## 4-2 BILLION VICTORY LOAN

LAST POPULAR LOAN LESS THAN WAS EXPECTED

Rate 4 3-4 For Partially Tax Exemption Notes, Convertible Into 3 3-4 Exempt; Oversubscriptions To Be Rejected.

Washington, April 13.—Terms of the Victory Liberty Loan were announced today by Secretary Glass.

They are:  
Amount, \$4,500,000,000; oversubscriptions to be rejected.  
Interest, 4 3-4 per cent for partially tax exemption notes convertible into 3 3-4 per cent notes wholly tax exempt.

Maturity four years, with the Treasury reserving the privilege of redeeming the notes in three years.

The 3 3-4 per cent notes, to be issued later, also may be converted subsequently back into 3 3-4 per cent notes. The 4 3-4 per cent securities are to be exempt from State and local taxation, and from normal rates of Federal income taxes. The 3 3-4 per cent securities are exempt from all Federal, State and local taxes except estate and inheritance.

Loan Smaller Than Expected.

The size of the loan was much smaller than had been anticipated by most financial observers, who looked for an issue of about \$6,000,000,000, particularly in view of Secretary Glass' past statements that the loan would be five or six billions.

This will be the last Liberty Loan, Secretary Glass explained, although there will be other issues of government securities to finance belated war expenses. These will not be floated by popular campaigns.

Nothing to Maintain Market Prices.

None of the past issues of Liberty Bonds are convertible into Victory Loan notes, and there are no specific provisions in the terms of the Victory issue serving directly to maintain market prices of past issues.

Selling Campaign.

In many communities the selling campaign already has begun actively, without formal acceptance of subscriptions, said reports today to the Treasury, although the official opening date is April 21. The drive will continue three weeks until May 10.

Statement by Secretary Glass.

"In fixing the terms of the issue," said Secretary Glass' announcement of the Victory Loan, "the Treasury has been guided largely by the desire to devise a security which will not only prove attractive to the people of the country in the first instance, but the terms of which should insure a good market for the notes after the campaign is over and should not affect injuriously the market for the existing bonds of the Liberty Loans."

"This will be the last Liberty Loan. Although as the remaining war bills the presented further borrowing must be done, I anticipate that the requirements of the government, in excess of the amount of taxes and other income can, in view of the decreasing scale of expenditure, be readily financed by the issue of Treasury certificates from time to time as heretofore which may be ultimately refunded by the issue of notes or bonds without the aid of another great popular campaign such as has characterized the Liberty Loans."

WAS APOSTLE OF THRIFT

Nestling peacefully in the heart of the great commercial district of Philadelphia is the old Friends' burying ground in which reposes the remains of Benjamin Franklin, scientists, philosopher and apostle of thrift, and his wife Deborah. The grave of Franklin is of timely interest to Americans in that the one hundred and twenty-ninth anniversary of his death occurs April 17.

Each year the thrift doctrine of Benjamin Franklin are becoming more forcibly impressed upon the American people. The government realizes the value of Franklin's benefactions to mankind, and has honored him by placing his likeness upon the 1919 issue of War Saving Stamps.

January 17, the nation celebrated the 218th anniversary of the birth of the philosopher-inventor.

### Agricultural News From County Agts

The Girls' and Boys' Agricultural Club will meet at Creek School Tuesday April 15th at 3 p. m. A special program has been prepared.

The people of Ellington Community in Nutbush township will meet at the school house on Wednesday April 16th and organize a Community Club. This community is expecting to hold a fair this fall.

On Thursday afternoon at three o'clock the Girls' and Boys' Agricultural Club will meet at Wise High School. An appropriate program has been arranged.

The County Board of Agriculture met at the Court House Saturday and discussed the needs of the county along agricultural lines. The men discussed the need of growing more hay in the county. Three carloads of hay were sold in Warrenton Saturday and a great per cent of it went to the country. This should not be and steps are to be taken to produce more hay in the county.

The importance of screening all homes against flies and mosquitoes was also discussed. It is hoped that many sections will see to it that every home in the entire community is screened. The idea is for a community to start one particular line of improvement and stick to it until the desired results have been obtained.

