MISS EMILY PIPPEN, Editor

Mrs. Mabel Morris left Saturday to spend some time with her niece, Mrs. H. L. Townsend, in Marshall, Va.

Miss Gladys Johnston of Wilson was a week end guest in the home of Mrs. Anthony Johnston.

Mrs. Dorma Taylor, Misses Annie Price, Marie Taylor; Messrs. Jimmie Rainey and Billie Taylor spent Sunday with Mr. Macy Taylor in Norfolk.

Miss Joanne Alston, who underwent an appendicitis operation in Roanoke Rapids hospital, is convalescing favorably, her many friends will be glad to know.

Mr. Sidney Ray Williams of State College spent the week end at his home near here.

Miss Emily Phippen, Messrs. Willis Taylor and Dandridge Eouse were in Greensboro Sunday.

Mr. William Nuckols spent Sunday in Battleboro.

Mrs. David Edgar Stevens, formerly Miss Polly Moorecock, spent last week in the home of Mr. and Mrs. Claude Alston.

Mrs. Alma Salmon spent last week end in Norfolk.

Misses Vivian Person, Louise Nash and Esmond Bradley were guests in the home of Mr. and Mrs. W. T. Person last week end.

Mesdames Walter Myrick, T. C. Johnston, and Miss Blar Myrick spent Friday in Raleigh.

Mrs. Charles W. Moseley of La-Cross, Va., nee Miss Mildred Person, spent Saturday with her parents, Mr. and Mrs. W. T. Person.

Mr. and Mrs. Plummer Fitts were guests in the home of Mr. and Mrs. W. T. Person last week end.

Mrs. J. R. Ivey of Raleigh was in town last week.

Mrs. Gilbert Pitt spent last week end with her parents in Roanoke Rapids.

Miss Frances Person of Seaboard spent last week end at her home here.

Mrs. Horace Palmer is convalescing at her home after being ill for some time.

Mr. H. C. Smith was here for the week end.

Misses Hazel Topping and Evelyn Evette were in Raleigh last week.

Mesdames John P. Leach, M. Nelson, Cleveland Stallings, and Miss Emily Stallings motored to Roanoke Rapids Wednesday.

Mr. Will Clark of Ridgeway Com., is here for the winter.

ANNOUNCE MARRIAGE

Mr. and Mrs. W. T. Person of Littleton, N. C., announce the marriage of their daughter, Mildred, to Mr. Charles Warwick Moseley, in Richmond, Va., November 26, 1936.

SENIOR CARD PARTY

The Littleton High School Seniors sponsored a card party at 8 p. m. on January 19, in the high school building. A large crowd of adults and children attended, and the benefits of the party will go to help the Seniors on their trip to Washington. Ice cream and cake were served.

SCHOOL CLOSURE

Littleton High School closed on Wednesday afternoon on account of road conditions. Classes will be resumed Monday morning.

Farm Families Need Better Light Bulbs

Many North Carolina farm families are paying for more electricity than they use, according to D. E. Jones, rural electrification specialist at State College.

This is due to small use of current in some homes where there is a minimum charge per month, he explained.

For example, one large power company serving rural areas a minimum charge based on the cost of 50 kilowatt hours per month. At least half of its rural customers use less than 50 k. w. h., Jones stated.

These homes have better lights and more electrical appliances

without paying any more for current, he pointed out.

Instead of using 25 or 40-watt light bulbs, as some farm families do, they could use 60, 75 or 100 watt lamps for the same cost. Bulbs are inexpensive, and the better bulb would only be making use of current that must be paid for anyway.

Jones also emphasized the fact that low-power bulbs do not give adequate lights for reading, sewing or other similar purposes, and as a result they cause eye-strain.

Even when better bulbs and extra equipment increase the electric bill a small amount each month, the better lights and increased enjoyment of electrical conveniences is more than worth the added cost, he continued.

