

How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficacy. NEVER BEEN DISAPPOINTED.

As a general family remedy for dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the stomach and bowels.

W. J. McEneaney, Macon, Ga.

DIRECTORY.

WASHINGTON LETTER.

Mr. Harrison and his cabinet have had a time to-day over the present and prospective condition of the Treasury. They have got a temporary breathing spell, and the deficit which existed a few days ago has been succeeded by a small available cash balance; but after the first of July calls will begin to be made for cash to meet the appropriations made at the last session of the billion dollar Congress, and the question is, where to get the money to pay them? The revenues of the Government both from customs duties and internal revenue are falling off in an appalling rate. The extension of the \$50,000,000 4% per cent. bonds, while a little help, can hardly be considered a drop in the bucket when the amount that will be needed is considered.

Something has got to be cut off that's as certain as anything can be. But to decide what is driving the administration wild. All this month thousands of pension certificates, all ready to be issued, have been piled up in the Pension Office in order to stave off the payment of the money for which they call. An apparent gain of a few million is to be made changing the form of the Treasury Statement so as to show the money on deposit with National banks as "available cash" in the Treasury, and Secretary Foster is credited with intending, if he can get the Attorney General to give an opinion that it will not be illegal, to issue certificates

for general circulation against the twenty-odd million dollars of fractional silver in the Treasury. It looks at this time very much as if the Democratic House of Representatives will find it necessary to investigate some of the contemplated financial juggling, and as if there was going to be serious trouble, perhaps impeachment for somebody.

So many of the candidates for Speaker of the House have been in town this week that everybody was saying: "Well, the next Speaker of the House is in town." The sentence was originated by a bright newspaper man when McMillin joined Mills, Springer, Bynum, Wilson and several others already here.

Representative Breckenridge, of Arkansas, has some interesting views of the present political condition of the country. He says: "At present the condition is that of general unrest; for thirty years the public mind has been clouded by the smoke of battle; public sentiment in all matters of politics has been more or less influenced by the remembrance of the war, and prejudice has entered into every process of reasoning. Now the people are beginning to think for themselves, and economic questions, not sentiment, are occupying their attention. The people are not satisfied that things should stay for all time as they are; they know that there's something wrong and they are determined to write it. They will go at it awkwardly, not being used to dealing with such questions, and they will make some mistakes and do things that will be hurtful, but in the end they will accomplish the reforms they seek, and I can see that the final result will be a triumph for Democracy, which is and has always been the party of the people."

Few people could, guessing off handed, come within many million dollars of the amount paid out in pensions by this Government since July 1st, 1867. The figures were this week made up at the pension office and here is the total \$1,284,716,000. Just think, one billion, two hundred and eighty-four million, seven hundred and sixteen thousand dollars. If this money was all in fifty dollar bills the average man's life would not be long enough to count it, not even if it were possible for him to work continuously at the task.

Col. Robt. C. Ingersoll and Mr. J. W. Mackay, known to fame as one of the Bonanza Kings, were closeted with Mr. Harrison for nearly two hours one day this week, and there is reason for believing that the subject under discussion was silver. It is something puzzling why these gentlemen should have attempted to surround their visit to Washington with so much mystery. At the hotel where they stopped the name of neither of them appeared on the register. Such a precaution was absurd when both of them are well known to every newspaper

man of any prominence in Washington. "Lige" Halford, the President's private Secretary, is now regarded as a political boss. The Commissioners of the District of Columbia, one democrat, one republican and one Army officer, who is supposed to have no politics, decide to remove the Health office, a republican against whom charge had been preferred, and to appoint in his place a democrat, and their intention was announced in the local papers before it was officially consummated. "Lige" called a halt because the new man was a democrat, and Mr. Harrison when he arrived the next day endorsed "Lige," and no charge was made.

VELOCITY OF THUNDER STORMS.

The rate of travel of thunder storms has been studied by Herr Schourock from the record of 197 such storms in Russia in 1888. The velocity is found to have varied from thirteen to fifty miles an hour with a mean of 28.5 miles an hour in the hot season, and increasing to thirty-two miles an hour in the cold season. It was least in the early morning, increasing to a maximum between nine and ten P. M. The storm turned most quickly from southwest, west and northwest.—Ex.

EARTHQUAKE SHOCKS.

CHARLESTON, S. C., June 23.—At 11:17 1/2-night a slight shock of earthquake occurred here. The shock was very slight and no damage was done.
