffold that the woman

and Pitts had instigated the murder. The two latter appealed so the Supreme Court. New trials were granted. Pitts was again convicted and sent-need to the penitentiary for life. Mrs. Williams was for the second time sentenced to be hanged. Another appeal was taken and granted, a new trial resulting in a l fe sentence to the State prison. A third appeal resulted in the judgment of the lower court being reversed and the woman discharged after an imprisonment of nearly three years. She had since been an object of dread to the colored people in the vicinity and died in abj ct poverty.
