Cash After Death

A lawyer and a minister were having a heated agument about the hereafter. With eloquence the preacher expounded the theory of a life after death. The lawyer listened, bored and plainly unconvinced. The parson finished. The lawyer was unmoved.

"Say what you will, I believe death ands all," he insisted. The minister's sense of humor came

to his rescue. "If death ended all," he observed, "most of you lawyers would he starving to death."-New York Evening Post.

IN MEMORY

Last Saturday night August 21 1920 the hearts of Mr. and Mrs. Robert Arrington were made very sad, when God in his infinite wisdom saw fit to take from them their little three months old son-Albert Lee.

He was sick for only a short while. All that loving hands could do was done for him from the time he was taken sick. But nothing seemed to do any good. We loved him well but God loved him better.

He was laid to rest in the cemetery at Arcola Sunday afternoon. Silently one by one in the infinite

meadows of Heaven Blossoms the beautiful stars. The

beautiful for-get-me-not of angels. May God cheer the hearts of those

who are sad.

A FRIEND.

NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have Health Centers in All Parts of United States.

The American Red Cross has launched upon a nation wide campaign of aghting disease and physical defect among the American people. A new and unique health institution has come into being as the result of several months' study by the Red Cross Health Service Department at National Head-

Officials in charge of the department predict that before long this new health activity will be in actual operation all ever the country, and that the sign-"American Red Cross Health Center" -will become as familiar to the people everywhere as are now the signs of the telegraph companies.

Busy Long Before War. The interest of the American Red Oross in the fight against disease is not, however, of recent origin. Long before the war the organization began this health service through its medical units in disaster relief work and its department of Town and County Nurs ing. During the war and following the armistice thousands of American Red Cross officials have been fighting disease in the war-stricken countries. At the same time tens of thousands of local Red Cross officials have been angaged at home fighting disease, notably during the influenza epidemics.

The American P.ed Cross has de termined that all this valuable experience in health service abroad and at home shall not go to waste. So long as there are a half a million people dying yearly in this country from preventable causes, and so long as more than one-third of the American children and young people are victims of physical defects, the Red Cross recognizes the urgent need for continued Red Cross health service at home.

Hew Organization Works. The Red Cross Health Center 1 geverned by business principles, applies business methods, and, in its more simple form, can be established and conducted by lay people.

It proceeds upon the demonstrated fact that health is a commodity tha can be bought and sold like brooms. and soap. Therefore, it establishes it self in a storeroom in the principal business section of the community. It displays its goods in the form of attractive health exhibits in its show extensively. And it uses every business and social device to attract cus

Teaching Disease Prevention. The Red Cross Health Center is however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways-first of all, by the distribution of popular health literature and through health lectures illustrated with picture films. Then special exhibits are sure that Warren county could boast given, one after the other, on various health subjects. Practical demonstra tions are made; also health playlets by children to interest and instruct them selves and their elders. Classes are organized in personal hygiene, home care of the sick, first aid and in food selection and preparation. Health clubs, both for younger and older people, are formed; also Little Mothers' Leagues Nutrition and growth clinics are conducted for children.

Already more than a hundred of these Red Cross Health Centers are in actual operation throughout the country. Many of them also conduct medical clinics, but the one chief, outstanding feature of the American Red Cross Health Center is its health education service which teaches well people how to keep well.

FRENCH PRAISE FOR . **OUR RED CROSS WORK**

Landing the work accomplished by American philanthropy for warstricken France, Andre Tardieu, form er high commissioner from that na then to the United States, in a recent article widely commented on through-

out the French press, says: "The American Red Cross has accomplished a work which calls for the heartfelt grailinde of every true Frenchman. In 1918 this great relief organization spent in behalf of France nearly \$7,000,000 francs, and in 1019 its expenditures on charitable projects in our country attained the tremendous total of 171,000,000 It has recently turned over to the French relief organizations here stocks of sup-

the splendid premium list gotten out by those in charge of the County Fair. I am wondering now if something can not be done to stimulate the interest of the people at large in the county in this splendid work.

