Entered at the Post office at Warrenton, N. C., as second-class matter under Act of Congress, March 3, 1879.

The Chamber of Commerce has been in hibernis? This unusually warm weather should produce action.

The Allies, it is hoped, knocked all the germ from Germany, but it seems that the Bolsheviki is finding a fertile field.

"Billy Sunday is lambasting sin", reads the headline. Yes, siree, Billy is a holy terror when he starts in to scalp the Devil, and he fights for a knockout.

On the last page of this issue the reader will find "The Shot Gun" column conducted by one of the County's citizens. This column will be run in each Friday's edition, and we trust it will prove a welcome addition to the paper.

WHY NOT NOW?

If the town of Warrenton can improve its streets and build a modern hotel without any financial set back, and this it can unquestionably do, why not have these improvements now?

If the citizens think so, may we hear from them. If there are any objections, give those interested an opportunity to answer. Let us have action immediately. "Let's go, 1919".

WE WILL WELCOME YOU

Warrenton feels a sympathetic chord pass through its nature at the loss of Littleton College by fire. This is a misfortune to the sister town and to the cause of education.

The college will soon again commence its labors, we feel confident, and we beg to suggest that Warrenton be chosen as the new field of educational activity. We feel that the need for an educational school of this type demands that it could most profitably be built here. The town can afford good dormitories, water and sewerage are advantages, good streets command consideration, and the town will be most anxious to have the College built here.

These advantages are not to be overlooked in constructive education of the modern day.

AMERICA AT THE PEACE TABLE

No American but who has read with pride the achievement of the doughboy, the Marine, the blue-jacket in the field of action which brought the war to a close. The part of American arms will remain as glorious as the heritage of freedom it gave the world is verdant.

The visit of the American Peace Commission to Europe to perpetuate into a League of Nations the advantages bought with blood and the Commission's wholehearted welcome by our allied brothers is also gratifying and significant of the tide of right and practical idealism which takes the world from the shoulders of Atlas and sends it through space upon a higher plane. The ideals which were shaped in Washington, by the head of a Nation whose motives were not selfish, have by dint of their justice taken hold of the world and in their train it is gratifying to see Lloyd George, Premier Orlando and Clemenceau march endorsing enthusiastically.

The details of the Conference in session at Versailles are many, the conclusion of a just peace will not be the outcome of a few days but of weeks, but we may rest assured that the League of Nations will be a reality; that in the future the possibility of war will be remote, and that the world will have an era of good will, prosperity and happiness which it never before has enjoyed.

"I HAVE been using Doctor Caldwell's Syrup Pepsin for more than seven years. I believe it saved my little granddaughter's life, as she had such terrible spasms, caused by the condition of her stomach, until we gave her Syrup Pepsin. Our family thinks there is no remedy like Dr. Caldwell's Syrup Pepsin for the stomach and bowels."

(From a letter to Dr. Caldwell, written by Mrs. C. F. Brown, 1012 Garfield Ave., Kansas City, Mo.)

Our Business Is Growing

THERE IS A REASON

The sales of our store last year were by far the largest in the history of our business and we know that our sales could not have been so large unless we had proved to the public that we give them the best service and the best goods for the least money. The volume of business which we do should be conclusive evidence that our purchasing power is hard to equal. Goods well bought are one-half sold. This together with the fact that we believe in doing the volume of business, making small profits on each sale rather than to make larger profits and fewer sales are some of the reasons why our business is growing. We are determined to do all in our power to make it profitable and pleasant for you to trade with us.
