That Justice May Ever Have A
 Champion; That Evil Shall Not
 Flourish Unchallenged.

Entered at the Postoffice at War-
 renton, North Carolina, under Act
 of Congress of 1879.

Hated by the world: The world
 cannot hate you; but me it
 hateth, because I testify of it,
 that the works thereof are evil.
 —John 7:7.

The world waits. You may be
 sure that in most human hearts
 there is the steady murmur of
 prayer that life need not be
 yielded up and that there may
 be peace.—Cordell Hull.

**SEASON TO GIVE
 THANKS IS HERE**

The Thanksgiving season
 again comes to our doors,
 comes to us affording an op-
 portunity to return our ap-
 preciation for the many good
 things which the fall of 1936
 brings. The picture is not yet
 perfect, but yet there is vast
 reason to give thanks when
 we compare our present con-
 ditions with those which ex-
 isted a few years ago.

Warrenton county farmers
 have enjoyed a good harvest,
 the prices of their produce
 have been good, and business
 houses as a whole have en-
 joyed a fair season.

America is at present at
 peace with the world, the
 brotherly kindness of neigh-
 bors is among us, and many,
 so many, homes know the
 satisfaction of daily living
 which exemplifies the best of
 virtues.

Let us give thanks to the
 Author of every good and
 perfect gift, and press on-
 ward with our eyes to the
 sun, letting the shadows fall
 behind.

**SHOULD PROTECT
 GAME OF STATE**

A few years ago there were
 probably a half dozen bird
 dogs in the town of Warren-
 ton and hardly more than 100
 in the entire county. Today
 there are probably 50 dogs
 in this town of 1,100 people
 and between 500 and 1000
 dogs in the county.

This noticeable increase in
 the number of dogs and
 sportsmen since the hunting
 fever began to spread a com-
 paratively short time back
 has resulted in the supply of
 wild life of this and other
 counties of the State decreas-
 ing each year. It will continue
 to diminish before the ever-
 increasing army of sportsmen
 who are equipped with good
 guns, good shells and becom-
 ing better shots each year,
 unless more protection is
 given game or other steps are
 taken to increase the supply.

We think the State should
 cut the hunting season from
 three months each year down
 to two months, or either ma-
 terially decrease the price of
 the hunting license and re-
 quire each bird hunter to
 turn loose a pair of partridges
 at the close of each season.
 We believe that if each hun-
 ter would release a pair of
 birds after all the shooting is
 over and the winter has pass-
 ed that there would not be
 much necessity for bag limits
 or game wardens and that
 there would be a noticeable
 increase in the supply of
 game. The money which is at
 present required to purchase
 a license would go a long ways
 towards the purchase of a
 pair of birds.

We would like to see the

sportsmen of Warren get to-
 gether and endorse this idea
 or make other recommenda-
 tions to the State game au-
 thorities tending to preserve
 our supply of wild life.

MAKES PARKING SUGGESTION

Editor, The Warren Record, Sir:
 Having been the victim of an au-
 tomobile accident recently on the
 streets of Warrenton in which my
 car was damaged to the extent of
 fifteen dollars, and another car
 almost as much, I heartily appre-
 ciate your editorial in last week's
 paper in regard to double parking
 on Main Street. This accident was
 caused by a truck being parked in
 the street while the truck driver
 went into a store to do some shop-
 ping.

The town of Warrenton can
 never hope to remedy the parking
 conditions on Main Street until it
 institutes and executes the one
 hour parking ordinance observed
 in all of the larger cities and many
 of the smaller towns where the
 streets are narrow. One business
 man told me recently that he
 parked his seven passenger auto-
 mobile in front of his door to keep
 other people from using that space.
 Two smaller cars could be parked
 there easily and I figure that 25
 cars belonging to the general pub-
 lic could use that space in one day.
 He kindly offered me the use of his
 back lot, but I prefer to patronize
 the man who lets me use his front
 instead of his back door.