I have observed that every good windows. It advertises constantly and progressive business man is glad of an opportunity to put his wares or business before the public in any way which will bring him results. I am sure that we have some fine business men farming in this county and many that are producing products that many of us would like to have if we only knew where to find them. These good business farmer ought to see the County Fair as one of the best places to let the people at large know what they are producing. At the same time they would enter a friendly rivalry with their neighbors that would be the stimulous for producing more and better crops. I believe if these and the many other splendid advantages that an up-to-date county fair offers to our people were kept before them in lantern slides or with health motion your paper or some other means I am of the best county fair in the State. If all will pull together we can

make it that, lets pull, all together. Sincerely, J. P. HARRIS.

Tuesday night about eleven-thirty a Cadillac automobile, driven by Edward Tarwater, son of Mr. J. J. Tarwater, of this place, rounding the curve above the branch on Norlina road struck a team of horses and wagon. The team, owned by Silas Cheek, was killed, but the driver escaped unharmed. Edward Tarwater was injured and carried unconscious to a Richmond hospital; the extent of his injury has not yet been determined. The other occupants of the car, Mr. Claude Bowers, Misses Norma Miller and Lucy Williams, of Littleton, Will Price and James Polk escaped in-

The young people had been out riding and were returning home from Norlina when coming around the curve they ran into the team. The head of the automobile had passed but in order to keep in the road the breaks were of necessity applied and the car skidded into the horses killing one and breaking the leg of the other. The automobile kept right side up although the fender was smashed. It is not known what struck Edward Tarwater.

Dr. W. A. Burwell and party, who were a short distance behind, brought the Red Cross as the outward ex-Edward Tarwater and the ladies into pression of their citizenship. It is antown where he was attended by Dr. G. H. Macon, and carried on an early morning train to Richmond. No news has been received this morning.

Later reports from Richmond are to the effect that Edward Tarwater "The bends of friendship between has regained consciousness and is not much bruised up; he suffered the loss of one tooth. It is felt that he is now in now danger. This is good news to his many friends here.

MARINE RECRUITING GOOD

Washington, August 26 .- Recruiting for the Marine Corps is rapidly increasing and is expected to reach I have just completed looking over the highest peace-time point for midsummer recruiting this month. Before the war 500 men a month was considered a fair average for the smallest of the three branches of the service, and the present indications are that the August figures will easily

double that number. The Marine Corps is now recruited to about 60 per cent of its authorized strength of 27,400, and at the present rate of progress will reach the maximum number with a few months. While the passing of the pay and bonus bills have had a stimulating effect on enlistments, recruiting officers believe that the educational advantages now offered to Marines are leading large numbers to enlist.

The trouble with many a man is that he makes too much and saves none of it.—Exchange.

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country -sons and daughters of the Stars and Stripes residing at the far corners of

These people compose the insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the imland of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 30,808 paid up members.

The main object of this division is, to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patrio: c. treasure lifeir membership in other tie to the homeland and to each other. There are chapters of this division in Argentine, Bollvia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guame Guatemala, Halti, Hawati, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippings, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuelu and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to tha

relief of disaster and disease victims, The division is now establishing service clubs in foreign ports for the beneat of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day Home Service of the American Red Cross is?

Many people de not know that, besides completing the work for ex-service men, especially the disabled, it provides the same neighboriy service be families in general that it formerly gave families of soldiers, saflers and marines.

"Home Service covers a wide and varied field," says Frederick C. Munroe, general manager of the American Red Cross. "It gives aid to families in solving such problems as budget planning, marketing, tiding over times of financial stress, keeping children in school, helping crippled children, widewed and deserted mothers, children backward in school and children in conflict with the laws. It renders service to the homeless and transient, to the illiterate, to tenement dwellers, ta the unemployed, and gives friendly assistance and advice to foreign speak-

In addition to helping families in the solution of their own problems, Miss Mary Burwell returned yes- Home Service helps in strengthening the weak spots in the social life of communities. It joins hands with others to make communities safes, healthier and happier.

Organizing action along lines in which the community is already interested is one of the objects of Home Service. It has established community meetings, patriotic celebrations, page eants and picnics. Rest rooms, recreation facilities, play supervisors and moving pictures have been provided. Through Home Service other agencies are influenced to bring about improved commercial amusements and better school facilities and to promote traveling libraries as well as to secure county agricultural and home demonstra-
