NUMBER 5

LIVING AT HOME IS **KEY TO PROGRESS**

Bankers and Time Men May Help Reduce Acreage, Student of Farm Life, Says.

REDUCTION MEANS PROFIT.

By JOHN FIELDS Editor Oklahoma Farmer.

It is a fact that those who control land and credits largely determine what farmers do. Whatever is the matter with agriculture in the South today, responsibility for most of it rests with the landowner, bankers and credit merchants of the South. A study of reports of conventions and conferences to consider the state of Southern agriculture leads to the conclusion that, hitherto, they have been long on oratory and short on operation. The end to be sough, was never better expressed than by Henry W. Grady when he said:

"When every farmer in the South shall eat bread from his own fields and meat from his own pastures and, disturbed by no creditor and enslaved being sustained and strengthened by gardens and orchcards and vineyards his crops in his own wisdom and growing them in independence, making cotton his clean surplus and sell- business:

CHICAGO .- The National Anti-Cigarette League announces a drive, to begin next week for 10,000,000 recruits to the clean life movement of the league. Dr. D. H. Kress, of Washington, is president of the organization. An educational and law enforcement campaign is planned.

by no debt, shall sit amid his teeming a drink of nutritious milk when weary with chopping or picking cotton, they and daries and barnyards, pitching are juiced up with a dost of chili tonic and told to hop to it.

Here are the plain facts of the

Visitors Would Cheer Hearts of The Poor," Mrs. Pendleton Says In Open Letter.

PLANS CHURCH SERVICES.

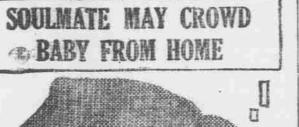

To the Editor:

Should the County Home be moved?

This is a question of great importance not only to the present inmates of the Home, but to inmates who will be there for generations to come, for He, who knoweth all things, has said: "Ye have the poor always with you."

I have been visiting the County home for more than thirty years. When my son, who is now a Lt. Colonel in the army was a lad scarcely in his teens, I would get him to drive me in a spring wagon to the Home to take the inmates Christmas dinners, so I can speak with strong authority on the inconvenience of having the Home so far from town.

Were it nearer town, and on the main road, many of our citizens when taking pleasure drives, and those who live in the country, when passing would stop to speak a word of cheer to these poor afflicted people. They appreciate kindness, and have said to

CLUTCH OF SNOW STORM EASES AFTER HEAVIEST GRIP IN YEARS.

E. E. Gillam Brings Mail To Warrenton After Hours of Battling With 20-Inch Snow; School Interrupted For One Day; Several Business Houses Did Not Open Friday.

FOUR CHIMNEYS SWEPT FROM ELLIS HOWE. CO. ROOF.

Snow still hinders today the normal business and social life of Warren. The cold blanket, which covered the county with 20 inches of fleezy whiteness Thursday night, Friday and Saturday, is slowly melting, and the highways are being opened to travel and trade.

Telephone and telegraph communication was not interrupted in the least here. Mail service could not be maintained Friday morning by T. W. Hight whose Ford refused to buck the snow banks to Norlina. E. E. Gillam, local Ford dealer, plowed through the road in a Fordson tractor and returned to Warrenton Friday

ing it in his own time and in his If every farmer in the cotton States chosen market and not at a master's had, in 1920 and 1921, fed and milked bidding-getting his pay in cash and one cow; bred and fed one sow and not in a receipted mortgage that dis- fattened and killed and cured the charges his debt but does not restore meat from her litter; and made full his freedom-then shall be the break- use of what two cozen hens, assisted ing of the fulness of our day."

Those sentments so beautifully ex- things would be very different now. pressed are always applauded wherever quoted-applauded and that is all.

Dr. Seaman A. Knapp started the agricultural demonstration work in the South and laid the foundation for its agricultural rejuvenation. Among his Ten Commandments of Agriculture are these:

"Increase the farm stock to the extent of utilizing all the waste products and idle lands of the farm." "Produce all the food required for the men and animals on the farm." On many occasions he reiterated

"One of the foundation principles of our work is that the farmers should money-making basis, isn't it time to raise the food for the family and fo the farm stock so that his principal cash crop may be all profit."

Those who have been carrying or the agricultural demonstration work in the South have failed to obtain the results for which Dr. Knapp. hoped That cotton farmers generally have not been influenced by agricultural pratory and have not practiced these sound precepts is clearly shown by some recent reports of the Bureau of the Census. This table shows the number of farms in each 100 farms in the cotton States, which raised no calves and which raised no pigs in 1919;

Pct. calfless Pct. pigle 62.9North Carolina..... 62.8 62.7South Carolina 63.0 57.6Georgie 56.4 Alabama 46.2 54.152.5Mississippi 47.9 54.7Louisiana 57.6 Texas 46.5 61.6Arkansas 48.2 53.7 Tennessee 35.4 45.4 56.335.6 Oklahoma

son, it was announced at headquarters tonight. As was the case when the houses here opened last week, it so often until night's mantle of darkwas said that growers received more money in advance for their crops this son. No reports of dissatisfied growers were received.

Tobacco buyers tonight contrasted conditions as they existed today with those of the opening day for marketing the 1920 crop. Low prices paid for the weed then caused so much dissatisfaction that in several cases the warehouses were closed for a time.

CHIMNEY BLAZE MAKES CROWD HUSTLE TO MODLIN'S

Clanging of he fire bell Saturday evening at dusk brought numbers of persons from the postoffice and others from their home. A chimney ablaze at the Raymond Modlin home

caused the alarm. Persons, excited by the bell, crashed through the snow. The advanced guard of specators turned others back when they reported that "only the chimney had been on fire."

The Warrenton Fire Company returned to the firehouse from Dameron corner. They had made good time with the hose and reel until one returning from the Modlin home stopped the struggle through the snow with the declaration, "the fire is out."