Jones said that although 5,558 miles of new power lines have been proposed to serve 30,434 rural customers, the actual number who receive the service may be somewhat less, as a certain percentage of the families fail to wire their homes after power has been made available in their communities.

Crop Show Expected To Attract Many

Leading farmers from all parts of North Carolina will exhibit some of their finest seed at the third annual conference and seed exposition which will be held at Goldsboro February 9-10.

Hundreds of farmers and farm boys, as well as State and national agricultural authorities, are expected to attend the event which is sponsored by the North Carolina Crop Improvement association.

As a special feature, the luncheon banquet February 10 will be broadcast through the remote facilities of Station WPTF, Raleigh from 12:30 to 1:30 p. m. Entertainment, as well as short talks, has been arranged for the broadcast.

W. H. Darst, professor of agronomy, will give a preliminary review of the conference and exposition on the Carolina Farm Features radio program January 23.

The Extension radio program in full for the week of January 18-23 follows: Monday, Dr. C. D. Grinnells, "Prevention and Control of Disease of Sheep"; Tuesday, Dr. R. F. Pool, "Some Facts Concerning Injuries of Plants Caused by Sprays and Fertilizer Materials"; Wednesday, Zoology Department; Thursday, Miss Ruth Current, "The 4-H Club Congress in Chicago"; Friday, C. F. Parris, "Broiler Production"; and Saturday, W. H. Darst, "The Third Annual Conference and Seed Exposition".

4-H recreational council has been organized in Mecklenburg County and will hold regular meetings on the first Thursday of each month.

Yadkin farmers report receiving \$8,750.18 in soil conservation checks to date for having cooperated in the soil conservation program in 1936.

All record books kept by farms of Swain County last year indicate that the men made more money in 1936 than they did in 1935.

How to EASE a COLD FOR 15¢

TWO SIMPLE RULES

INSTEAD of buying costly medicines to relieve the discomforts of a cold, try the way almost any doctor you ask will approve as the modern way—genuine BAYER ASPIRIN. It now costs only 15¢ for a dozen tablets, or two full dozen for a quarter.

The way you use it is this: Two BAYER tablets the moment you feel a cold coming on, taken with a full glass of water. Repeat, if necessary, according to directions in package. If at the same time, throat is sore, gargle with three Bayer tablets in 1/2 glass water for almost instant relief. Bayer Aspirin acts to fight fever, and the aches and pains of a cold. Relief comes quickly. Ask your druggist for genuine BAYER ASPIRIN by its full name—not the name "aspirin" alone.

Everyday Cooking Miracles

BY VIRGINIA FRANCIS
Director Hatpoint Electric Cookery Institute

If the way to a man's heart is via his tummy this young hostess will be the party's chief Valentine and the "Queen of Hearts" as well; for with serving pink iced, petit hearts there most likely will be a long stag line waiting to ask for the fair lady's hand, and per-

large greased layer-cake pans and place in cold electric oven. Set the temperature control to 365°, turn switch to bake and bake for 35-40 minutes. When baked, remove cakes from pans and cool. Then cut the cakes into small hearts with a cookie cutter.

The white porcelain finish of the electric range is so easy to clean, that cakes may be iced on the top surface of the range.

haps "another heart, too, please ma'am."

These refreshments are little heart-shaped pieces of the best cake that ever melted in your mouth and they are covered with a thin layer of pink icing. The cake is made by that "never fail" scientific method—the cold oven Hatpoint electric range method. The bakemanship starts in the cold electric oven, the controlled oven temperature rising with the cake. And as a result you have a tall, feathery-light cake baked without any attention. Here is the recipe:

Miracle Hearts

- (Makes 2 dozen small cakes)
- 3/4 cup butter
- 1 1/2 cups granulated sugar
- 2 3/4 cups cake flour
- 3 teaspoons baking powder
- 3/4 teaspoon salt
- 1 cup milk
- 1 teaspoon vanilla extract
- 4 egg whites

Cream butter. Add sugar slowly and beat well. Sift together the flour, baking powder and salt and add to creamed mixture, alternately with milk. Add vanilla extract, then fold in the stiffly-beaten egg whites. Pour into two

And now here is miracle Number 2! Place the hearts on a cake rack and place the rack on the smooth, spotlessly clean working top of the electric range. Then, without flinching, pour the following icing over the cakes and let the drippings fall smack on the enameled surface.

