

## MAKES PLANS FOR VACCINE

### DR. A. McR. CROUCH MEETS WITH HEALTH OFFICER

#### Interested County Officials and Dr. Peete Map Schedule To Carry Anti-Typhoid Vaccine To Every Community.

Dr. A. McR. Crouch, of the State Board of Health, was in town Saturday in conference with County Health Officer C. H. Peete and other officials regarding the anti-typhoid campaign which is to be launched here beginning Thursday, June 12th.

The gentlemen present perfected a schedule which will bring the vaccine to every community four times—three are necessary for perfect inoculation, the fourth time is provided in case one of the appointments is missed. This great work is being launched this year in thirty North Carolina counties, and the return of the opportunity to Warren after four years is welcomed. It is expected that those inoculated in the last campaign will again undergo this simple, painless and entirely safe preventive and that a much larger per cent. of the county's population will take this treatment.

The treatment is at the expense of the county. The State Board of Health, however, is offering for the sake of stimulating interest, free treatment to the citizenship of that county which has the largest per cent. of its population inoculated. It is expected that Warren, perfectly satisfied with the results of a prior dose of the vaccine will make a strong bid for this prize. Sentiment everywhere is strong for the approaching campaign.

### IT'S BLOODY WAR

(Selected and Contributed)

I was a simple country boy,  
I lived out on the farm;  
I never even killed a flea,  
Or done nobody harm.  
It's bloody war, it's bloody war.

One day the Sheriff caught me,  
He says, "Come with me my son;  
Your Uncle Sammy needs you,  
To help him 'tote' a gun."  
It's bloody war...

They took me to the court-house,  
My brain was in a whirl;  
And when the doctor passed on me,  
I wished I'd been a girl.  
It's bloody war...

The local board says to us boys,  
"What can you fellows do?"  
I says, "I'll be the general,  
If it's all the same to you."  
It's bloody war...

They took me to the train next day,  
The crowd it was immense;  
I never could get with my girl,  
But I kissed her through the fence.  
It's bloody war...

Some of the boys along with us said,  
"We'll join the 'Infantry';"  
I says, "My motto's safety-first,  
Me for the Q. M. C."  
It's bloody war...

When I first landed at the camp,  
I certainly did feel blue;  
My sergeant says, "Cheer up, old boy,  
We'll make a man of you."  
It's bloody war...

Now, when my captain saw me,  
He "cussed and cussed" with him;  
I guess he thought my local board,  
Had played a joke on him.  
It's bloody war...

They gave me a khaki suit,  
Some leggings, and some shoes;  
My captain says, "Dress up in these,  
And then I'll cure your blues."  
It's bloody war...

The straw was full of briars,  
That was in my sleeping bag;  
My captain chewed tobacco,  
But the sergeant chewed the rag.  
It's bloody war...

They fed me on potatoes,  
And beans, three times a day;  
It must be all the hogs are dead,  
And the hens, they never lay.  
It's bloody war...

I asked the corporal of the guard,  
For sugar for my tea;  
The corporal told the sergeant,

### MISS EULA LEE PASCHALL

daughter of Mr. John Paschall, of Smith Creek, who has returned to the county after nearly a year abroad in the Nursing Service of Uncle Sam.

And he put me on K. P.  
It's bloody war...

I had to do just lots of things,  
And that's what worried me;  
I couldn't understand how all such  
stuff

Would help whip Germany.  
It's bloody war...

They punched my poor arms full of  
holes,

They vaccinated me;  
The Doc thought it was funny,  
But the joke, I failed to see.  
It's bloody war...

My arm swelled up my head it ached,  
And I was sick all day and night;  
The sergeant says, "Go see the Doc.  
And then you'll be all right."  
It's bloody war...

The doctor marked me duty,  
And I was sick as I could be;  
All I could say, was, "O Lord,  
Why hast thou forsaken me?"  
It's bloody war...

Fall out and police up,  
Was what I heard each morn;  
It's not so hard, but boys,  
I'd rather go home and hoe corn  
It's bloody war...

They tried to teach me how to drill,  
I did the best I could;  
But my captain told me to my face,  
My head was made of wood.  
It's bloody war...

The sergeant lined us in a row,  
"Forward," I heard him yell;  
I stepped off on my right foot,  
And my captain says, "O Hell."  
It's bloody war...

It didn't take me long to learn,  
Just what I had to do;  
And now I know beyond a doubt,  
What Sherman said is true.  
It's bloody war...

They sent me way out on the range,  
To hear the bullets sing;  
I shot and shot for one whole day  
And never hit a thing.  
It's bloody war...

My captain said to "shott at will,"  
I says, "Which one is he?"  
That made my captain angry,  
And he fired his gun at me.  
It's bloody war...

They moved me away from camp,  
I landed o'er in France;  
I didn't like the idea much,  
But thought I'd take a chance.  
It's bloody war...

Now when they put me on the boat  
To take me "over there;"  
They said I would get sea-sick,  
But I says, "I don't care."  
It's bloody war...

I hadn't been out very long,  
Until I changed my mind;  
For when you once get sea-sick;  
Your best days are behind.  
It's bloody war...

An officer came up to me,  
Says, "Son, you're looking pale;"  
I says, "Sir, don't look at me,  
Just lead me to the rail."  
It's bloody war...

I fed the fish both day and night,  
While I was out at sea;  
When I return, those same fish  
Will be waitin' there for me.  
It's bloody war...

