

THE TORCH

A department conducted for The Warren County Memorial Library

By MABEL DAVIS The Librarian

Miss Gilbert Visits Library

Miss Margaret Gilbert, representing the State Library Commission, visited this library last week. She expressed herself pleased with the library and the work being done, and commended the vision and sacrifice of those forward looking citizens whose efforts made possible a county library. She reported several other counties that are taking steps toward establishing public libraries, and several others that are building, as we did, with the aid of PWA funds.

Plans For Story Hour Deferred

We are disappointed that plans for a weekly story hour for juniors have had to be called off this summer. After waiting all of these years for a place for it, it seems the irony of fate that conditions do not favor. We have the hall and the proffered assistance of Mrs. Duke Jones, who has had training in the work, but we are afraid to assume responsibility for any group work among children until danger from infantile paralysis has passed.

Memorial Volumes Received

We are indebted to Misses Lucy and Edith Burwell for a copy of Forty-two Years in the White House by Irwin H. Hoover, given in memory of Mr. Pettway Burwell, and to the Men's Bible Class of Emmanuel church for the Colonial Period of American History by Charles M. Andrews, the 1935 Pulitzer prize award for the most distinguished work in history. This book comes to the library as a tribute to the memory of the late Thomas G. Taylor of Oxford, father of our townsman, Joseph W. Taylor. From an out-of-town friend we received a check for \$7.00 recently to be expended in children's books.

Other appreciated gifts include two books for juniors from Miss Eula Clark, a copy of the Soul of Democracy by Grigg, presented by Mrs. W. C. Williams, Macon, and beautiful camellias and lotus from

the gardens of Mesdames Julius Banzet and W. A. Connell.

The Joke Was on the Scientists

The following questions—part of a highly intelligence test—are catch questions, supposed to be unanswerable until recently a bright young University of Iowa graduate confounded the scientists:

1. How long is a piece of string?
2. How far can a dog run into the woods?

Answers:

1. A piece of string is twice as long as the distance between its center and either end.
2. A dog can run only half way into the woods. After that he is running out of the woods.

Elberon Items

Mrs. W. L. Fleming of Henderson, Misses Bettie and Lorine Fleming were visitors in the home of Mrs. Delia F. Aycock Sunday.

Mr. and Mrs. Ashton Jones of Henderson spent a few days with his parents, Mr. and Mrs. A. A. Jones.

Miss Delia Peoples has returned to her home after spending a few days with her sister, Mrs. Johnnie Short, of Middleburg.

Mr. and Mrs. Luther Capps of Townsville spent a few days with her parents, Mr. and Mrs. W. B. Mustian.

Mr. and Mrs. M. K. Aycock and Mr. and Mrs. F. W. Aycock and children were visitors in the home of Mr. and Mrs. W. A. Benson of Inez Sunday.

Mr. and Mrs. W. L. Peoples, Mr. and Mrs. H. F. Jones and children and Mr. and Mrs. Joe Peoples were visitors in the home of Mr. and Mrs. Johnnie Short of Middleburg Sunday.

Mr. and Mrs. G. L. Aycock and family and Mr. and Mrs. W. W. O'Neal and daughter, Mildred, were visitors in the home of Mrs. Delia F. Aycock Sunday night.

Mr. and Mrs. J. A. Shepherd were visitors in Warren Plains Sunday.

Mrs. B. T. Clark spent Saturday night with her sister, Mrs. Wavely Harden of Norlina.

Miss Alma Howell of Townsville is spending a few days with Miss Gladys Mustian.

Would Deport Aliens

WASHINGTON... Congressman Martin Dies (D) of Texas (above), would bar all immigration for 50 years and compel admitted aliens to seek citizenship within 12 months, thus purging the country of 6,000,000 deportables. He claims there are 3,500,000 illegally entered aliens now here and wrestling jobs from our own unemployed.

Household Hints

If you know someone who's stage-struck, and bound and determined to do something about it, send her around to see the American Academy of Dramatic Arts when she gets to New York, instead of sending her around to warm the chairs of the casting offices. If she's good, they'll find it out in the first semester. If she isn't, she'll be gently advised to continue what she used to do!

Some of the smartest maternity dresses ever designed are being shown in the fashion centers these days. They're adjustable—even the evening clothes! They wrap around in front, and you'd hardly know it was that type, and the slips reverse the process at back. Small prints, laces, and dark sheers do wonders for the changing figure.

