

## COOKING SCHOOL OPENS MONDAY

"Star in My Kitchen" To Be Shown At Warren Theatre Oct. 31-Nov. 1

### MERCHANTS GIVE PRIZES

Women throughout the community are planning to attend the first class for home-makers, the Motion Picture Cooking School, scheduled to open at the Warren Theatre on Monday and Tuesday mornings, October 31 and November 1.

A welcome invitation to the wise is sufficient, and the only invitation needed for this novel cooking school is that extended to every woman by The Warren Record. There is no charge to see any of the showings of "Star in My Kitchen."

Because this newspaper stands ready to sponsor all progressive developments, particularly when they affect the homes of the community, it is presenting this motion picture romance of home-making entirely free.

"If I could only see exactly how she mixes and handles her picture."

That comment has been heard from beginners and from more experienced cooks at many cooking schools. Craning necks and anxious eyes, trained on the stage from the sides and back of the demonstration hall, have failed to catch all of the important steps in pastry-making and other culinary arts. Only the early birds in the very front row have had a close-up of the stage in the past, and even they couldn't peer directly into the mixing bowl.

Now the wizardry of the camera has solved the problem, making it possible for every person in the Warren Theatre to share each fascinating stage of the planning, measuring, blending, and baking in practical, up-to-the minute kitchens.

Keeping pace with the baking, roasting and frying, a series of salads and frozen delicacies will parade in and out of the adaptable (Continued on page 10)

## Three Ladies Are Slightly Hurt In Automobile Wreck

Three Warrenton ladies—Mrs. Roy Davis, Mrs. E. L. Green and Miss Dorothy Walters—were bruised and slightly injured last Friday morning when the car in which they were riding overturned a short distance north of Louisburg.

Headed for Durham by way of Louisburg and Franklinton, the car skidded in some manner and turned over about three miles from the county seat of Franklin county. All three of the ladies were shaken and bruised and Miss Walters received a slight cut on her head, but none of them were seriously hurt.

Shortly after the accident occurred Mrs. Gordon Poindexter, Mrs. Mary Eleanor Price Grant, Miss Sarah Blount Massenburg and Gordon Poindexter, Jr., who were en route to Durham, arrived at the scene and their chauffeur and Mrs. Grant brought Mrs. Davis to Warrenton where she received medical attention while the others in the Poindexter car remained with Mrs. Green and Miss Walters.

X-Ray pictures taken of Mrs. Davis this week revealed that she suffered no broken bones, as was feared following the accident. She was driving her car when the wreck occurred.

## Moonshiner Eludes Officers Watching Him Work At Still

Raiding in Nutbush and River townships on Tuesday, Sheriff W. J. Pinell and other officers of the law captured two stills and learned the identity of a man at one of the plants who fled through the woods before an arrest could be made.

Although the officers state that they know the man who was manufacturing whiskey in Nutbush township and later had his father identify his hat which he ran out from under in his hasty getaway, they are withholding his name until he can be found and taken in custody.

The fugitive, they said, approached the scene of the still in his automobile and at that time he could have been seized but the officers decided they should wait until he was seen actually in the act of making whiskey in order to have convicting evidence. The dragnet of the law was spread around three sides of the plant and the alleged bootlegger was seen going about the business of making liquor, it was stated. As the officers crept up on the still he was reported to have gone after a piece of wood to fire the boiler, discovered that he was being watched, and fled through the only hole in the law's line for a get-away.

Attempting to trick the man they wanted, the officers pulled out of the woods and left Sheriff Pinell in hiding with the belief that the fugitive would think all the men had gone and would return to his outfit, get what he wanted, and then climb in his car and drive (Continued on page 10)

## Graham Squad Wins Game From Enfield

Buckling down to tight football after the first half during which time their opponents threatened to score, the John Graham High School team took a 7-0 victory from the hard fighting Enfield team in a match played there last Friday afternoon.

The entire first half was dominated by the Enfield team which several times had the ball inside John Graham's 20-yard line. However, on each occasion when the pigskin was brought within a short distance of the local team's goal line the Warren county boys were able to repel the invading force. Shortly after the second half started the John Graham boys took the ball on their own eight yard line, and by the end of the third quarter they had advanced it to Enfield's two yard line. Dick Miles scored on a reverse around left end and Mac Aycock made the extra point through the line. The game ended with Warrenton well on its way for another touchdown.

