MISS EMILY PIPPEN, Editor

Mrs. J. W. Warren spent several days last week in Chase City, Va. Mrs. Harry Midkiff and children spent the week end at the home of Mr. and Mrs. J. W. Warren.

Mr. and Mrs. Clinton Smith of Goldsboro spent the week end with Mr. and Mrs. J. R. Wollett.

Mr. and Mrs. Jimmie Robinson of Macon were guests of Mr. and Mrs. J. L. Price Saturday.

Mrs. Lee Riggan is spending two weeks in Lumberton with her daughter, Mrs. Rodwell Crawley.

Miss Hazel Insook of Richmond, Va., spent the week end here.

Misses Janie and Mary Bland Hedgepeth, Hazel Topping, Mrs. Vernon Walker and W. T. Hedgepeth were in Greensboro last Sunday.

Mr. and Mrs. W. E. Wagner spent last week end in Norlina.

Dr. W. E. Campbell of Raleigh was the week end guest of Misses Elizabeth and Carrie Helen Moore.

Mr. and Mrs. C. B. Alston and little daughter, Carolyn, of Norfolk, Va., spent the week end with Mrs. Harold Smith.

Mr. James Jenkins of Enfield was in town Friday night.

Mr. and Mrs. Paul Johnston and Dorothy Johnston were in Raleigh Saturday.

The following went to Roanoke Rapids Tuesday night to see the motion picture Marie Antoinette: Mr. and Mrs. Paul Johnston, Miss Dorothy Johnston, Mr. and Mrs. Jos. P. Phippen, Mr. and Mrs. George Crawley, Misses Lucy I. Leach, Elizabeth and Carrie Helen Moore.

Misses Rosa Hamilton and Mary Bynum Dark were in Raleigh on Saturday.

Mrs. Fred Morrison of Raleigh was the guest of Mr. and Mrs. Jos. P. Phippen Sunday.

Mrs. Horace Robinson, Horace, Jr., and little Anne were in Roanoke Rapids Thursday.

Mesdames M. L. Cole, A. P. Farmer, and Julian Acree attended the district meeting of the Baptist church in Wise on Tuesday.

The Reverend Francis Joyner left Wednesday for Henderson where he will spend a week.

Miss Mary Emma Smith, who is attending Peace Institute, spent the week end with her mother, Mrs. Harold Smith.

Miss Mary P. Phippen of Raleigh was in her home a few days last week convalescing from a sprained ankle.

Mr. John K. Newton of Enfield was in town Sunday.

Mrs. Paul A. Johnston and Miss Dorothy Johnston will spend this week end in Greensboro with Mrs. Johnston's daughter, Miss Jane Johnston, who is attending W. C. U. N. C.

Mr. Ralph Williams of Warrenton was in town Sunday.

Mr. and Mrs. Alton Parker spent Saturday in Raleigh.

Mr. Morton Davis of South Hill, Va., was in town Sunday.

Mesdames Hinton Pritchard Horace Palmer, and Horace Robinson were in Raleigh Tuesday.

Mr. and Mrs. George Crawley spent Saturday in Raleigh.

Mrs. W. H. Johnston has returned from a two months visit to Chattanooga, New York, Pittsburgh, Pa., and Washington, D. C.

Mesdames E. B. Perry, J. B. Boyce, J. C. Mitchell of Tappahannock, Va., house guest of Miss Hattie Spruill, and Miss Hattie Spruill motored to Wilson Thursday where they were guests at a dinner given by Mrs. E. G. Joyner in honor of her mother, Mrs. S. B. Summerville.

Mrs. I. I. Morton of Wilson spent Sunday with Mrs. Anthony Johnston.

Mr. and Mrs. Johnny Johnston and little son, Johnny, Jr., of Woodland were visitors in the home of Mr. and Mrs. J. R. Wollett Sunday.

Mrs. Jos. P. Phippen and Miss Lucy Leach spent Saturday in Raleigh.

### HONORS MISS STALLINGS

One of the loveliest parties of the autumn was given by Mrs. Milton Stokes on Thursday afternoon at 3:30 o'clock honoring Miss Emily Stallings whose marriage to Mr. Benjamin Horner Hicks of Henderson is to be celebrated Saturday evening, October 15.

