That Justice May Ever Have A Champion; That Evil Shall Not Flourish Unchallenged. Entered at the Postoffice at Warrenton, North Carolina, under Act of Congress of 1879.

Love, joy, peace, long suffering, gentleness, goodness, faith, meekness, temperance; against such there is no law.—Galatians 5:22,23.

As we gradually prepare a person for the reception of bad news, that he may not be overwhelmed by the weight of sudden sorrow, Providence also gradually opens to us the knowledge of the human heart, that we may learn to bear the burden of our knowledge.—Baron Joseph Eotvos.

A recent editorial in this newspaper relative to the extension of the corporate limits of the Town of Warrenton seemingly has struck a responsive chord in the hearts of many of our citizens. We think that the matter should be further agitated in order that action may be taken at the next session of the General Assembly. Talk it over with your neighbor.

We noticed in a Washington dispatch carried in the News and Observer early this week that the Federal Government had appropriated an additional 11 millions dollars to build roads in North Carolina. While we are not in sympathy with the plan of the Federal Government to furnish money to the States to build roads, at the same time we feel that it might be well for Warren citizens to demand that a fair share of this money be spent on the Warrenton-Louisburg road. This road, we think, will eventually be a Federal Route.

ELECTION EVERY FOUR YEARS

The first primary is behind us and a number of citizens are now in the throes of a second primary. In this regard we think it would be better if primaries were held later in the year. Not only would it tend to eliminate much lame duck legislation, but would allow officials to serve longer before they would be forced to begin to play politics.

As it is now, a Democratic nominee takes office in December; by the time that he has served a year and begins to become familiar with the duties of his office, his thoughts must turn to the spring primary. His efficiency is impaired until after the primaries are run; and if defeated, feeling that he has been repudiated, he is in no position to give his best efforts to the affairs of the office.

It seems to us to be no real point in holding elections every two years. If we elected our officials every four years, it would give them an opportunity to become familiar with their duties, and incidentally the State would save thousands of dollars by cutting election expenses in half.

Public Pulse

Readers are invited to contribute to this department. Articles should be written as briefly as possible

WANTS RECORDS Editor, The Warren Record: In looking over old family papers I find my great-grandfather came from Warren county, N. C., and I find my great-great-grandfather,

John Colclough, has a will on record there probated in 1803.

From inquiry I find there is none of the name in the county at present. I know there must be tombstones with the name on it and would just be so glad to hear from any of the descendants who happen to read this.

Will be deeply grateful if you will publish this letter just for sentimental reasons.

Very resp., (Mrs. R. H.) LILA C. SMITH. Watkinsville, Ga.

A DESERVED RECOGNITION

Editor, The Warren Record: The friends and supporters of John L. Skinner of Littleton are glad to see that he is made a member of the State Farm Debt Adjustment Commission. On this commission are R. A. Doughton, veteran lawyer and farmer of Sparta, and other outstanding citizens of the state. The purpose of this commission, as stated in the News and Observer of Wednesday, June 13, is "to effect agreements between debtors and creditors, thereby clearing the way for re-financing farm debts with Federal funds."

This appointment of John L. Skinner to such an important board is a highly deserved recognition. Though defeated in Warren county for commissioner, we are glad the State recognizes his superior talents. His defeat illustrates the truth of what the late Tasker Polk frequently said: "That the majority have been wrong on every question of law, government and religion ever since the mob cried 'Crucify Him two thousand years ago.'"

A friend of John L. Skinner told me this humorous incident. A former supporter told John that he could no longer support him for commissioner. This former supporter said he could support him for State Utility Commissioner or Congress, but that he had outgrown the job as county commissioners!

MOSTLY PERSONAL

By BIGNALL JONES

In another column of this newspaper is carried a notice from the Department of Agriculture that citizens operating threshing machines must obtain a license from the Register of Deeds. Said license is not to cost any money, but is required in order that there may be a record of number of machines used. At the same time a record book is to be furnished the operator of the machine that he may keep notes on the number of bushels of grain going through his machine.