Such conditions are a drawback,
 in a small way possibly, to every
 line of business in your town. One
 man told me recently that he used
 to have his hair cut in Warrenton
 but now he preferred Norlina, it
 was "easier parking there." If he
 goes to Norlina to get his hair cut
 he most likely gets his groceries
 and stock feed there too. Another
 man said, "I never go to Warren-
 ton for anything unless it is some-
 thing I need in a hurry, or I can't
 order from a mail order house."
 Many people are using these houses
 more and more, not so much be-
 cause it is cheaper, for we all like
 to see the things we buy before we
 buy them, but because of the con-
 venience.

If the cars on Main Street were
 kept moving every hour, and
 trucks were not allowed to load and
 unload their produce there, an or-
 dinance against double parking
 would not be necessary.

Sincerely,
MRS. O. F. ALBERT

RIGGAN WANTS VISITORS

Editor, The Warren Record, Sir:
 Will you allow me space in your
 columns to publish two letters for
 the benefit of friends and acquaint-
 ances, and others wishing to visit
 me here at the County Sanatorium,
 but have failed to do so in the past
 for fear of Tuberculosis. I am al-
 ways glad to have any one visit me
 that wishes to do so, at any time,
 either day or night, or any day
 during the week I have a clean,
 well ventilated room and sleeping
 porch that has recently been fumig-
 ated with formaldehyde candles.
 I recently had a physical examina-
 tion and X-ray films made of my
 chest by Dr. W. B. Kinlaw of

Rocky Mount, N. C., a T. B. special-
 ist and former patient connected
 with the N. C. Sanatorium, and
 films were sent to Dr. P. P. McCain,
 Supt. of the N. C. Sanatorium, for
 his examination also, and the re-
 ports of the two T. B. specialists
 were as follows:

"Rocky Mount, N. C.
 "Sept. 2, 1936

"W. H. B. Riggan
 "Route 2
 "Macon North Carolina
 "Dear Mr. Riggan:

"Your X-ray films show, as you
 know, a lot of healed Tuberculosis
 in the right lung and some in the
 Apex of the left lung, however, as
 your case is quite arrested, and
 with the Knowledge that you have
 of the disease, plus the absence of
 germs in the sputum, and the care
 that you take, I feel that there is
 no longer any danger of your case
 being contagious. I have already
 explained to you the amount of
 time to take out of bed, and the
 Exercise to take, and you are well
 versed in the routine of Sanato-
 rium rules.

"Trusting that you will gradually
 improve and assuring you that we
 will send the films to Dr. McCain,
 "I am with kindest personal re-
 gards,

"Sincerely yours,
 "W. B. Kinlaw, M. D."

"Sanatorium, N. C.
 "Sept. 26, 1936

"Mr. W. H. B. Riggan
 "Route 2
 "Macon, N. C.
 "Dear Mr. Riggan:

"The X-rays films from Dr. Kin-
 law are to hand.
 "I am glad to hear that you have
 been getting along so well. While
 the films show that you still have
 some trouble in your right lung and
 in the apex of the left, your trouble
 seems to be well under control,
 having formed fibrous tissue in all
 affected parts. The lower two-
 thirds of your left is in good shape,
 and the trouble in both sides seems
 to be the Fibroid type. The X-ray
 shows a more or less mottled hazi-
 ness of healed Tuberculosis
 throughout the right lung, and a
 density in the Apex of the left side
 to the first interspace, and the
 heart seems to be pulled over to the
 right.

"If you are sitting up some, gradu-
 ally increase your time out of bed;
 however, if you are already doing
 this, it will be all right for you to
 walk around some. You may be a
 little short of breath, but do not
 walk enough to get tired. I need not
 explain this to you, for you already
 have full knowledge of the regular
 routine of Sanatorium treatment,
 and you have made an ideal patient
 both times you were here. You
 have rendered quite a disciplinary
 service to the Institution and the
 Medical staff, which I am proud to
 say.