Flowers were attractively arranged throughout the lovely home. Five tables were arranged for bridge and, after several progressions, Mrs. John P. Leach held high score. Cut prize went to Mrs. Dennis Rose and low score prize to Mrs. George Ragland. Mrs. Rose, a recent bride, was presented a lovely gift and Mrs. Ragland's birthday was remembered.

Little Eva Ragland, daintily dressed in blue, drew in a toy express wagon piled high with exquisite gifts for the bride-elect. Delicious barbecue, corn bread sticks, slaw, stuffed eggs, potato chips and coffee were served to the following

guests: Miss Emily Stallings; Messdames John P. Leach, L. H. Justis, Robert Thorne, E. L. Crawley, Dennis Rose, W. W. Johnston, H. A. House, J. R. Wollett, C. H. Lambeth, J. B. Latham, M. P. Cassada, S. D. King, J. H. Newsom, Cleve Stallings, C. A. Jones, Harold Smith, P. A. Johnston, Luther Williams, George Ragland, M. W. Ransom, Jos. P. Phippen, Horace Robinson, Horace Palmer, Misses Louise White, Constance Ballance, Claire Benthall, Kara Reid Cole and Eleanor Phipps.

### ELECTED DELEGATE

Miss Annie Perkinson has been elected delegate of the Littleton Methodist Protestant Church to attend the Annual Conference in November at Greensboro. The churches on the charge are Littleton, Vaughan, Corinth, Weaver's Chapel and Hawkin's Chapel.

### Littleton Loses To Bethel Hill Eleven

Littleton High journey far for its opening game of the season, and lost to a strong Bethel Hill High 7 to 0. Bethel scored in the second quarter, after which the teams played on even terms; if any superiority it was Littleton's. In the fourth quarter Littleton had the ball, first down and within 3 feet of the Bethel High goal. Fourth down and 3-4 (Yes, three quarters) of an inch to go, but the line held and Bethel kicked out of danger.

Littleton was outweighed but certainly went down fighting. Both teams played excellent ball but the muddy field favored the heavier team just enough to account for the difference in scoring power.

### Elberon Items

Messrs. Gordon Limer, Charlie and Walter B. Aycock spent last week in the mountains.

Misses Geraldine and Patsy Page of Richmond, Va., were visitors of Miss Rosebud Aycock on Sunday.

Mr. and Mrs. Luther Capps and children of Townsville spent the week end with Mr. and Mrs. W. B. Mustain.

Mr. and Mrs. A. L. Aycock and children and Mr. Beuford Moore of Wake Forest, Mr. and Mrs. M. K. Aycock and son, Mr. and Mrs. W. L. Fleming and son were dinner guests of Mrs. Delia F. Aycock on Sunday.

Miss Delia Peoples of Middleburg spent the week end with her parents, Mr. and Mrs. Joe Peoples.

Mr. and Mrs. G. L. Aycock and family were dinner guests of Mr. and Mrs. W. W. O'Neal on Sunday.

The school children from this community enjoyed the Fair very much Tuesday afternoon and night.

### Farm Questions And Answers

Question: What spacing is necessary in setting out young fruit trees?

Answer: Apple and pear trees should be set at least 35 feet apart and the peach, plum, and cherry trees as much as 25 feet apart. All fruit and nut trees, except strawberry plants, should be planted from one to two inches deeper than they stood in the nursery row with the hole wide enough to receive the roots without bending. If the roots are extremely long, they can be trimmed to around eight inches from the stem. Where grapes are planted, the rows should be ten feet apart with bunch grapes 10 feet apart in the row and Muscadines 20 feet apart.

Question: How can I prevent colds in my poultry flock?

Answer: As practically all colds in poultry are started by drafts and

## NEW BEARINGS SET ASTOUNDING RECORDS

(1) Howard Hughes lands his plane in New York after record breaking flights surrounded by reporters, policemen and the "insiders" who were able to secure passes. Nearly 30,000 spectators were massed behind the outer barriers watching this epoch-making arrival. (2) Group of typical copper-lead bearings. This is the type bearing used in the tractor which operated for 18,000 hours on a hard road grading schedule with absolutely no attention to its engine bearings beyond ordinary lubrication. (3) Hercules Cletrac Diesel tractor on record breaking road building contract in Oregon.