Someway or another, I am pretty well fed up on this whole business. This is supposed to be the land of the free and the home of the brave. It is fast degenerating to a point where, it seems to me, it is neither. Government supervision, regulation and general interference is destroying initiative in this country. If a small store keeper wants to add a line of goods, he must obtain a permit. If a farmer wants to operate a threshing machine, he must get a permit. If a farmer with a little extra capital wants to fix up an old mill in his neighborhood for the convenience of his neighbors and for his own profit, he must obtain a permit and special forms from Washington.

I believe in small business men and farmers keeping records. I think it pays. But I have but little patience with efforts being made to ram record-keeping down the throats of the farmers. If a farmer wants to do his bookkeeping in his head, then I think in the final analysis that it is the farmers business.

I am a firm believer in the doctrine of Thomas Jefferson that the best government is that which governs least, and that the prime function of government is protection of its citizens. The Federal government should protect us from foreign invasion, it should protect the citizens from unlawful exploitation on the part of the privileged few, it should protect us from stock manipulation and dumping and other matters affecting the value of our currency. It should exercise jurisdiction over interstate matters. There its responsibility largely ends.

I can not see that it is the function of the Federal Government to furnish money for educating citizens within the states. I can not see that it is the Federal government's duty to feed the hungry and clothe the naked in the states. These, it seems to me, are the states responsibilities.

It seems to me that this business of consolidation and remote control of the people's affairs has been carried much too far. I want to see again a development of communities that will meet their own responsibilities, develop their own leadership. I want to see more independence in State governments, and the destruction of bureaucracies in the Federal government. I want to see this country's affairs turned over not to the mob, but to a class of citizens in each community of the states that can demonstrate that they have the back-bone and the ability to run them.

I want to see this country truly become the land of the free in the

sense that each citizen will be as free as possible to mind his own business. I want to see this country become the home of the brave in the sense that citizens will have the courage to face life with all its problems bravely, to realize their responsibilities and to have the intestinal fortitude to measure up to them.

TO THE VOTERS OF WARREN COUNTY:

I announce that I am a candidate for the office of Judge of the Recorder's Court of Warren county in the Primary of June 30, and I invite your support. I thank the people of the county for the vote cast for me in the first primary; and especially do I appreciate the confidence which was shown by the large vote given in Warrenton, my home township, and several other townships. The continuation of the evidence of good will towards me of the people of the county will be appreciated.

MACEY T. PRIDGEN.

MR. JASPER SHEARIN:

I have formed the habit of loafing to some extent at Frank Allen's service station.

I have heard him discuss the primary, both before and since.

He never claimed to me that you agreed in case you were second man that you would not call for second primary.

He has stated to me that he agreed to you before the primary, that if he was second man, He would not call for a second primary.

Are you willing to answer briefly this question: "Did Frank Allen at

your request make you such a promise?"

Respectfull yours,

E. A. SKILLMAN.

I am writing this without Mr. Allen's knowledge or consent.

TO THE VOTERS:

I wish to express my appreciation to the voters of Warren county for the support given me in the June Primary.

Sincerely yours, H. L. WALL.

TO THE VOTERS:

Please allow me to express to you my deep appreciation for the splendid support given me in the Primary of June 2. I shall continue to endeavor to deserve it.

Sincerely yours, W. J. PINNELL.

TO THE VOTERS:

I wish to thank the voters of Warren County for the splendid support accorded me in the recent primary, and to state herein my stand and correct some errors made as to my candidacy for the House of Representatives.

It is true that I am working for the N. C. State Highway and Public Works Commission. I was not

asked by them to run for the Legislature, nor did I ask their permission to run, being a free citizen of Warren County and of North Carolina and a lifelong Democrat. I think that I have the privilege of entering the race, and if elected I shall proceed with a clear conscience and open mind.

I have always supported the Democratic nominee, have never bolted my party, and never expect to do so as long as we have honest Democrats on the ticket. If elected, I will work and vote for such legislation as I think it best for the State and County. I will give both capital and labor, corporation and individual, employer and employee a square deal, and I will be a representative of all the people and not of the favored few. Upon this platform I solicit your votes and influence.

T. H. AYCOCK.