Icing for Miracle Hearts

- 2 cups granulated sugar
- 1/2 teaspoon cream tartar
- 1 cup hot water
- confectioner's sugar, sifted (about 1 pound)
- red vegetable coloring

Cook sugar, cream of tartar and water in a saucepan on the surface unit of electric range until a thin syrup (225°) is formed. Cool slightly. Then add enough confectioner's sugar to make an icing of pouring consistency. Add food coloring and then pour over the hearts, covering them thoroughly with the icing.

The icing on the range top can be quickly "picked up" and reheated for use—that is, unless you have a hungry nine-year old around—and with a swish of a damp cloth this polished surface will gleam again.

Another Leafspots Outbreak Is Feared

Infestations of angular leaf spot, which damaged much tobacco in northeast and northwest North Carolina last year, are expected to break out again this year.

But the disease may be controlled to a considerable extent by treating the seed, said Dr. Luther Shav, State College.

Seed produced in those areas are probably infested with germs of the disease, which is sometimes called blackfire or wildfire.

Dr. Shaw said that leaf spot germs in the seed may be killed by soaking in a quart of water in which a tablespoonful of formaldehyde has been placed.

A fruit jar is a good vessel in which to place the solution for use in treating the seed, he said.

He suggested that the seed be soaked in a cheese cloth sack and soaked for exactly 10 minutes. A longer period may damage the seed, a shorter soaking may not kill all the germs.

Seed should be loose enough in the sack to permit the solution to wet every seed thoroughly.

After dipping the seed, wash it in water until all odor of formaldehyde is gone. It should be rinsed in several changes of water. Then spread the seed out to dry on a paper in a warm room.

This treatment will kill the germs in the seed, but it won't always prevent the infection of young seedlings in the plant beds, Dr. Shaw warned. Select only disease-free plants from the for transplanting.

Increase Given In Farmers Payments

An increase of five per cent in the rate of diversion payments to North Carolina farmers who participated in the 1936 soil conservation program has been announced by J. F. Criswell, of State College. The increase will tend to offset the cost of administering the program, so that in most counties farmers will receive the full amount of

Carter Glass at 79

WASHINGTON... Above is Senator Carter Glass of Virginia, who at 79 is the oldest member of the U. S. Senate. He first served in the 57th Congress. He was Secretary of the Treasury in the Wilson Cabinet. Senator Glass celebrated his birthday two days before the opening of the present 75th Congress.

their payments as originally scheduled, he stated.

Under provisions of the program, farmers were to receive certain payments for diverting land from soil-depleting to soil-conserving crops. From these payments, administration costs in each county were to be deducted.

The administration expenses in various counties range from around three to six per cent of the growers' payment, Criswell added. This amount took care of the expenses of county committeemen and of carrying on compliance work.

In counties where administration costs are only three or four per cent of the total amount of payments, he went on, growers will receive one to two percent more than the amount originally offered.

That is, if a grower was to have gotten \$100 in payments, the five

per cent increase would raise amount to \$105. Then after deducting \$3 for administration expenses, he would receive \$102. But if the grower were in a county where difficulties in administering the program increased administration cost to \$8, says, amount would be deducted from the \$105 payment and he would receive \$99.

On the other hand, if the per cent increase had not been made, the growers would have had to deduct the administration cost from his \$100 payment instead of from the \$105 payment.

In the county where the administration costs were six per cent, he would have gotten \$94 instead of \$99.

Hog Sales continue to grow with prices remaining high, says a report from Craven County.
