Collar and Cuff Contrasts Add New Touch to Smart Summer Costumes

BY HARRIET

THE contrast of collars and cuffs on new costumes and the manner in which their skirts get their freedom of fullness are two matters that the woman of fine appearance will do well to consider.

Since silk suits are pre-eminently excellent for early summer and late spring wear, every woman wants one.

She may have it long or short-coated, she may have it caped or jacketed. She may have it with a long, trailing afternoon line or a jaunty cut shortly below the knee.

But if she knows her silk suits, she will have collar and cuff treatments that are interesting and she will introduce a new note in the skirt's fullness.

Big Collar Good

The frilled collar, the big, out-to-the-shoulder collar of contrast ink silk, is excellent right now, being so new in this first season for years to feature anything but the collarless neckline.

Since white is by all means the loveliest combination if one chooses blue or black for one's silk suit (and either is so very satisfactory for the woman who does not have a half dozen suits) the wide collar and cuff touches must be detachable so they can be kept scrupulously clean.

I show one of the newest afternoon suits in navy blue flat crepe that has a fascinating white front frilled collar that is distinctly good on a tall, slender woman and on young girls.

It is made on a two-inch bias banding which can be basted into the neckline of the coat so very easily that it is nothing. The cuffs of the three-quarters coat tie in a cute knot, not a bow. The skirt has deep box pleats inverted both front and back and stitched well below the hipline so they flare like a knee flounce.

Two New Notes

The second suit I show today introduces two very new notes. It is made of a rich gold colored flat crepe, but would be equally stunning in a bright blue, one of the spring greens or rose beige.

Two smart new costumes for the season are shown above.

Its jacket develops into a cute little dolman and uses buttons of self-material to run down the shoulder lines, emphasizing the smart rounded effect of the dolman. Kolinsky collars it, that very satisfactory fur.

The skirt has three godets of the circular French pleatings introduced. The French pleating takes a circular piece and tapers deep pleats at the lower edge into the merest bit of a pleat at the top. It flares like a chic fan when milady walks.

Both the hats on these models are noteworthy for their smartness. The half-and-half blue and white one for the navy blue suit is very new. It frames the face with white and the back is blue. It is felt and has no trimming whatever, relying rather on its line and startling color combination. The gold crepe suit has a lovely brown hat, one of the new shallow crown ones with the thinnest brim. It is one of the feather-weight felts, untrimmed and light enough to be negligible, were it not for its chic.

M. C. McGuire, and Misses Will Jones and Margie Green.

MISS JONES HONOREE

Mrs. Roy Davis entertained at five tables of bridge on Monday night in honor of Miss Will Jones, whose engagement to Mr. Branch Bobbitt has recently been announced. Ladies high score prize was presented to Miss Frances Robertson and Mr. Bignall Jones was winner of the gentlemen's high score prize. Miss Will Jones was presented with an attractive gift. The house was beautifully decorated in Spring flowers and a bride's corsage was placed on the plate of Miss Jones and a bride's maid's corsage was on the plate of Miss Dorothy Walters who was also presented a pair of earrings as a memento of the occasion. A salad course with coffee was served.

AN ALL-STEEL REFRIGERATOR THE FIRST ...THE ONLY ONE!
THIS General Electric is the only refrigerator built entirely of steel! Think what that means! It is sturdy and durable beyond anything that you ever believed a refrigerator could be.
This small-family model freezes a generous supply of ice... and in a shorter time. One tray freezes in two hours, both trays in four. It uses less current because the cabinet is so efficient that cold does not leak out and heat does not creep in. And, of course, it has the exclusive advantage of simplified mechanism, enclosed in an hermetically sealed steel casing and mounted on top. This leaves the greatest area available for food storage and makes possible the top-on-legs model which is so easy to clean under.
In operation it is extremely quiet. It never needs oiling. It is as portable as a piece of furniture. You just plug it into any convenient outlet. See all its unique features yourself. Come in today. And ask about the convenient plan on which it can be bought.
Listen in on the General Electric Hour, broadcast every Saturday evening, 9 to 10 Eastern Standard Time, over the N. E. C. network of forty-two stations.
