The Warren County Memorial Library

Books Old and New

Complying with my request to write something for this column about the books she has read this summer, a member of the faculty of one of the Raleigh city schools handed me the following terse and very interesting review:

"The Warren County Memorial Library offers an exceptional opportunity to the lover of reading. Even where libraries are to be found, the selection of books contained therein is not to be compared with the Warrenton Library. In the latter the selection reflects scholarship, artistic appreciation, the scientific spirit, and culture.

"Comments on the new books available in the library, or on the old books, or on the outstanding books would be revealing. This, however, is none of these but rather notes taken from a few weeks of reading at random.

Boyd, James-'Roll River,: A man in hospital about to die dreams through his own life and that of his aunt-the latter comes first in his book. Fair. Over 600 pages.

Pitkin, Walter B-'The Psychology fo Happiness'. A very sane outlook on life. The thesis is that the smooth functioning of the entire personality, chiefly physical, makes for happiness. 1929.

Schmalhausen, Samuel-'Why We Misbehave': The book is dedicated The chapter, 'Comedy and Tragto Freud, Adler, and Jung. 'History penetratingly conceived, is a branch of psychoanalytic psychiatry. Human life is a series of complications of the superior-infer-ladditional meaning to articles ior relation.

Wilder, Thornton-'Heaven's My Destination': A study in psycho- Paralysis Cases pathology. Very subtle. A young man becomes very religious; then loses his faith. He was crazy all of the time.

Anderson, Laughter': Very good. Human nature with emphasis on sex but beautifully done.

Alexander - 'While Woolcott, Rome Burns': Splendid short sketches. A master at writing.

Overstreet, H. A.-'Influencing Human Behavior,' 1925. Good. Easy reading. The three cardinal points in influencing human behavior are: arouse interest, change human nature, exercise the creative powers.

Wolfe, Thomas-'Of Time and the River', 1935: Good descriptions though sometimes they become detailed. Repeats: words, words. Something like Gertrude Stein. The language is expressive, even earthy. The material is evidently autobiographical. The book is an epic of a modern artistic spirit.

Wilson, Charles Morrow-Backwoods America', 1934:U. N. C. Press. Illustrated by Mrs. Bayard Wooten. Very good.

Carmer, Carl-Stars Fell On Alabama,' 1934: Stories of Alabama. Better than fair. The outsider might be tempted to say that the state is not highly civilized.

Werfel, Franz-'The Forty Days of Musa Dagh,' 1934, 817 pp.: A story of the Armenians during the World War. Very detailed and in-

'The New Generation,' edited by Calverton and Schmalhausen, 1930:

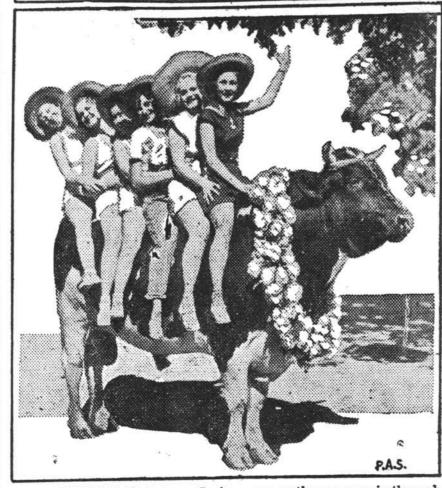

A symposium of the family, parchildren. Excellent. ents and Scientific.

Mann, Thomas - 'Death In Venice': A writer, who worships beauty, falls in love with a beautiful boy. At the end the writer dies. Somewhat like 'Good-Bye, Mr. Chips,' except that it is more artistically written.

Lawrence, D. H.-'Sons and Lovers': A woman who is disappointed in her marriage showers her affection upon her sons, one especially. He develops a mother-complex, depending utterly upon his mother for happiness. He tries to love but cannot. Dreiser has worked out very much the same theme in "The Genius' except that he attributes to the artistic temperament the inability of love to satisfy.

Buck, Pearl-'East Wind: West Wind': A story of life in China. Pictures the break between the generations caused by western civilization. Very artistic.

Knittel, John—'Via Mala': A story of peasant life in the Alps. Some psychology. Good. 677 pp. Sheppard, Muriel Early-'Cabins Heigh Ho, And Off To The Fair Again

FLYING safe and cheap An airplane flew low over Indian Mountain, just west of my farm, last Sunday, and landed in Joe Springstroop's cow-pasture. No, it wasn't a crash. Nobody was hurt. It was just a couple of boys experimenting with a home-made plane, powered with a Ford engine. They hope to get a Government contract

LEMONS and war Next to lemon pie my family likes lemonade on hot Summer evenings. A two-quart pitcher of lemonade doesn't last us very long.

The other day my wife came home from the store indignant. "I had to pay fifty cents for a dozen

little lemons!" she said. week they were only 30 cents. Tom Fallon says the wholesalers have boosted the price to him nearly double."

I asked a friend in the citrus fruit trade about it, next day.

"It's the war in Africa," he said. 'Italy has bought up all the European lemon crops and is bidding for California lemons. They need em for their soldiers, to keep them from getting scurvy."

"War," said my wife when I told her that, "is what General Sherman said it was. No more lemon pie until Mussolini and the Ethiopians get through fighting."

War anywhere certainly touches everybody somewhere.

FARMERS . . . sans character For a hundred years and more the old Hubbard farm, up near Long Pond, has supported, educated and made good citizens of generation after generation of Hubbards. A few years ago old Mr. Hubbard sold the place. I drove by the other day and saw an auction sale going on. The new owners were being "sold up" to satisfy their creditors, and the savings bank had foreclosed the mortgage on the 100