This afternoon (Friday) Warrenton plays Rich Square on the local athletic field. The schedule for the remainder of the season is as follows: November 4, Windsor High here; Nov. 11, South Hill there; and Nov. 24, Norlina there.

## The Light Of Men's Minds

By WILLIAM T. POLK

The Hon. Winston Churchill, in his radio speech to America a few nights ago, said a terrible thing. "All over Europe," he said, "the lights are going out." He meant the lights in men's minds, which are being crushed out by the totalitarian states.

This country owes to civilization the duty of keeping those lights trimmed and burning over here. As long as a good free public library is kept open in each community, those lights will stay lit.

"Wisdom," we have it on high authority, "is justified of all her children." And she has a family, though of late years it does seem that she has been using a tremendous amount of birth control. The child of Wisdom and Righteousness is Justice, whose body is the law, corpus juris. The child of Wisdom and Beauty is Art. The great kindergarten of the world where the children of men may consort with the children of Wisdom is the public library.

Bernard Shaw once said that the longer he lived the more he was convinced that the other planets use this Earth as a kind of lunatic asylum. The world has forgotten that the State, like the Sabbath, was made for man. Now man is being made for the totalitarian states.

Before a German scientist can safely discover truth, he had better be sure that it is an Aryan brand of truth; before an Italian judge administers justice, he must be certain that it is a Fascist species of justice; before a Russian can create a work of art, he had better make sure that the Commissar of Art will not raise the question whether it is sabotage. Thus man's noblest search is stultified at its source.

There is only one way to discover truth, administer justice, create art. It is not the way of the corporation or the

## Two Negroes Sent To Roads For Part In Flimflam Game

Henry Robinson and Hezekiah Smith, negroes who were accused of working a flimflam game on Willie Williams, Franklin county negro, and snatching \$10.00 out of his hand here on Monday of last week, were convicted of robbery this week in Recorder's court and each was sentenced to the roads for a period of four months by Judge T. O. Rodwell.

Both of the negroes pled not guilty to the charge, each swearing that Williams voluntarily entered into a bet over a card trick, lost his bet twice—one time for \$5.00 and the other for \$2.00—and that after he lost he walked off with no apparent hard feeling, only to re-

## PWA APPROVES TOWN PROJECT

Telegram From Washington Says Government Okays \$12,670 Allotment

### FOR WORK ON STREETS

A telegram to The Warren Record from Congressman John H. Kerr's office in Washington yesterday afternoon announced that the Works Progress Administration had approved a project carrying a federal allotment of \$12,670 for improving the streets of Warrenton.

The money is to supplement funds left in the town treasury from the bond issue which was passed several months ago to carry on curb and gutter work and will be used for widening, grading and draining streets and laying down new sidewalks in the town.

The approval of this supplementary project means that the approximately 65 men who have been given employment here for the past several months laying curb and gutter and hardsurfacing parts of the streets will remain on the job and that the town will receive the benefit of needed work which should improve the appearance of Warrenton and at the same time make walking and riding more pleasant within the city limits.

While no particular parts of the town have been definitely selected for laying sidewalks, it is believed that the commissioners will agree on placing a concrete walk from Main street down to Warren County Memorial Library along the edge of court square and build a sidewalk on the street from the home of R. T. Watson down by the residence of Mrs. N. M. Palmer as a part of the work to be carried on under the new project.

Since the town started curb and gutter work several months ago after a \$6000 bond issue had been approved by voters to raise the necessary money to supplement federal funds donated in connection with the project, around 6,500 feet of curb and gutter work has been done here. In addition, approximately 3,000 yards of surface work has been completed. The surface work consists of widening streets and filling in between roadbed and the gutter.

The town decided several weeks ago to apply for a supplementary project for improving the streets of Warrenton after it had been learned that the town, by practicing economy and using some of its own equipment rather than purchase new, had not spent all the money raised through the bond issue for curb and gutter work.

The news brought here yesterday in the wire from the office of Judge Kerr, who used his influence to have the project approved, was welcomed by town officials and brought forth a cheer from one of the WPA laborers when he learned that his job would most likely continue for several more months.

## With The Sick

Howard F. Jones Sr. continues to linger in a serious condition at his home here, there being no apparent change in his general condition since he became seriously ill nearly a month ago, although some of his days are better than others.

Mr. Walter Fleming, who has been confined to his home with a cold, or a mild case of influenza, returned to his work this week.
