Mothers read this:

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use a liquid laxative.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. Reduced dosage is the secret of any real relief from constipation.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin It contains senna and cascara - both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated dojes till Nature restores regularity
