

YORK ITEMS

What's to matter with NEWMAN'S our sister town? It seems she is always trying to give YORK a round, by jolting her news items down.

We notice last week she had Mrs. Lucy Perkinson's name, when every-body in the community knows, even the weak and insane. That Mrs. Lucy Perkinson lives only a few YARDS from York over on the hill.

So now my good Correspondent get to work in earnest, keep down in the heart of your town. When any-body from YORK or other towns pass by, just jot it down. Put please remember and don't cross over the line, for from Mt. Auburn to Nutbush is mine.

When you see Aunt Betsy's column full, and running over the brim, do your uttermost the next week to catch up with them, but don't stand on the suburbs of York with a deep sigh and mean, for the cheerful grin, will let you in where the kicker is never known.

Get your news items off early. The Editor will appreciate your promptness.

Kirstin Stump Puller One Man — Horse Power

Every Kirstin is guaranteed for 15 years, saw or no saw. Your money back if the Kirstin does not live up to its promise. The Kirstin method clears land from 10 to 50 percent cheaper than any other. We guarantee this, too.

For nearly a quarter century the Kirstin Horse Power Stump Puller has proved its superiority on Southern stump lands. Thousands of Southern farmers have been started on the road to prosperity by a Kirstin.

It is designed for Southern work and will pull anything it tackles, be it a thick green pine, a deeply imbedded tap root or a field of hundreds of heavy stumps. The new triple power and automatic take-up enable it to perform the heaviest work with rapidity, certainty and without strain on man, horse or machine.

The One Man Puller gets the biggest stumps, too. Horses unnecessary. Double leverage gives you a giant's power; a push on the handle means a pull of tons on the stump. Clears an-acre from one anchor and clears it ready for the plow.

Have used another well-known make of puller but don't like it as well as my Kirstin! The Kirstin triple power method is much better. I know because I have cleared over 100 acres, and if E. Wrigman, Enterprise, Ala.