If you have a child who's growing into the stage where more and more new foods are given him, offer the new feed when he's hungriest. If he refuses a second bite, take it away. But offer it again on the second day when he's really hungry again. Repeat this, and he'll take it eventually. When he does, praise him just a little bit,

and you'll find he'll like his new food from that time on.

When eggs are properly cooked, evening an infant can digest them—omitting fried eggs, and eggs served with highly seasoned sauces. . . . But don't serve a dessert that is rich in eggs in the same meal with the main course of eggs!

How's your posture? If it isn't good, you can't be a really good dancer, for it's the graceful fellow through in transferring the weight of the body, the chest and shoulders over the hips that makes the fluid, graceful dancer. Exercises for the stomach and back muscles are of first importance for the prospective dancer.

The origin of the shape of a pretzel was of religious significance, being symbolic of the arms folded in prayer.

Gaston county will produce at least one-fourth more wheat this year than last. Five new thrashing machines and over 20 reapers were purchased this spring.

Allghany county sheep growers cooperated in the regional wool pool in which over 80,000 pounds of wool was sold for 29 cents a pound.

One of the best small grain harvests in years, report Rowan farmers, who increased their production of wheat and oats this season.

Lespedeza seeded on small grain in Catawba county has begun vigorous growth now that the grain has been harvested. The outlook is for a heavy production of both hay and seed this fall.

WE KEEP CRAZY CHRYSTALS AT ALL TIMES—60c AND \$1.00

We enjoyed our half holiday yesterday afternoon and trust that you who had a full day enjoyed it twice as much.

The golf course was a mecca for many Warrentonians who remained in town on the Fourth in preference to a trip to some distant town.

Our sympathy goes out to those friends who lost heavily by the storm Monday. The whole county needed rain, but we didn't need lightning, hail and a cloudburst.

Our drug store is the nicest place we have found during these hot days. Come in for a cooloff.

OLD SOL

bears down with a vengeance these days

Protect your head and health with one of our

- Sun Shades
- Sun Hats
- Jungle Hats
- or Caps

We also have a nice line of Bathing Caps

Drop by and look e'm over

Although the golf course is fine, we miss the good old days when we had a double-header baseball game here on the Fourth.

We are anxious to fall to come and check the spread of infantile paralysis. We are told there are few cases in cold weather.

"Evesdropping again, said Adam as his wife fell out of a tree."

We'll miss the boys of Company B when they check-out for camp Saturday. Best of luck to each of them.

You can get the makings of a mighty good shampoo here.

WARRENTON, NORTH CAROLINA

Thank You! For a New Record in FORD TRUCK SALES

NORFOLK TERRITORY
99.8%
SALES INCREASE
OVER 1934

TRUCK buyers of Virginia and North Carolina have shown a decided preference for the sturdy Ford V-8 trucks and speedy commercial units...

Truck sales show an 84% increase nationally for the first four months of this year, while the Ford dealers in Norfolk territory show a 99.8% gain—Commercial car sales gain, 86% nationally,—109.7% in Norfolk territory. This is the largest volume of truck and commercial car retail sales by Ford Motor Company since 1926.

There is a definite reason for this. Ford dealers have shown owners by actual tests that the new 1935 Ford V-8 trucks and commercial cars are by far the best Ford Motor Company has ever built.

Forward load distribution, obtained by mounting front springs ahead of axle and moving V-8 engine forward, improves operation throughout.

ONLY THE 1935 FORD V-8 TRUCK GIVES YOU ALL THESE ADVANCED FEATURES

- V-8 engine with 80 full horsepower
- New Forward Load Distribution
- New stronger front axle
- Full-Floating rear axle
- Heavy duty Four-speed transmission
- New, larger centrif-force type clutch
- Improved cooling
- Comfortable, insulated cab
- Rib-cooled, self centering brakes
- Torque tube and radius rod drive
- New spring suspension
- New Truck Styles

Make This On The Job Test

So that you may know the rugged power and flexibility of the Ford V-8 truck or the toughness, speed and economy of the Ford V-8 Pick-Up, we invite you to make this test—Call your Ford Dealer today for an "on your job" test—Use the Ford V-8 truck or commercial car with your own loads on your own route, with your own driver at the wheel. The results will show you the reason for such tremendous Ford V-8 truck, and commercial car, sales gain—you will be under no obligation, of course.