"Your time limit of 18 months on
 the wards has been completely
 taken up, but when ever you feel
 able to walk to your meals in the
 dining room three times a day from
 the men's cottage, I will be glad to
 admit you again for treatment, or
 it is probable that you could be
 admitted at the Black Mountains
 Sanatorium when completed some-
 time next year.

"There is not any danger for
 other folks to visit in your room
 or porch, as I feel that your case is
 no longer contagious. However, as
 you well know, I do not think that
 small children should be allowed to
 visit or play in any sick room.

"Trusting that you will get along
 all right and continue to improve,
 I am, with kindest regards,
 "Very sincerely yours,
 "P. P. McCain, Supt."

**OLD HOMES OF
 WARRENTON**

MR. J. R. RODWELL'S HOUSE

Perhaps the next oldest house at
 this end of town is Mr. J. R. Rod-
 well's. It was built by Mr. John W.
 White. He and his good wife had
 kept the "tavern" down the street,
 but wishing a quiet home, he
 bought the land, and had the
 house built. They had three chil-
 dren: Mrs. Alexander Bennett, Judge
 William White, and Mary, who
 married Mr. Sam Harper.

Mr. and Mrs. Harper were good
 and useful citizens. My sister, who
 lived near them, said there never
 was a better neighbor or friend
 than Mrs. Harper. They lived at
 her father's place until they built a
 cottage facing the railroad when
 they sold it to Mr. J. R. Rodwell.

The first water works ever
 dreamed of in Warrenton were in-
 stalled by Mr. White. He had a
 platform built near his house, and
 two wires on which a bucket was
 attached, extended to the spring—
 the same Buena Vista spring. The
 bucket would go down the hill by
 its own momentum, and by some
 contrivance would dip in the spring,
 and be drawn up full of water by
 a windless, so fresh spring water
 was very easily obtained with very
 little trouble. We school girls
 thought this simple contrivance
 something wonderful.

Mr. John W. White and his son,
 Judge William White, were Clerks
 of the Court for about fifty years.

Judge White married Miss Sallie
 Cole and lived near his father.
 Never was there a more devoted or
 more useful couple. He most faith-
 fully discharged his public duties,
 and she not only attended to her
 domestic affairs, but was ever ready
 to help the sick and needy.

Their children are still in our
 midst; Willie married Miss Minnie
 Rodwell, who went to school to me,
 and I know her to be a very in-
 telligent woman and a good musi-
 cian. Willie has built a large, con-
 venient house next to his grand-
 father's old home.

Kate also went to school to me,
 and she is an intellectual woman,
 who not only takes an interest in
 her church, but in the good of the
 town. She married Mr. J. M. Gard-
 ner, a splendid business man in
 whose prosperity we all rejoice.

**Farm Questions
 And Answers**

Question: Is it safe to feed silage
 to dairy calves?

Answer: Silage should not be
 fed to young calves, but a small
 amount may be included in the
 ration when the calves are from
 three to four months of age. About

two pounds a day is sufficient at
 first as silage is laxative and too
 much will cause scours. This
 amount may be gradually increased
 as the calves grow older. Only good,
 well cured silage should be used as
 any sour or moulded feed will cause
 indigestion and retard growth.

Question: What can I substitute
 for green feed in the poultry
 ration?

Answer: A good grade of cod
 liver oil that has been biologically
 tested for potency and vitamin
 content may be substituted in part
 for green feed. One pound or one
 pint should be added to each 100
 pounds of mash when the substit-

tion is made or it may be fed on
 the grain instead of mixing with
 the mash when more convenient.
 Where possible, however, some cur-
 ed alfalfa hay, lespedeza, or clover
 hay that retains the green color
 should be provided for the vitamin
 content and laxative effects.

Dr. John R. Brinkley of Jackson
 county will build a modern beef
 cattle barn after plans furnished
 by the county farm agent.

Pamlico farmers report a heavy
 yield of sweet potatoes and tobacco
 barns are being used for curing
 houses.