AMAZING endurance records which far exceed engineering dreams of but a few years ago are being established by the infallibility and greatly increased ruggedness of internal combustion engines. Hughes famous flight around the world in a fraction over three days is an outstanding example. A road tractor which worked for 18,000 hours without a single bearing replacement on an almost continuous 24-hour a day stretch is another example.

Back of these spectacular achievements is an engineering

story which is of intense interest in the technical world. The development of the copper-lead bearing has been a material factor in making possible these long runs at top speed and full load. Bohn copper-lead bearings were used in many of the vital parts in the Hughes plane just as they were in the record breaking road tractor. The complete set of copper-lead bearings used in the tractor engine which set the 18,000 hour mark is shown above.

There is much in common between the flight of Hughes "around

the world" in three days, 19 hours and 17 minutes and the tractor which maintained a schedule of 12 trips per hour over an eleven hundred foot average haul on three 7-hour shifts for six days per week until it had completed 18,000 hours of work. Both are extreme examples of speed and endurance and both were equipped with the latest type heavy-duty Bohn copper-lead bearings. Earlier bearing materials could not possibly have withstood the stresses involved in a continuous wide open throttle run of this kind.

## Alas, Their Jelly Would Not Jell In Those Dear Old-Fashioned Days

"THE JELLY WON'T JELL."

"JELLY is as jelly jells," they sighed some 50 years ago, and let it go at that. Nothing in heaven or earth would induce the fruit to turn into a quivering spread if it wasn't of a mind to do it.

There never was anything quite as tasty as homemade jelly when it turned out right, but often it didn't. Part of the trouble with jelly in the old days was that such huge amounts were made at one time. Mother never did things by halves, you know. Dozens of glasses of beautiful spreads were her reward at times, and of course that was nice. But as often as not the jelly was as runny as maple syrup. Then sometimes it was stiff as liver, and Father turned up his nose at that.

Nowadays every jelly is a perfect jelly every time. It's made in small, tidy batches . . . and you use fully ripe fruit, too. Ingredients are

What's wrong with this picture? It appeared back in 1881 in Mr. E. P. Roe's delightful book, "Success With Small Fruits." Reprinted by permission of Dodd, Mead & Company.

measured exactly, boiled one half of a minute, and the result of such industry and accuracy is 11 glasses of jelly instead of perhaps the six you'd get from doing up four pounds of fruit the old way.

There's something special about this new-fashioned jelly, too. It has the flavor of ripe, garden fruit, the texture is firm, yet tender—and its economy is endearing to the thriftiest homemaker.

1881 never even dreamed of a recipe like this. Follow it exactly for a perfect product every time.

dampness it might be well to check the house and see that the birds are protected at all times. Poor ventilation, overcrowding, parasitic infestations, and poor feeding are contributing factors and these should also be carefully checked to prevent weakening the birds. However, after all preventive measures are taken the birds often contract colds and directions for control are given in Extension Circular No. 154, copies of which may be had free upon application to the Agricultural

Editor at State College.

Question: How can I estimate the amount of silage I should put up for my dairy herd?

Answer: The quantity of silage needed will be determined by the number of cows to be fed and the size of the animals. The average size Jersey and Guernsey cow will consume from 30 to 35 pounds of silage daily, while the Ayrshire or Holstein breeds will take from 40 to 50 pounds. For a feeding period

of six months it will take from three to four and one-half tons for each mature cow in the herd. If a longer feeding period is planned, additional feed must be added to the stored silage.

Mrs. D. E. Davis won first prize of \$100 for the best display of apples at the Wilkes county fair when the largest display of apples ever made at that fair was judged by M. E. Gardner, professor of horticulture at State College.

The deadline for securing triple superphosphate under the 1938 agricultural conservation program caught many Mitchell county farmers, who expressed regret that the limited supply would hinder them from applying the phosphate to their lands this year.

The Duplin-Sampson Cooperative Livestock Association sold 284 hogs for 19 growers with top animals bringing \$8.75 a hundred pounds at the first fall shipment for this season.