Now when I struck that foreign shore,  
I looked around with glee;  
But rain and kilometers were  
All that I could see.  
It's bloody war...

They put me right out on the front,  
I was right down in the dirt;

## U. S. Business Outlook Fine

### OPTIMISM ONLY NATURAL

#### Future of America Bright With Certainty of Increased Trade of the Entire World

From all quarters of the country the most optimistic reports regarding business conditions are continually coming in. The outlook is most encouraging in practically every line. The spirit of optimism is in the air, and it is the confident belief of leaders in industry and finance that an era of unprecedented prosperity is ahead.

Even now many public and private undertakings are being crowded to completion. There is no difficulty in financing proper improvements, and an ever-broadening market for bond issues reveals the temper of the times. Enormous good road construction is in hand and is being planned, work with the entire country appears to be deeply concerned. There is a derth of dwelling-houses all over the land, and vast building activities cannot be long delayed. Everywhere there is a lessening in complaints of unemployment, and the prediction is freely made that before the year is out there may be an actual shortage of labor.

In all this present activity and optimism for the future the South has taken a leading part. The Construction Department of the Manufacturers Record bears testimony to this fact, for the construction news we publish each week giving projects and undertakings planned and under way, has more than doubled in space since the armistice was signed.

There is room only for optimism in a survey of the field.

## For Tarheels In New York

### HALL OF STATES ASK AID

#### Wounded Soldiers Need Reminder of Love From Down Home As They Convalesce

27 West 25th Street,  
Telephone Farragut 8800  
New York City.

Dear Sir:

I know it will be of interest to you to know what is being done in New York for the boys of North and South Carolina.

Have you heard about the "Hall of States?" It is under the supervision of the Government, represented by the New York War Camp Community Service. It is the largest institution of the kind in New York. It really is a clearing house for every problem of the returned soldier.

As briefly as possible, I will give you an outline of what is being done, but first I think I should tell you that I am running the Carolina desk mainly on my own purse.

War Camp has given us a fine old house, where forty-three States are represented. We have an employment bureau where jobs are listed for men from all over the country. To give you an idea of this activity, I have only to tell you that in three weeks we have secured three thousand jobs. If you have an opening for a Carolina man, will you not write me here about it?

Wounded Southern men, numbering several thousand, have been and are being brought to New York City—a large number being Carolinians.

We see to it that every man in the hospital receives a welcoming note the day after his arrival, an invitation to call at the Hall of States, notice that, if he is confined to the hospital, we will call on him, and that we stand ready to help him get well, go home and get a job. The effect of these personal visits, the giving of information desired on many subjects and the furnishing of many little necessities and comforts have a remarkable effect on the men and tend greatly to their rapid improvement and recovery, as shown in many cases.

It is with great regret and humiliation that I have to report that so far no Southern State has made an appropriation, probably because there is a mistaken belief that Southern men do not touch this port.

We should all co-operate and pull together to create an emergency fund to meet the requirements of these men. Many of the Northern States have created funds ranging from five thousand to thirty-five thousand dollars.

If every one in the Carolinas did their bit for their boys here in New York, think what it would mean! I realize you have had every call made upon you at home, but it is for the Carolina boys here that I ask your co-operation and assistance. Any amount you may see fit to contribute for the work we are doing will be greatly appreciated.

Very sincerely yours,  
HALL OF STATES,  
ELIMA B. WRIGHT,  
MRS. PRIDE JONES,  
Representative for the Carolinas.

She will be at Warrenton High School Thursday morning at 10:30 at Arcola at 3:00 p. m., and at Norlina Friday morning at 10:30. It is hoped that all women and girls will be present at these meetings.

A bulletin board has been placed in the Court House for the use of the farmers and farm women of the county. It is hoped that any wishing to advertise their goods or wishing to buy will notify the Demonstration Agent and such notice will be posted on the board.

Commissioner Graham announces that the price of pure cultures for legume crops will be advanced from 40c. to 50c. an acre due to the greatly increased cost of materials consumed in the manufacture of these cultures. The state department has no funds with which to put the cultures out free of charge; an effort is made however, to put them out at actual cost.

The State Board of Agriculture has taken over the lime stone grinding plants formerly operated by the commissioners and the capacity of these plants are being increased. Farmers who are considering buying lime this fall cannot do better than order through the Department of Agriculture, as these goods are put out at cost.

On Friday night, May 16th a Community Fair was organized at Macon with Mr. Coleman as president. A good crowd was present at the organization meeting and much interest was taken in the movement.

On Saturday afternoon a similar fair was organized at Arcola with Mr. J. F. Hunter as president. On account of weather conditions only a small crowd was present. However the organization was complete and the prospects are good for a successful fair at Arcola this fall.

On Wednesday, May 21st, a meeting will be held at Ellington school for the purpose of organizing a community fair at that place.

### WOMAN'S CLUB HELD INTERESTING MEETING THURSDAY

The Woman's Club, upon call of its president, Miss Julia Dameron, met in the Graded School building last Thursday afternoon. A large and enthusiastic number of Warrenton ladies were in attendance and the discussion of the Constitution was freely participated in by many of those in attendance.

The document was virtually adopted but further discussion will take place next Tuesday afternoon at 4:30 in the State High School building upon one or more points before the matter is entirely settled.

The women of the community are taking much interest in the club and indications are that its field of service will be of immense benefit to the town and community.