It is hoped that four strong community fairs will be held this fall in different sections of the county. Believing that no institution is of more importance educationally and socially than the agriculture fairs we expect to have much interest taken in this line of extension work.

The Home Economics Department of the Woman's club met in the Home Demonstration Agents office last Tuesday at 4 o'clock. Fourteen ladies were present. Mrs. Will Connell, Chairman of the department presided. Miss Annie Lee Rankin made a short talk on "The Days Food" and then demonstrated quick mayonnaise with corn oil. It was decided to have regular meetings of the club during the summer months.

To make quick mayonnaise be sure that all ingredients and bows are of the same temperature. To the well-beaten yolk of one egg add two teaspoonfuls of vinegar. Beat thoroughly, then pour in the oil (about one cup) beating all the time, until it is the desired consistency. Add 1 tsp salt and a little cayenne. This dressing requires from three to five minutes to make. If it should separate add a small piece of ice or one teaspoonful of water and continue beating.

Farmers who are spraying their orchards this year should not overlook the second apple spray. The mixture to be used is one gallon of commercial lime-sulphur to 50 gallons of water, to which has been added 1 pound of powdered lead arsenate, or two pounds of paste arsenate.

This spray is to kill the codling moth which makes the wormy apple and to control certain fungus diseases (Continued On Page Four)

### Bickett Asks Aid On V-Loan

Pastors and All Public Spirited Citizens To Throw Weight of Influence Behind Move

"I beseech all ministers of the Gospel and all men and women of every class and condition who have faith in the final preservation of moral values to enlist in the great Victory Campaign to the end that our national honor may be redeemed and our destiny secured," said Governor T. W. Bickett Saturday in a proclamation to the people of North Carolina in the interest of the Victory Loan Campaign which will start April 21st and continue to May 10th.

The Governor's proclamation follows:  
"Honor is finer than honesty, as sentiment is higher than the thought. There is scant virtue in merely keeping within the law.

"The fear o' hell's hangman's whip, To hand the wretch in order; But where ye feel your honor grip, Let that aye be your border."

"In the call to buy Victory Bonds honor grips hard. To achieve the victory we pledged our lives, our property and our sacred honor. The pledge of life has been fully redeemed. The blood cost of victory was paid with solemn pride. To fail or falter in meeting the money cost would immediately brand us with infamy and ultimately mark us for destruction. Our sacred honor drives us to offer our property as freely as our soldiers offered their lives. They fought a good fight. We must keep faith, or wither in fires of self contempt.

"The Imperial German Government assessed that a solemn obligation was but a scrap of paper and that Government has been assigned to the scrap heap of civilization. "God is not mocked" and this nation will surely become as Nineveh and Tyre if we keep back the price of our redemption. No nation can survive that advertises to the world that it holds money dearer than manhood, that while it was willing to sacrifice the only son it cannot spare the firstlings of the flock.

"I beseech all ministers of the Gospel and all men and women of every class and condition who have faith in the final pre-erance of moral values to enlist in the great Victory Campaign to the end that our national honor may be redeemed and our destiny secured.

"Done at our city of Raleigh this 4th day of April in the year of our Lord, one thousand nine hundred and nineteen, and in the one hundred and forty-third year of our American Independence.

T. W. BICKETT, Governor.

"By the Governor: Standford Martin, Private Secretary."

#### FARMERS—BUY BONDS?

Farmers have been told so often that they are the backbone of the nation's prosperity that they sometimes grow tired of hearing the phrase repeated. But this year the words have more than ordinary significance.

It costs money to raise and transport the produce of American fields and farms. The farmer made money; he received higher prices for his crops than had ever been paid before in the history of the country.

It is true that the War has been gloriously ended. But the job has not been ended.

When the American puts his hand to the plow he does not look back. When he puts his name on a note he makes good. It is the American way. And nobody doubts that the American people will make good on the Victory Liberty Loan. In entering the War they put their name to a promissory note to their government which is about to fall due.

These words are just a reminder of obligations. The farmer has prospered, in some cases even beyond his dreams. And prosperity is coming to him in the future in even greater measure. The world must come to America for food. The War is over, but the job is not. America will finish it in true American 100 per cent style.
